Alan Fraser, 2010 Honing the pianistic self image takes up where The Craft of Piano Playing left off in the development of Alan Fraser's comprehensive piano technique Where Craft focused on the foundational security of the hand's innate structure and function Honing shows you how to take that structure up into a new sophisticated state unstable equilibrium to gain an even finer control over the colours and emotion you produce at the piano from publisher description [Tradition and Craft in Piano-Playing](#) Tilly Fleischmann, Ruth Fleischmann, 2014 Published for the first time this book draws on Tilly Fleischmann's long experience as a performer broadcaster and pedagogue It records what she learnt from her teachers about Liszt's interpretation of the piano music of his contemporaries how he wanted his own piano works performed and what special techniques facilitate the interpretations he favored Discussions of many well known classical piano works appear along side extracts from the compositions in question This is a document of considerable historical importance offering an authoritative account of Liszt's teaching methods **International Piano**, 2006 **Schwann Long Playing Record Catalog**, 1969
