E. Schlosser,2021-07-15 Tales of hauntings strange happenings and other local lore throughout the Sunshine state *Dark Florida* Dr. Alan N. Brown,2023-08-21 Author Alan Brown leads readers on a stomach churning turn through Florida s dark side Florida sunshine beckons but in can be unrelenting too And in the shadows tragedy strikes Ted Bundy leads a cast of serial killers who wrought havoc on the state Storms spin onto its shores with landscape altering fury Sharks lurk in the sea and snakes and alligators lie wait in the swamps Gangsters like Al Capone hit Miami Beach for a respite but gangsters like Al Capone take no breaks from their trade A woman spontaneously bursts into flames in St Petersburg Anthrax claims a life in Palm Beach The Bermuda Triangle disappears vessels off the coast Indeed Florida knows boundless leisure but it s just as familiar with catastrophe **Lockheed TriStar** Graham M. Simons,2021-11-30 A thoughtful well organized overview from the beginning to the twilight days of this iconic airliner by the highly regarded aviation historian Large Scale Planes In April 1972 after six grueling years of design and development the then Lockheed California Company now Lockheed Martin delivered the most technologically advanced commercial jet of its era the L 1011 TriStar to its first client Eastern Airlines To mark the moment Lockheed decided to make an impressive statement about the capabilities of its new medium to long range wide body trijet airliner It did so in spectacular fashion Overseen by two test pilots a total of 115 crew members VIPs Lockheed employees and selected reporters boarded a TriStar at Lockheed s Palmdale plant in California The subsequent 4 hour 13 minute flight to Washington Dulles Airport was achieved with virtually no input from the two pilots in the cockpit the TriStar s Automatic Flight Control System being engaged from takeoff roll to landing It was Lockheed proudly claimed the first cross country flight without the need for human hands on the controls On the way to the L 1011 s inaugural flight Lockheed battled through design challenges financial difficulties and even international allegations of bribery with the result that the TriStar famed for its large curved nose low set wings and graceful swept tail remained in production until 1984 by when 250 examples had been built The toll on Lockheed however was too great and after the TriStar it withdrew from the commercial aircraft business In this revealing

insight into the L 1011 the renowned aviation historian Graham M Simons reveals the full story of this airliner s design development and service over the decades since 1970 **Flight Times: Prepared for Departure** Porter Lafayette,2018-01-18 PARANORMAL GHOST STORIES PSYCHIC MEDIUM GUARDIAN ANGELS The best way to describe the FLIGHT TIMES series is Cabin Pressure meets Tales of the City with some paranormal Twilight Zone and X Files thrown in for good measure FLIGHT TIMES is an aviation travel memoir series based on my own real life unusual experiences and unique thought provoking perspectives It is a collaboration which follows my life with a group of airline friends from the late 70 s up until the present day **AIR CRASH INVESTIGATIONS - KILLING 290 CIVILIANS - THE DOWNING OF IRAN AIR FLIGHT 655 BY THE USS VINCENNES** Dirk Barreveld,2018-10-07 On July 3 1988 the American navy ship USS Vincennes a Ticonderoga class guided missile cruiser operating in the Persian Gulf shot down Iran Air Flight 655 an Airbus A300B2 203 on its way from Tehran to Dubai All 290 people on board died Iran Air 655 flew within its assigned corridor The USS Vincennes thought it had to deal with an Iranian F 14 fighter jet From this point of view it was simply a case of mistaken identity It is amazing that a guided missile cruiser with extremely advanced electronic capabilities such as the USS Vincennes equipped with an ultra modern system such as Aegis could make such a case of mistaken identity Although the U S had to pay damages a clear admission of guilt the officers and commander of the Vincennes received awards and decorations after all *Aftermath* Robert Firth,2013-02 Tenerife the worst accident in aviation history like all pilots Captain Van Zanten s decision to go for the take off was only one of the many thousands of decisions he had made in his career Rain snow or fog obscuring the view of the entire runway was not uncommon and something he had experienced many times He was thinking about many things the delays his inconvenienced passengers the schedule and the flight legs facing him after dropping his passengers just 25 minutes away Of course he was 100% certain that the Pan Am aircraft was clear of the runway As his aircraft was gaining speed he was readying himself for the mental switch from visual to instruments as he would be climbing through the fog The instant he saw the Pan Am aircraft looming into view directly ahead of him he knew he knew right then and right there he knew he was dead he knew they were all dead everything flashed through his mind Instinctually he pulled back on the yoke but he knew No pilot would ever consider for a moment initiating a take off unless he was absolutely certain the runway was clear Van Zanten s decision to shove those power levers forward began a terrible inevitable chain of horrendous events sending a enormous shock wave of loss and sorrow down through the decades His two children never saw their dad again Consider the hundreds dead each with many close friends wives and children relatives and associates all suffering from this captain s fateful decision As the wrecked tortured and doomed fuselage hurtled itself toward its fiery destruction he in those last seconds understood everything The survivors and relatives of the dead have to live for the rest of their lives with their losses and every hour of every day they remember and are in this sense forever damaged the changes are profound and permanent deep scars in the psyche *AFTERMATH* speaks to these things In a way

the accumulated grief and loss of the aftermath eventually eclipses the enormity of the horrendous event itself **Truth and Lives on Film** John T. Aquino, 2022-06-17 As early as the Silent Era movie studios were sued over depictions of real people and events Filmmakers have always altered the details of true stories and actual persons living or dead to make narratives more workable and characters more compelling When truth and fantasy become inextricably mixed the effect on people's lives can be significant even devastating This expanded second edition presents an updated history of legal issues surrounding the on screen embellishment of reality with a focus on important court decisions and the use of disclaimers Seventeen courtroom dramas are given fact versus fiction analyses and the The Perfect Storm 1991 is covered in extensive detail A concluding chapter is devoted to actors who became so identified with fictionalized characters that they sought exclusive rights to those personas
