Arnhem Spearhead A Private Soldiers Story:

Arnhem Spearhead James Sims, 1978 *Captured at Arnhem* Peter Green, 2022-07-20 For the British 1st Airborne Division Operation Market Garden in September 1944 was a disaster The Division was eliminated as a fighting force with around a half of its men were captured The Germans were faced with dealing with 6 000 prisoners in a fortnight many of them seriously wounded Somehow the men were processed and despatched to camps around Germany and German occupied eastern Europe Here the men experienced the reality of the collapsing regime little food and shrinking frontiers Once liberated in 1945 returning former prisoners were required to complete liberation questionnaires Some refused Others returned before Operation Endor to handle released men and their repatriation to Britain was in place Around a third did However the questionnaires that do exist give an picture of every day experience for the 2 357 of these elite troops time in captivity from capture to release They show that German procedures still operating but that men were often treated inhumanely when moved to camps by closed box cars and when camps were evacuated Although their interrogators were interested in Allied aircraft and airfields their interrogators were also concerned the effect of the new miracle weapons and with politics how Germany would be treated after an Allied victory Nevertheless the airborne men s morale remained high carrying out sabotage at artificial oil plants railway repairs factories and mines Some overcame their guards when being evacuated at the end of the War in some cases joining the Resistance They record help received from Dutch French and German civilians **Monty's Men** John Buckley, 2013-11-26 Historian John Buckley offers a radical reappraisal of Great Britain s fighting forces during World War Two challenging the common belief that the British Army was no match for the forces of Hitler s Germany Following Britain s military commanders and troops across the battlefields of Europe from D Day to VE Day from the Normandy beaches to Arnhem and the Rhine and ultimately to the Baltic Buckley s provocative history demonstrates that the British Army was more than a match for the vaunted Nazi war machine This fascinating revisionist study of the campaign to liberate Northern Europe in the war s final years features a large cast of colorful unknowns and grand historical personages alike including Field Marshal Sir Bernard Montgomery and the prime minister Sir Winston Churchill By integrating detailed military history with personal accounts it evokes the vivid reality of men at war while putting long held misconceptions finally to rest **Arnhem Umbrella** Neil Thornton, 2022-12-14 Operation Market Garden was Major Digby Tatham Warter s first action As the OC of A Company 2 Para he led the advance to the Arnhem road bridge brushing aside German resistance to reach the objective Over the course of the next four days Digby a well known eccentric enhanced his reputation further by displaying solid leadership and a fearlessness that left everyone who witnesses it in awe Picking up an umbrella and bowler hat from one of the houses Tatham Warter strolled around the perimeter oblivious to shot and shell instilling confidence in his men and inspiring them to battle on in the face of overwhelming odds Wounded and captured at the battle s end Digby escaped and linked up with the Dutch Resistance For weeks he strutted around the area

disguised as a deaf and dumb Dutchman to fool the Germans He collected over hundred paratroopers evaders and forged a plan to lead them through enemy lines to safety His post war years are just as exciting This is his story **Gunners from the Sky** Paul Chrystal,David Chrystal,2023-10-12 This is the story of the 1st Air Landing Light Regiment RA and its role in the Italian campaign and at the Battle of Arnhem It is also the story of one of its soldiers 14283058 Gunner Eric Wright Chrystal father of the authors Eric joined the army in September 1942 and after training joined the newly formed glider borne regiment the following year He first saw action in Italy in 1943 where he was seriously wounded On 17 September 1944 two years to the day since he enlisted he and the regiment were landed by glider near to Arnhem in the Netherlands The authors recount set their father s experiences in context by describing the formation of the unit and the many months of training in England Their involvement in the Italian campaign where Eric served with E Troop 3 Battery is then recounted detailing their actions at Rionero Foggia and Campobasso where Eric was wounded It then moves on to describe 1st Air Landing Light Regiment s preparation for and involvement in Operation Market the Airborne half of Market Garden This very detailed account of the fighting highlights the regiment s pivotal but often neglected role near Arnhem bridge Here after nine days of intense combat Eric was among the many captured and held until the end of the war The inclusion of Eric s own eyewitness testimony lends a very personal touch to this excellent account of the regiment s experience of combat and life in the PoW camps **Aspects of Arnhem** Richard Doherty,David Truesdale,2023-09-30 Almost 80 years on the battle for the Arnhem Rhine crossing remains controversial Opinion on its justification and success differs widely This superbly researched book written by two acknowledged experts takes a wide ranging examination of Operation Market Garden from the strategic operational and tactical level The role of the Allied commanders involved is scrutinized with surprising results For example US General Brereton s pivotal role has seldom been mentioned yet he is revealed as responsible for choosing landing and drop zones The record of airborne forces both German and Allied prior to September 1944 raises questions and the doubt that many senior commanders including Eisenhower had as to their effectiveness is highlighted The parts played by VIII and XII Corps of Second Army and General Dempsey its Commander are scrutinized as are the actions of local commanders and troops on the ground Both those with a deep interest in military history and the layman will find much to inform and satisfy them in this valuable and at times provocative account **Arnhem spearhead** James William Sims,1978 **A Magnificent Disaster** David Bennett,2008-07-08 Reveals much of what history has tended to gloss over should be a must read for all who have an interest in this operation Airborne Quarterly After Normandy the most spectacular Allied offensive of World War II was Operation Market Garden which planned to join three divisions of paratroopers dropped behind German lines with massive armored columns breaking through the front The object was to seize a crossing over the Rhine to outflank the heartland of the Third Reich and force a quick end to the war The operation utterly failed of course as the 1st British Airborne was practically wiped out the American 82nd and 101st Airborne Divisions became tied down in vicious combat for

months and the vaunted armored columns were foiled at every turn by improvisational German defenses. Some have called the battle Hitler's last victory. In this work many years in the making, David Bennett puts forward a balanced and comprehensive account of the British, American, Polish, Canadian, and German actions as well as the strategic background of the operation in a way not yet done. He shows, for example, that rather than a bridgehead over the Rhine, Montgomery's ultimate aim was to flank the Ruhr industrial area from the north. The book also deals, as never before, with the key role of all three Corps of the British Second Army, not just Brian Horrocks' central XXX Corps. For the first time we learn the dramatic untold story of how a single company of Canadian engineers achieved the evacuation of 1st Airborne's survivors back across the Rhine when all other efforts had failed. Also revealed is the scandal of how Polish Gen Sosabowski was treated by the British military authorities and how the operation would have failed at the outset but for the brilliant soldiery of the two American airborne divisions. Respectfully nodding to *A Bridge Too Far* and other excellent works on Market Garden, the author has interviewed survivors, walked the ground, and performed prodigious archival research to increase our understanding of the battle from the actions of the lowliest soldier to the highest commander. Allied and German

Arnhem

Iain Ballantyne, 2023-02-13. The account of the fateful bridge too far. It was a bridge too far, and perhaps the whole plan was doomed to failure from the start, but we had to try. On 17 September 1944, 30,000 airborne soldiers prepared to drop 64 miles behind enemy lines into Nazi-occupied Holland. Tens of thousands of ground troops raced down Hell's Highway in tanks and armoured cars, trucks, and half-tracks to link up with them. The goal was to secure eight bridges across the Rhine and end the war by Christmas. Ten days later, over 15,000 of these soldiers had died; 6,000 had been taken prisoner. Operation Market Garden was the daring plan to stage a coup de main in occupied territory, gain control of those bridges, and obtain a direct route into Hitler's Germany. But the operation failed, and the allied forces suffered a brutal military defeat. In the 75 years since, tactics have been analysed and blame has been placed, but the heart of Arnhem's story lies in the selflessness and bravery of those troops that fought, the courage and resilience of the civilians caught up in confrontation, and the pure determination to fight for their lives and their freedom. This is the story of ordinary people caught up in extraordinary events. In Ballantyne's *Arnhem*, we go into battle with not only the famous commanders in the thick of the action but also with all those whose fates were determined by their decisions. Based on first-hand interviews, military records, and diaries, we witness the confusion and mayhem of war from the horrific and devastating to the surreal and mundane. But most of all, we witness the self-sacrifice and valour of the men who gave their lives to liberate strangers in a foreign country. Praise for *Arnhem: Ten Days in the Cauldron*. Reminiscent of Stephen Ambrose at his best, some remarkable stories which Ballantyne neatly dovetails into a rolling epic. Dr Harry Bennett, University of Plymouth. Breath-taking. I thoroughly enjoyed reading this account of Arnhem, adding, if you like, a trench-level perspective to those other accounts written from more senior and sometimes more detached points of view. Thoroughly recommended. *British Journal for Military History*. [The Last German Victory](#) Aaron

Bates,2021-12-22 Operation Market Garden the Allied airborne invasion of German occupied Holland in September 1944 is one of the most famous and controversial Allied failures of the Second World War Many books have been written on the subject seeking to explain the defeat Historians have generally focused on the mistakes made by senior commanders as they organized the operation The choice of landing zones has been criticized as has the structure of the airlift plan But little attention has been paid to the influence that combat doctrine and training had upon the relative performance of the forces involved And it is this aspect that Aaron Bates emphasizes in this perceptive closely argued and absorbing re evaluation of the battle As he describes each phase of the fighting he shows how German training which gave their units a high degree of independence of action better equipped them to cope with the confusion created by the surprise Allied attack In contrast the British forces were hampered by their rigid and centralized approach which made it more difficult for them to adapt to the chaotic situation Aaron Bates s thought provoking study sheds fresh light on the course of the fighting around Arnhem and should lead to a deeper understanding of one of the most remarkable episodes in the final stage of the Second World War in western Europe

The Veterans' Tale Frances Houghton,2019-01-10 Reveals how memoirs are rich repositories of information about the ways in which veterans remembered understood and recounted their war British Armour in the Normandy Campaign John Buckley,2004-07-22 This book is an innovative study of the Normandy campaign and the perceived failure of British forces there It is essential reading for all students of military history and general readers with an interest in the subject

Raising Churchill's Army David French,2001-07-05 This is the first serious analysis of the combat capability of the British army in the Second World War It sweeps away the myth that the army suffered from poor morale and that it only won its battles through the use of brute force and by reverting to the techniques of the First World War David French analyses the place of the army in British strategy in the interwar period and during the Second World War He shows that after 1918 the General Staff tried hard to learn the lessons of the First World War enthusiastically embracing technology as the best way of minimizing future casualties In the first half of the Second World War the army did suffer from manifold weaknesses not just in the form of shortages of equipment but also in the way in which it applied its doctrine Few soldiers were actively eager to close with the enemy but the morale of the army never collapsed and its combat capability steadily improved from 1942 onwards Professor French assesses Montgomery s contributions to the war effort and concludes that most important were his willingness to impose a uniform understanding of doctrine on his subordinates and to use mechanized firepower in ways quite different from Haig in the First World War

The World War Two Reader Gordon Martel,2004 This comprehensive reader provides an overview of research in the study of the Second World War and includes chapters by some of the best known and most innovative scholars working today It gives attention to the fighting of the war throughout the world

Sand & Steel Peter Caddick-Adams,2019 Part of a trilogy covering the last year of fighting in the European theater of World War II and in time for the 75th anniversary of D Day Sand and Steel gives us the full story of the

Allied invasion of France **Urquhart of Arnhem** John Christopher Malcolm Baynes, 1993 Major General R E Urquhart is best remembered for his part in the Battle of Arnhem during which he commanded the 1st Airborne Division in one of the bitterest battles of World War II Between 1950 and 1952 he was also significantly involved in the successful campaign against the communist terrorists in Malaya laying the foundations on which General Templer was later able to build his reputation as saviour of the country **Arnhem 1944** Dilip Sarkar, 2018-11-30 The airborne battle for the bridges across the Rhine at Arnhem ranks amongst the Second World Wars most famous actions inspiring innumerable books and the star studded 1977 movie This book however is unique deeply moved the author provides a fresh narrative and approach concentrating on the tragic stories of individual casualties These men were killed at different junctures in the fighting often requiring forensic analysis to ascertain their fates Wider events contextualize the authors primary focus effectively resurrecting casualties through describing their backgrounds previous experience and tragic effect on their families In particular the emotive and unresolved issue of the many still missing is explored During the course of his research the author made numerous trips to Arnhem and Oosterbeek traveled miles around the UK and spent countless hours communicating with the relatives of casualties achieving their enthusiastic support This detailed work conducted sensitively and with dignity ensures that these moving stories are now recorded for posterity Included are the stories of Private Albert Willingham who sacrificed his life to save civilians Major Frank Tate machine gunned against the backdrop of blazing buildings around Arnhem Bridge family man Sergeant George Thomas whose antitank gun is displayed today outside the Airborne Museum Hartenstein and Squadron Leader John Gilliard DFC father of a baby son who perished flying his Stirling through a hail of shot and shell during an essential re supply drop Is Private Gilbert Anderson who remains missing actually buried as an unknown the author asks Representing the Poles is Lance Corporal Czeslaw Gajewnik who drowned whilst escaping the hell of Oosterbeek and accounts by Dutch civilians emphasize the shared suffering sharply focussed by the tragedy of Luuk Buist killed protecting his family The sensitivity still surrounding German casualties is also explained This raw personal side of war the hopes and fears of ordinary men thrust into extraordinary circumstances is both deeply moving and revealing no longer are these just names carved on headstones or memorials in a distant land Through this thorough investigative work supported by those who remember them the casualties live again their silent voices heard through friends relatives comrades and unpublished letters So let us return to the fateful autumn of 1944 and meet those fighting in the skies on the landing grounds in the streets and woods of Oosterbeek and on the bridge too far at Arnhem Now the casualties can tell their own stories as we join this remarkable journey of discovery Medicine and Victory Mark Harrison, 2004-07 Medicine and Victory is the first comprehensive account of British military medicine in the Second World War since the publication of the official history in the early 1950s Drawing on a wide range of official and non official sources the book examines medical work in all the main theatres of the war from the front line to the base hospital All aspects of medical work are covered

including the prevention of disease and the disposal and treatment of casualties Harrison argues that the medical services played a major role in the Allied victory enabling the British Army to keep a higher proportion of troops in the field than its opponents Assuming no previous knowledge of either medical or military history *Medicine and Victory* provides an accessible introduction to a vitally important yet too often neglected aspect of the Second World War
