## **Artificial Intelligence For Microcomputers The Guide For Business Decisionmakers:**

**Artificial Intelligence for Microcomputers** Mickey Williamson, Miryam Ehrlich Williamson, 1986      **Artificial Intelligence for Microcomputers** Mickey Williamson, 1986      *Expert Systems in Construction and Structural Engineering* H. Adeli, 2003-09-02 Expert Systems in Construction and Structural Engineering is a valuable reference both for researchers interested in the state of the art of civil engineering expert systems and practitioners interested in exploring the practical applications of this new technology      **The Information System Consultant's Handbook** William S. Davis, David C. Yen, 2019-04-30 The Information System Consultant's Handbook familiarizes systems analysts, systems designers and information systems consultants with underlying principles, specific documentation and methodologies corresponding to the primary stages in the systems development life cycle. The book divides into eight sections: Principles, Information Gathering and Problem Definition, Project Planning and Project Management, Systems Analysis, Identifying Alternatives, Component Design, Testing and Implementation, Operation and Maintenance. Eighty-two chapters comprise the book and each chapter covers a single tool, technique, set of principles or methodology. The clear, concise narrative supplemented with numerous illustrations and diagrams makes the material accessible for readers, effectively outlining new and unfamiliar analysis and design topics      **Expert Systems and Related Topics** Marlene A. Palmer, 1990-01-01 This comprehensive reference to all areas of expert systems and applications plus advanced related topics lets you spend your time reading expert systems literature rather than searching for it. It gives you a source of historical perspectives and outlooks on the future of the field. Whether you are a manager, a developer or an end user or researcher, *Expert Systems and Related Topics* Selected Bibliography Guide to Information Sources puts all the sources of expert systems literature at your fingertips      **AI Magazine**, 1993      *Community Oriented Primary [i.e. Primary] Care in Action*, 1989      *Expert Systems in Education and Training* Thomas D. McFarland, Reese Parker, 1990      *Operations Research and Management in Fishing* A. Guimarães Rodrigues, 2012-12-06 Over eleven years have passed since the last NATO sponsored meeting on Fishing which took the form of a Conference held in Trondheim in 1979. The proceedings contained in this book consist of papers presented in support of an Advanced Study Institute on Operations Research and Management in Fishing held at Póvoa de Varzim, Portugal from March 25 to April 7, 1990. It was originally intended to use the five themes: Production Functions and Management, Marine Fish Stocks, Fisheries Models, Fish Farming and Miscellaneous. There were no contributions on Fish Processing and the Fish Farming papers were not original. It was also decided to group the papers on Fisheries Models and Marine Fish Stocks together which means the proceedings has four headings: Opening Session, Production Functions and Management, Marine Fish Stocks and Fisheries Models, Miscellaneous. The contributions give a broad and complete overview of historical approaches and of recent trends on research in different sectors of fisheries. Criteria for quota distribution and schemes based on conclusions drawn from models and methods are presented. Surveillance methods are described in relation to

species conservation and catch improvement Different levels of regulatory enforcement are discussed and the implications of new technologies are introduced Applications of Expert Systems to stock assessment and efficiency improvement in field sampling are presented Models for fleet dispatch planning and fleet structure appraisal are introduced and procedures for operational capacity evaluation of fishery harbours are considered *ICS Applied Artificial Intelligence Reporter* ,1985
