This edited volume presents the proceedings of the 20th CIRP LCE Conference which cover various areas in life cycle engineering such as life cycle design, end of life management, manufacturing processes, manufacturing systems, methods and tools for sustainability, social sustainability, supply chain management, remanufacturing etc.

Product Design Evren Yasa, Ozgur Poyraz, 2024-07-17. Product Design: A Manufacturing Perspective is a collection of works from various research groups highlighting the role of design in manufacturing with industrial use cases from different applications. Design for manufacturing (DFM) is a critical step of the product development cycle that needs to be taken into consideration early in the process and aims at optimizing the product design so that the whole process becomes more cost effective. DFM mainly ensures that the manufacturing process is simplified, manufacturing and assembly costs are reduced along with the amount of waste, scrap material and product quality is maximized. This book will guide you through innovative and various DFM approaches for different types of applications.
