Catelin Hoover, 2009-08-01 Is Feng Shui merely an ancient philosophy direct from the Orient, like so many claims, or is it a subtle and potentially dangerous form of the occult? The practitioners of Feng Shui consult on commercial and residential interior design, architecture, landscaping, building construction, real estate, home staging, personal concerns, and a huge assortment of holistic and alternative forms of healing. They also teach, lecture, author books, as well as sell Feng Shui merchandise. But are they qualified, affordable, and responsible? Feng Shui practitioners offer a huge smorgasbord of cures for healing everything from the common cold to cancer, and for maintaining optimal health and well-being. But how do the

scientific and medical professions evaluate these health and healing methods Similarly the alternative healing therapies used by those embracing Feng Shui philosophies are these beneficial dangerous or a hoax What are the decorating methods and beliefs propagated by Feng Shui How do these compare to the design theories established by Sherrill Whiton the father of modern interior design Should a Christian use Feng Shui methods to decorate their home or office For the Christian what are the considerations and the consequences if these methods are used in their home or office How should the Christian respond to Feng Shui it s practitioners and the many services provided by them As you turn the pages of this book you will find answers to these questions that may surprise alarm and disturb you as Feng Shui is carefully evaluated from a Christian perspective *The Crystal Whisperer: Mastering The Language Of Crystals For Abundance And Joy*

For some, it shows a decline in interest in religion as such; for others, religion has not declined; it has only changed its shape. Possible candidates for Christianity's replacement are the new religious movements of the late 1960s and what is variously called New Age, alternative, or contemporary spirituality. **Secular Beats Spiritual** offers a detailed study of the religious and spiritual innovations of the last 50 years. It assesses their popularity in the UK and concludes that the not-decline-just-change view cannot be sustained. Serious interest in spirituality has grown far less quickly than has the number of us who have no religious or spiritual interest. The most popular and enduring movements have been the least religious ones, and those that have survived have done so by becoming more worldly and less patently religious or spiritual. Yoga is popular but as a secular exercise programme. Transcendental Meditation now markets its meditational technique as a purely secular therapy. British Buddhists now offer the secular Mindfulness, and the Findhorn Foundation, Europe's oldest New Age centre, is no longer the germ of a counter-cultural communalism but sells its expertise to major

corporations Steve Bruce also demonstrates that although eastern religious themes such as reincarnation and karma have become more popular as the power of the Christian churches to stigmatise them has declined such themes have also been significantly altered so that what superficially looks like the easternization of the West might better be described as the westernization of the easternization of the West
