Constance Weaver,1996 Weaver extends her philosophy by offering teachers a rationale and practical ideas for teaching grammar not in isolation but in the context of writing Sentence Combining Donald A. Daiker,Andrew Kerek,Max Morenberg,1985 Twenty three stimulating papers including essays by Peter Elbow Donald Murray and William Strong selected from the more than sixty presented at the Second Miami University Conference on Sentence Combining and the Teaching of Writing Sentence combining has not only survived the paradigm shift in the teaching of writing but continues to stimulate provocative creative thinking about the writing process itself No longer an end in itself but a tool sentence combining has become a method of teaching about ways of thinking of perceiving and of organizing reality **Mechanically Inclined** Jeff Anderson,Lisa Thibodeaux,2024-12-09 Some teachers love grammar and some hate it but nearly all struggle to find ways of making the mechanics of English meaningful to kids As a middle school teacher Jeff Anderson also discovered that his students were not grasping the basics and that it was preventing them from reaching their potential as writers Jeff readily admits I am not a grammarian nor am I punctilious about anything so he began researching and testing the ideas of scores of grammar experts in his classroom gradually finding successful ways of integrating grammar instruction into writer s workshop Just in time for its 20th anniversary this long awaited second edition of Mechanically Inclined continues to merge the best of writer s workshop elements with relevant theory about how and why skills should be taught It connects theory about using grammar in context with practical instructional strategies explains why kids often don t understand or apply grammar and mechanics correctly focuses on attending to the high payoff or most common errors in student writing and shows how to carefully construct a workshop environment that can best support grammar and mechanics concepts In this new edition longtime colleague Lisa Thibodeaux joins Jeff in emphasizing four key elements for grammar instruction short daily instruction in grammar and mechanics within writer s workshop using high quality mentor texts to teach grammar and mechanics in context visual scaffolds including wall charts and visual cues that can be pasted into writer s notebooks regular short routines like express lane edits that help students spot and correct errors automatically Comprising an overview of the research based context for grammar instruction a series of over forty detailed lessons updated research compelling new mentor texts and an appendix of helpful forms and instructional tools Mechanically Inclined is a boon to teachers regardless of their level of grammar phobia It shifts the negative rule plagued emphasis of much grammar instruction into one which celebrates the power and beauty these tools have in shaping all forms of writing *Chicano Speech in the Bilingual Classroom* Dennis J. Bixler-Márquez,Jacob Ornstein-Galicia,1988 This collection of articles conveys information to teachers

and teacher trainers about Chicano Spanish and English in bilingual education and ESL The first section enables the reader to acquire an understanding of the social and educational issues involved in establishing a role for any given variety of Chicano speech The second section provides research about Chicano Spanish and English their distribution characteristics and pertinent potential for educational applications The reader can then proceed to section three and analyze instructional issues suggested applications and options for Chicano speech in the bilingual classroom A select bibliography completes this volume

Writing Incisively William Strong,1991 With a sole focus on revision and editing this book gives students practice and advice for becoming adept readers editors of their writing The text demonstrates the benefits of sentence combining as a revision skill allowing instructors to address the balance of the writing process using whatever approach they wish

The Function of Proverbs in Discourse: The Case of a Mexican Transnational Social Network Elías Domínguez Barajas,2010-03-26 Grounded primarily in the ethnography of communication and aligned with the multidisciplinary of discourse analysis the book examines the use of proverbs in the daily life of a social network of Mexican origin transnational families in Chicago and Michoacán Mexico Various and detailed analyses of actual proverb use reveal that proverbs in this particular population function as a highly contextualized communicative strategy that serves four discrete social functions to argue to advise to establish rapport and to entertain Proposing that the social and cognitive aspects of language use must be combined for a complete understanding of how such genres of language are actually used by regular people in daily life the author shows how ordinary people use sophisticated cognitive processes to interpret the socially relevant meanings of proverbs in everyday conversation The book provides an unusual mix of contextualized discourse analysis that is ethnographic linguistic and cognitive yielding much needed insight into a segment of the Mexican origin population of the Midwestern U S a population whose increasing importance and size is often mentioned but about which precious few linguistic studies have been conducted The volume not only helps to fill this void but it is also one of the few studies that focuses on the impact of transnationalism on linguistic practices regardless of cultural group Departing from the conventional approach of ignoring the role of everyday language use in order to focus exclusively on culture economics or migrant patterns the book makes linguistic practice the central issue and thus affirms that it is language that weaves together the two distant sites of transnational communities providing a fertile area for understanding the perspectives of the transmigrants themselves
