Oguchi begins with front gardens as these are usually what one encounters first when entering a home. Typically these front plantings are not defined Japanese garden types but rather physical areas. He then moves on to tsubo niwa courtyard gardens and kare sansui dry gardens that might be found in the middle or rear of a building or any available small space. Next he introduces tea and tree gardens which are more likely to be sections of a larger garden and highlights specific characteristics and conditions of interior gardens. Within each chapter are general layouts and methods of developing the various gardens which precede specific step by step instructions. The author also offers practical and affordable variations on more ambitious designs and shows how they can be adapted to the reader's home or building. In addition, Oguchi emphasizes the importance of proper maintenance and offers suggestions for special touches and restoration.
