Craft Learning as Perceptual Transformation Tom Martin, 2021-01-11 Through an examination of three wooden boat workshops on the East coast of the United States this volume explores how craftspeople interpret their tools and materials during work and how such perception fits into a holistic conception of practical skill The author bases his findings on first person fieldwork as a boat builder s apprentice during which he recorded his changing sensory experience as he learned the basics of the trade The book reveals how experience in the workshop allows craftspeople to draw new meaning from their senses constituting meaningful objects through perception

that are invisible to the casual observer Ultimately the author argues that this kind of perceptual understanding demonstrates a fundamental mode of human cognition an intelligence frequently overlooked within contemporary education

Star Trek and American Television Roberta Pearson, Máire Messenger Davies, 2014-04-18 At the heart of one of the most successful transmedia franchises of all time Star Trek lies an initially unsuccessful 1960s television production Star Trek The Original Series In Star Trek and American Television Pearson and Messenger Davies take their cue from the words of the program's first captain William Shatner in an interview with the authors It's a television show In focusing on Star Trek as a television show the authors argue that the program has to be seen in the context of the changing economic conditions of American television throughout the more than four decades of Star Trek's existence as a transmedia phenomenon that includes several films as well as the various television series The book is organized into three sections dealing with firstly the context of production the history and economics of Star Trek from the original series 1966-1969 to its final television incarnation in Enterprise 2002-2005 Secondly it focuses on the interrelationships between different levels of production and production workers drawing on uniquely original material including interviews with star captains William Shatner and Sir Patrick Stewart and with production workers ranging from set builders to executive producers to examine the tensions between commercial constraints and creative autonomy These interviews were primarily carried out in Hollywood during the making of the film Nemesis 2002 and the first series of Star Trek Enterprise Thirdly the authors employ textual analysis to study the narrative storyworld of the Star Trek television corpus and also to discuss the concept and importance of character in television drama The book is a deft historical and critical study that is bound to appeal to television and media studies scholars students and Star Trek fans the world over With a foreword by Sir Patrick Stewart Captain Jean Luc Picard in Star Trek The Next Generation
