There has hardly been an American president with a more interesting personality than Woodrow Wilson (1856–1924); it is no coincidence that Sigmund Freud himself wrote a seminal work on psychohistory about him, and according to the doctor’s diagnosis: “His Super-Ego was insatiable.”¹ President Woodrow Wilson, who intervened in World War I and sent troops across the Atlantic Ocean, thought of himself not simply as a politician but as a political messiah whose mission was to “make the world safe for democracy.” This is why the realist Henry Kissinger wrote in his book *World Order* that Wilson’s entire career “would appear more the stuff of Shakespearean tragedy than of foreign policy textbooks.”² After all, all the conservatives’ negative prejudices were confronted by the ideas of the progressive American president, Woodrow Wilson, an ‘egghead’ Princeton professor and university president who came into politics from the outside and had a scientific degree (Ph.D. in history and government), who wrote a book about constitutional government and then wanted to implement his ideas in practice.

In Hungary, in early 1919, Wilson was still seen as a savior, a symbolic figure ensuring the ‘self-determination of nations.’ On 1 January 1919, Mihály Károlyi summed up his foreign policy in three words: “Wilson, Wilson, Wilson” (p. 102). However, the Hungarian political elites quickly became disillusioned with Wilson, as Peter Pastor presented in a book from 1976, *Hungary between Wilson and Lenin*. In the USA, Americans considered him one of the ‘great’ presidents until recently: the peak of the American Wilson cult was during World War II, the emblematic product of which is the 1944 biographical film *Wilson*, which celebrated Wilson
