Creating The Capacity For Attachment Treating Addictions And The Alienated Self:

Creating the Capacity for Attachment Karen B. Walant, 1998-08-01 Detached alienated people many of them functioning with a pathologically developed false self barely navigate life's challenges Our cultural emphasis on autonomy and separateness has led to a retreat from valuing interpersonal communal dependence and has greatly contributed to a rise in the number of people whose suffering is often expressed in addictions and personality disorders Using actual patient material including diaries and letters Karen Walant's *Creating the Capacity for Attachment* shows how immersive moments in therapy moments of complete understanding between patient and therapist are powerful enough to dislodge the alienated detached self from its hiding place and enable the individual to begin incorporating his or her inner core into his or her external social self

Creating the Capacity for Attachment Karen Walant, 1995 Systematically examines psychodynamic paradigms for understanding development and applies this analysis to the needs and problems of substance dependent individuals

The Self Psychology of Addiction and its Treatment Richard B. Ulman, Harry Paul, 2013-04-03 In the time of Freud the typical psychoanalytic patient was afflicted with neurotic disorders however the modern day psychotherapy patient often suffers instead from a variety of addictive disorders As the treatment of neurotic disorders based on unconscious conflicts cannot be applied to treatment of addictive disorders psychoanalysis has been unable to keep pace with the changes in the type of patient seeking help To address the shift and respond to contemporary patients needs Ulman and Paul present a thorough discussion of addiction that studies and analyzes treatment options Their honest and unique work provides new ideas that will help gain access to the fantasy worlds of addicted patients *The Self Psychology of Addiction and Its Treatment* emphasizes clinical approaches in the treatment of challenging narcissistic patients struggling with the five major forms of addiction Ulman and Paul focus on six specific case studies that are illustrative of the five forms of addiction They use the representative subjects

to develop a self psychological model that helps to answer the pertinent questions regarding the origins and pathway of addiction This comprehensive book links addiction and trauma in an original manner that creates a greater understanding of addiction and its foundations than any clinical or theoretical model to date **Standing at Water's Edge** Anne

Paris,2010-11-30 For most people who seek to create whether they are artists writers or businesspeople the daily task of immersing themselves in their creative work is both a joy and a profound challenge Instead of stepping easily into the creative state they succumb to chronic procrastination and torturous distraction In *Standing at Water's Edge* psychologist Anne Paris calls on her extensive experience in working with creative clients to explore the deep psychological fears that block us from creative immersion Employing cutting edge theory and research Paris weaves a new understanding of the artist during the creative process Rather than presenting the creation of art as a lonely solitary endeavor she shows how relationships with others are actually crucial to creativity Shining a light on the innermost experience of the artist as he or she engages with others the artwork and the audience Paris explores how our sense of connection with others can aid or inhibit creative immersion She reveals a unique model of mirrors heroes and twins to explore the key relationships that support creativity Paris's groundbreaking psychological approach gives artists valuable new insight into their own creative process allowing them to unlock their potential and finish their greatest projects **Children's Literature** Elizabeth

Addiction Edward J. Khantzian, 2018-02-12 In *Treating Addiction Beyond the Pain* Edward Khantzian offers a collection of his recent works on the study and treatment of substance abuse and addiction. Based on his five decades of experience in working with substance-dependent individuals, this volume builds upon Khantzian's theory of addiction as self-medication and provides insights into how addiction is rooted in human psychological suffering and not pleasure seeking or self-destruction. Almost without exception, life histories of human discomfort, disconnection, and unhappiness leave those so burdened to be vulnerable to the appeal of addictive drugs, including alcohol. Khantzian's sensitive teaching voice weaves together an annotated collection of previously published papers into a powerful and engaging volume of effective practice-based treatments. A timely complement to his earlier collection *Treating Addiction as a Human Process*, this book provides an inclusive and accessible resource for mental health professionals from any background as well as graduate students and those in training.
