An Armenian Artist in Ottoman Egypt Majdī Jirjis, 2008 Yuhanna al Armani has long been known by historians of Coptic art as an eighteenth century Armenian icon painter who lived and worked in Ottoman Cairo Here for the first time is an account of his life that looks beyond his artistic production to place him firmly in the social political and economic milieu in which he moved and the confluence of interests that allowed him to flourish as a painter Who was Yuhanna al Armani What was his network of relationships How does this shed light on the contacts between Cairo's Coptic and Armenian communities in the eighteenth century Why was there so much demand for his work at that particular time And how did a member of Cairo's then relatively modest Armenian community reach such heights of artistic and creative endeavor Drawing on eighteenth century deeds relating to al Armani and other members of his social network recorded in the registers of the Ottoman courts Magdi Guirguis offers a fascinating glimpse into the ways of life of urban dwellers in eighteenth century Cairo at a time when a civilian elite had reached a high level of prominence and wealth Illustrated with 28 full color reproductions of al Armani's icons An Armenian Artist in Ottoman Egypt is a rich and compelling window on Cairene social history that will interest

Armenians of Iraq Hamied Al Hashimi,2023-07-21 Armenians are one of the ethnic components of the Iraqi social spectrum Nothing was known about Armenians of Iraq except as Christians or as migrants from Armenia originally It is well known that the Armenians of Iraq are generally keen to preserve their Armenian ethnic and cultural entity and are usually peaceful and far from being involved in political conflicts and polarization However some people might imagine them living in the shadows or margins of Iraqi life especially since there is a near total absence of studies on Iraqi Armenians in the different fields of humanities and social

sciences This gives us an impression of their conservatism and closeness but this dissipates as soon as the researcher goes to investigate them This leaves us with a number of questions about the existence of Armenian people in Iraq What is their relationship with the mother country Armenia What are the demographic characteristics of their population in Arabic countries What are the social and cultural characteristics of their lifestyle in Iraq including marriage customs What were their roles in the development of Iraqi public life if they existed in Iraq Do they have a conflict of social identity All these queries are our current research concerns through which to introduce Iraqi Armenians to the reader and interested parties

Those Who Stayed, 1922 Angelos Dalachanis,Alexis Rappas,2025-09-30 The year 1922 marks a major turning point in Eastern Mediterranean history with the abolition of the Ottoman Sultanate concluding a long period of upheaval known as the Eastern Question As the empire gave way to European colonization and the nation state model its once multicultural societies were homogenized through violence population transfers and treaties The liberal principle of national self determination often led to devastating human costs as populations were either massacred forcibly exchanged or reduced to minorities within new political entities While scholarship has thoroughly documented the demographic changes that accompanied the post Ottoman transition this volume focuses on a less explored dimension the agency of those labeled as minorities It examines how these communities navigated their new reality within emerging nation states or League of Nations mandates Adopting a broad and situational understanding of minority it includes both legally defined groups and those marginalized in practice such as Muslims in Western Thrace Christians in Istanbul Armenians in Jerusalem Muslims in Serbia and Jews in Salonica The volume uses diverse methodologies archival research network analysis microhistory and translocal perspectives to investigate the lived experiences of entrenched minorities It offers new insights into both lesser known and familiar minority groups while engaging critically with existing literature By emphasizing these groups strategies and resilience the volume challenges narratives dominated by violence and nostalgia offering a more nuanced understanding of post 1922 Eastern Mediterranean history It will appeal not only to scholars of minority studies but to anyone interested in the region s modern past

Outcasting Armenians Talin Suciyan,2023-10-25 The history of Tanzimat in the Ottoman Empire has largely been narrated as a unique period of equality reform and progress often framing it as the backdrop to modern Turkey Inspired by Walter Benjamin s exhortation to study the oppressed to understand the rule and the ruler Talin Suciyan reexamines this era from the perspective of the Armenians In exploring the temporal and territorial differences between the Ottoman capital and the provinces Suciyan brings the unheard voices of Armenians into the present Drawing upon the rich archival materials in both the Archives of the Armenian Patriarchate of Constantinople and the Ottoman Archives Suciyan uses these to show the integral role Armenians played in all aspects of Ottoman life and argues that accounts of their lives are vital to accurate representation of the Tanzimat era In shedding much needed light on the lives of those who were vulnerable disadvantaged and otherwise oppressed Suciyan takes a significant step toward a more inclusive
