presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology. Yet we have grown to experience the two media as complexly interdependent and even complementary. Clearly digital does not kill print. But literary studies in the digital era cannot simply resume business as usual. It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology. The digital era prompts a rethinking of literary studies' object of study as well as its methods, theories, audiences, and pedagogical practices. What counts as literature necessarily shifts in an age of proliferating born-digital texts and do-it-yourself DIY online publication. Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis? Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect? Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book-loving publics has never been technologically easier? Finally, how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial-age students? Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading. But these discussions still mostly confine themselves to demarcating our proper object of study. We need to think more expansively about digital technology's impact on the underpinning tenets of the discipline. Literary Media Studies is pitched at fellow literary scholars, book historians, media theorists, cultural sociologists, digital humanists, and those working at the interface of these converging disciplines. It models constructive engagement with contemporary digital culture. Most importantly, it brings a burst of sorely needed optimism to the question of literary studies' digital future.

A Trail of Crumbs to Creative Freedom L. E. Henderson, 2014-03-02 Writing is hard. Some writers believe they need a magical mindset. Others believe you must force yourself to write. Such pressures cause pointless suffering. *A Trail of Crumbs to Creative Freedom* proposes a more playful and forgiving approach. Trail tracks the creative recovery of the author who, right after a manic episode, becomes creatively numb and plunges into a depression. Desperately blocked, she longs to re-experience the creative rush of writing her first novel and imagines a trail leading back to it. More than anything, she writes, I wanted to go back. Back to the time before my episode when the ideas had flowed freely. I needed a road, a path, a map. Anything would have been welcome. To go back to the state of inspiration, she remembers, the author probes the nature and source of creativity. Slowly and painfully, the author rediscovers her love for writing and the fun of creative exploration. *A Trail of Crumbs to Creative Freedom* is part autobiography, part inspiration, and part how-to. If you struggle with block, follow this trail of crumbs through the forest to reach the light of creative freedom. Pick up this book today and get started.

Purity and Contamination in Late Victorian Detective Fiction Dr. Christopher Pittard, 2013-05-28 Concentrating on works by authors such as Fergus Hume, Arthur Conan Doyle, Grant Allen, L. T. Meade, and Marie Belloc Lowndes, Christopher Pittard explores the complex relation between the emergence of detective fictions in the 1880s and 1890s and the concept of purity.

The centrality of material and moral purity as a theme of the genre Pittard argues both reflected and satirised a contemporary discourse of degeneration in which criminality was equated with dirt and disease and where national boundaries were guarded against the threat of the criminal foreigner Situating his discussion within the ideologies underpinning George Newnes's Strand Magazine as well as a wide range of nonfiction texts Pittard demonstrates that the genre was a response to the seductive and impure delights associated with sensation and gothic novels Further Pittard suggests that criticism of detective fiction has in turn become obsessed with the idea of purity thus illustrating how a genre concerned with policing the impure itself became subject to the same fear of contamination Contributing to the richness of Pittard's project are his discussions of the convergence of medical discourse and detective fiction in the 1890s including the way social protest movements like the antivivisectionist campaigns and medical explorations of criminality raised questions related to moral purity

Contemporary Fiction and Science from Amis to McEwan Rachel Holland, 2019-04-26 This book identifies in contemporary fiction a new type of novel at the interface of science and the humanities working from the premise that a shift has taken place in the relations between the two cultures in the last two or three decades As popular science comes to assume an ever greater cultural significance contemporary authors are engaging in new ways with ideas that it disseminates A new literary phenomenon is emerging in which the focus on language based theories of the self and the world that has been predominant in the latter half of the previous century is making way for a renewed commitment to the material facts both of human existence and the universe beyond subjectivity The book analyses the work of Martin Amis William Boyd David Lodge Richard Powers Michel Houellebecq Jonathan Franzen Margaret Atwood and Ian McEwan revealing the ways in which these third culture novels negotiate the relationship between literature and science
