*Creation Of Matter* Harald Fritzsch, 1988-11-03      **Cosmology** Edward Harrison, 2000-03-16 Thoroughly revised and updated introduction to past and present cosmological theory      **The Creator and the Creation, how Related** John Young, 1870      *Cambridge History of Christianity: Volume 1, Origins to Constantine* Margaret M. Mitchell, Frances M. Young, K. Scott Bowie,      **John Philoponus' New Definition of Prime Matter** Frans A. J. De Haas, 1997 This is the first full discussion of Philoponus account of matter It is shown here that philosophical problems in Neoplatonism motivated the definition of prime matter as three dimensional extension and that Plotinus Syrianus and Proclus prepared the way for Philoponus      Creation and the Environment Calvin Redekop, 2003-04-01 Recent years have seen a shift in the belief that a religious world view specifically a Christian one precludes a commitment to environmentalism Whether as stewards of God's creation or champions of environmental justice church members have increasingly found that a strong pro ecology stand on environmental issues is an integral component of their faith But not all Christian denominations are latecomers to the issue of environmentalism In *Creation and the Environment* Calvin W Redekop and his co authors explain the unique environmental position of the Anabaptists in particular the Mennonites After a brief survey of the major forces contributing to the world's present ecological crisis *Creation and the Environment* explores the uniquely Anabaptist view of our relationship to what they see as the created order In rural Amish and Mennonite communities they explain the environment especially the land is considered part of the Kingdom God plans to establish on earth In this view the creation is part of the divine order with the redemption of humankind inextricably linked to the redemption and restoration of the material world The well being a purpose of creation and human history are thus seen as completely interdependent Contributors Donovan Ackley III Claremont Graduate School Kenton Brubaker Eastern Mennonite University Thomas Finger Claremont Graduate School Karen Klassen Harder Bethel College Kansas James Harder Bethel College Kansas Lawrence Hart Cheyenne Cultural Center Clinton Oklahoma Theodore Hiebert McCormick Theological Seminary Karl Keener Pennsylvania State University Walter Klaassen Conrad Grebel College David Kline Holmes County Ohio Calvin W Redekop Conrad Grebel College Mel Schmidt Dorothy Jean Weaver Eastern Mennonite University Michael Yoder Northwestern College Iowa      Matter And Spirit In The Universe: Scientific And Religious Preludes To Modern Cosmology Helge Kragh, 2004-11-10 Cosmology is an unusual science with an unusual history This book examines the formative years of modern cosmology from the perspective of its interaction with religious thought As the first study of its kind it reveals how closely associated the development of cosmology has been with considerations of a philosophical and religious nature From nineteenth century thermodynamics to the pioneering cosmological works of Georges Lemaître and Arthur E Milne religion has shaped parts of modern cosmological theory By taking the religious component seriously a new and richer history of cosmology emerges      **The Philosophy of Spirits in Relation to Matter** Charles Mountford Burnett, 1850      **Evolution of Adam and Eve** Jamal Nassar Hussein, 2014-02-07 O

Addresses the biblical philosophical and scientific bases for the doctrine of creation out of nothing while countering contemporary trends that are assailing this doctrine      **Creation, Matter and the Image of God** Dorothy A.

Lee, 2020-04-01 This book gathers together a selection of essays and articles by the author that have as their main focus the Gospel of John They explore the symbolism of the text and the way it communicates key Johannine themes using a narrative critical approach with attention to the theology emerging from the literary structures The contents employ but also seek to move beyond critical methodology to a perspective that takes seriously feminist studies as well as Eastern Orthodox theological emphasis on the integrity of creation      **The Imperial Magazine, Or, Compendium of Religious, Moral, & Philosophical Knowledge**, 1829      Reconsidering Creation Ex Nihilo in Genesis 1 Nathan J. Chambers, 2020-11-15

There is a broad consensus among biblical scholars that creation ex nihilo from nothing is a late Hellenistic concept with little inherent connection to Genesis 1 and other biblical creation texts In this book Nathan J Chambers forces us to reconsider the question arguing in favor of reading this chapter of the Bible in terms of ex nihilo creation and demonstrating that there is a sound basis for the early Christian development of the doctrine Drawing on the theology of Augustine of Hippo and Thomas Aquinas Chambers considers what the ex nihilo doctrine means and does in classical Christian dogma He examines ancient Near Eastern cosmological texts that provide a potential context for reading Genesis 1 Recognizing the distance between the possible historical and theological frameworks for interpreting the text he illuminates how this doctrine developed within early Christian thought as a consequence of the church's commitment to reading Genesis 1 as part of Christian Scripture Through original close readings of the chapter that engage critically with the work of Jon Levenson Hermann Gunkel and Brevard Childs Chambers demonstrates that far from precluding interpretive possibilities reading Genesis 1 in terms of creation from nothing opens up a variety of interpretive avenues that have largely been overlooked in contemporary biblical scholarship Timely and innovative this book makes the case for a new or recovered framework for reading Genesis 1 that will appeal to biblical studies scholars and seminarians      Nature Sir Norman Lockyer, 1888      On Matter and the Human Body

Vol 1 Bp Kiril Zinkovsky, Great Fathers of the Church on Matter and the Human Body plus St Athanasius the Great St Gregory of Nyssa Novelty Concepts in the Great Church Fathers meonicity of matter of St Basil the Great Ideas in the writings of Athenagoras modern biomedical technologies St Cyril of Jerusalem      Genesis Johann Peter Lange, 2024-08-28 The original 63 volumes set are now reduced to 9 volumes We have completed volumes 1 6 9 which are the New Testament Lord willing during 2023 2024 we will try to complete volumes 2 5 which are the Old Testament This volume was published between 1867 1874 In contrast to the extreme skeptical critical mode which came to characterize much of German scholarship in the 19th century Lange represented a more traditional conservative and Evangelical approach shared in

common with men such as E W Hengstenberg He was also a Reformed minister and the Commentaries reflect this combination of conservative criticism Evangelical theology and homiletics in a way that is unique For each passage that is covered a consistent approach is adopted throughout After giving the text in translation along with textual notes as footnotes three different kinds of commentary are presented EXEGETICAL AND CRITICAL DOCTRINAL AND ETHICAL HOMILETICAL AND PRACTICAL This gives you three times the value For each verse you select a drop down box will appear allowing you to choose from each of these areas or kinds of commentary For detailed analysis go to the exegetical critical notes for sermon ideas and pastoral insights select the Homiletical notes

Light from the East Alexei V. Nesteruk, In this unique volume a new and distinctive perspective on hotly debated issues in science and religion emerges from the unlikely ancient Eastern Orthodox Christian tradition Alexei Nesteruk reveals how the Orthodox tradition deeply rooted in Greek Patristic thought can contribute importantly in a way that the usual Western sources do not Orthodox thought he holds profoundly and helpfully relates the experience of God to our knowledge of the world His masterful historical introduction to the Orthodox traditions not only surveys key features of its theology but highlights its ontology of participation and communion From this Nesteruk derives Orthodoxy's unique approach to theological and scientific attribution Theology identifies the underlying principles logoi in scientific affirmations Nesteruk then applies this methodology to key issues in cosmology the presence of the divine in creation the theological meaning of models of creation the problem of time and the validity of the anthropic principle especially as it relates to the emergence of humans and the Incarnation Nesteruk's unique synthesis is not a valorization of Eastern Orthodox thought so much as an influx of startlingly fresh ideas about the character of science itself and an affirmation of the ultimate religious and theological value of the whole scientific enterprise

A Metaphysics of Creation for the Information Age Liran Shia Gordon, 2022-05-23 The metaphysical and theological writings of John Duns Scotus 1265-1308 one of the most intriguing albeit if now nigh forgotten philosophers of the late Middle Ages were seminal in the emergence of modernity A Metaphysics of Creation for the Information Age A Dialogue with Duns Scotus uses the prism of the concept of Creation as the leitmotif to assemble and interpret Scotus's system of thought in a unified manner In doing so Liran Shia Gordon reframes Scotus's metaphysics such that it confronts the challenges posed by information technology and its impact on our lives thought and actions Surprisingly although there has been great interest in the emergence and dissemination of information technology through the popular media there has not yet been a genuine and vigorous philosophical consideration of the multiple ways information technology alters the basic categories by which we perceive and understand reality Juxtaposing medieval philosophy and information technology offers an unconventional horizon to frame the foundational changes carried by the information revolution and reassess the relevancy of medieval philosophy
