The Armageddon Inheritance Weber, 1993-12-01 **JOB PRESSURE** Colin MacIntyre's life as a NASA astronaut might not have been exciting but at least it was orderly Unfortunately he's been tapped for greater things and he isn't too sure he likes it First he was kidnapped by an ancient self-aware starship masquerading as Earth's moon Then he was drafted as its captain to suppress a five thousand year old mutiny And then he had to mobilize the planet against the attack of an eons old ancient menace dedicated to the eradication of all intelligent life in the galaxy It's hard to blame him for feeling a little stressed but there's something Colin MacIntyre doesn't know about all the things he's had to do They were the easy part **The**

The war wasn't going well The mind-numbingly alien Arachnids were an enemy whose like no civilized race had ever confronted Like some carnivorous cancer the Bugs had overrun planet after planet and they regarded any competing sentient species as only one more protein source They couldn't be reasoned with or even talked to because no one had the least idea of how to communicate with a telepathic species with no recognizable language and whose response to any communication attempt was a missile salvo No one knew how large their civilization if it could be called a civilization actually was or how it was organized but the huge fleets they threw against their opponents suggested that it was enormous The Grand Alliance of Humans Orions Ophiuchi and Gorm united in desperate self-defense have been driven to the wall Billions of their civilians

have been slaughtered Their most powerful offensive operation has ended in shattering defeat and the deaths of their most experienced and revered military commanders The edge in technology with which they began the war is eroding out from under them and whatever they do the Bugs just keep coming But the warriors of the Grand Alliance know what stands behind them and they will surrender no more civilians to the oncoming juggernaut They will die first and they will also reactivate General Directive 18 however horrible it may be Because when the only possible outcomes are victory or racial extermination only one option is acceptable The Shiva Option At the publisher s request this title is sold without DRM Digital Rights Management

annexation by the Star Kingdom by any means necessary Pirates terrorists genetic slavers smuggled weapons long standing personal hatreds and a vicious alliance of corporate greed bureaucratic arrogance and a corrupt local star nation with a powerful fleet are all coming together and only Hexapuma her war weary captain and Honor Harrington s students stand in the path They have only one thing to support and guide them the tradition of Saganami The tradition that sometimes a Queen s officer s duty is to face impossible odds and die fighting At the publisher s request this title is sold without DRM Digital Rights Management

Hell Hath No Fury David Weber,Linda Evans,2007-03-01 GATEWAY TO HELL S FURY The Union of Arcana has expanded through the portals linking parallel universes for over a century and a half In that time its soldiers and sorcerers have laid claim to one uninhabited planet after another all of them Earth and in the process the Union has become the most powerful most wealthy civilization in all of human history But now the Union s scouts have discovered a new portal and on its far side lies another human society Sharona which has also been exploring the Multiverse and the first contact between them did not go well Arcana is horrified by the alien weapons of its sudden opponents weapons its sorcerers cannot explain weapons based upon something called science But Sharona is equally horrified by Arcana s magical weapons Neither side expected the confrontation and each thinks the other fired first But as the initial disastrous contact snowballs into all out warfare both sides can agree on one thing The portal which brought them together is Hell s Gate itself At the publisher s request this title is sold without DRM Digital Rights Management
