A Place of Springs Grace M. Jantzen, 2009-12-16 In this book Grace Jantzen constructs a Quaker spirituality of beauty as a theological philosophical response to a world preoccupied with death and violence Having mapped the foundations of western cultural violence in the Greco Roman period and the Judea Christian tradition in *Foundations of Violence* and *Violence to Eternity* she now offers her alternative vision This vision is an original and creative feminist reading of the Quaker tradition considering George Fox and the writings of Quaker women exploring the themes of inner light and beauty as alternatives to violence and the obstacles to building such an alternative world After showing how seventeenth century Quakers offered a different option for modernity she maps the philosophical and ethical implications of engaging with the world through beauty and its transforming power Written for everyone interested in contemporary spirituality it explains how Quaker ideas can provide a way to transform our violent world into one that celebrates life rather than death peace rather than violence This work is the second of two posthumous publications to complete Grace M Jantzen's *Death and the Displacement of Beauty* collection which began with *Foundations of Violence* Routledge 2004

Recounts Kojve's key role in the pivotal exchange of ideas between Eastern and Western European intellectuals in the early twentieth century. This book shines critical new light on the story of Alexandre Kojve's intellectual origins and his role in the emigration of Russian philosophy into the West in the early twentieth century. Trevor Wilson illustrates how Kojve at once adversarial to the insular communities of migr philosophy and yet dependent on their networks and ideas for professional success navigated the specters of the Russian tradition in pursuit of an autonomous self definition as a philosopher and intellectual. Alexandre Kojve and the Specters of Russian Philosophy analyzes the philosopher's complicated relationship to the interwar diaspora and the complex role played by the Russian tradition in his intellectual formation. Wilson examines Kojve's early writings in the migr press on Russian religious philosophy, Soviet politics and Eurasianism and argues for their enduring relevance for understanding Kojve in his mature period. Crucially, he contextualizes Kojve's famed seminars on Hegel and examines how Kojve's thought became embedded in the politics of the Cold War. Based on newly transcribed and translated archival material, he highlights a previously unacknowledged transnational exchange of ideas between Eastern and Western European intellectuals and shows how it played a pivotal role in twentieth century intellectual history and its legacy in the twenty first.

The Seventh Major Understanding Jordan Gray, 2011-04-01 Global awakening is happening now. Each of us is here to play our role in this adventure of transformation. Learning and living The Seventh Major Understanding brings a modern Golden Age into focus. Joshua, a nonphysical being, shares fascinating ideas about humanity's path out of the age of material accumulation into an age of peace, love, abundance and understanding. Joshua's views about God, reincarnation, the ego, karma, judgment and other religious teachings differ from traditional wisdom. He takes a fresh look at these concepts and he urges us to transcend the spiritual boundaries of both Eastern and Western religions. Joshua builds upon our knowing that we create our personal and global reality. Awakening to our oneness with All That Is is the path to a new way of life. The Seventh Major Understanding shines a light on our path into a brighter personal and shared reality, a new Golden Age.

After God Mark C. Taylor, 2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith, religion is the topic of the day. But religion, Mark C. Taylor shows, is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize. Our world, Taylor maintains, is shaped by religion even when it is least obvious. Faith and value, he insists, are unavoidable and inextricably interrelated for believers and nonbelievers alike. Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis, After God redefines religion for our contemporary age. Taylor begins by asking a critical question: What is religion? He then proceeds to explain how Protestant ideas, in particular, undergird the character and structure of our global information society. The Reformation, Taylor argues, was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century. Taylor's breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of atheism and

the secular are already implicit in classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs and practices with modern literature art architecture information technologies media financial markets and theoretical biology After God concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description

Urban Subversion and the Creative City Oli Mould,2015-03-27 Check out the author s video to find out more about the book <https://vimeo.com/124247409> This book provides a comprehensive critique of the current Creative City paradigm with a capital C and argues for a creative city with a small c via a theoretical exploration of urban subversion The book argues that the Creative City with a capital C is a systemic requirement of neoliberal capitalist urban development and part of the wider policy framework of creativity that includes the creative industries and the creative class and also has inequalities and injustices in built The book argues that the Creative City does stimulate creativity but through a reaction to it not as part of it Creative City policies speak of having mechanisms to stimulate individual collective or civic creativity yet through a theoretical exploration of urban subversion the book argues that to be truly creative is to be radically different from those creative practices that the Creative City caters for Moreover the book analyses the role that urban subversion and subcultures have in the contemporary city in challenging the dominant political economic hegemony of urban creativity Creative activities of people from cities all over the world are discussed and critically analysed to highlight how urban creativity has become co opted for political and economic goals but through a radical reconceptualisation of what creativity is

that includes urban subversion we can begin to realise a creative city with a small c **The Prime Movers** Christopher Alan Anderson, 2015-05-14 You align to Source by giving your love to your sexual other half A man gives his securitive love to a woman a woman gives her reproductive love to a man That is all there is We don't need to concern ourselves about loving ourselves as if one could Our only concern is to love our sexual other half Do you hear this Only the action of giving your love to your sexual other half will keep you in alignment to Source such that the Law of Attraction will work for you Why is this so Because you are one of the two sexual Prime Movers In this quote the author gives his overview of the problem and solution of mankind Keywords Metaphysics Sovereign Love Spirit Sex Law Life God Source Enlightenment
