Meanings of Abstract Art Paul Crowther, Isabel Wünsche, 2012 This book explores the relation of abstract art to nature Traditional picturing and sculpture are based on conventions of resemblance between the work and that which it is a representation of Abstract works in contrast adopt alternative modes of visual representation or break down and reconfigure the mimetic conventions of pictorial art and sculpture Obviously this means that abstract art takes many different forms However this diversity should not mask some key structural features these center on two basic relations to nature understanding nature in the broadest sense to comprise the world of recognisable objects creatures organisms processes and states of affairs The first involves abstracting from nature to give selected aspects of it a new and extremely unfamiliar appearance The second involves abstract art as the affirmation of a relatively unconstrained natural creativity that issues in new autonomous forms that are not constrained by mimetic conventions Such creativity is often attributed to the power of the unconscious The book contains three categories of essays 1 those on classical modernism Mondrian Malevich Kandinsky Arp early American abstraction 2 those on post war abstraction Pollock Still Newman Smithson Noguchi Arte Povera Michaux postmodern developments and 3 those of a broader art historical and philosophical scope Provided by publisher

Chrétien de Troyes Douglas Kelly, 2002 The supplement to the 1976 original bibliography reflects the expanding scope of modern Chr tien studies including items from around the world with the assistance of an international team of scholars The Supplement builds on and completes the Chr tien de Troyes Bibliography first published in 1976 Together the two volumes constitute the fullest and most complete bibliographical source now available on this major medieval author Chr tien de Troyes bequeathed a corpus of highly original and widely influential Arthurian romances Indeed his direct or indirect influence continued throughout the middle ages and beyond into modern times The Bibliography permits students of medieval romance to quickly identify the areas in which Chr tien scholarship has been active Items are listed under twenty two topics with numerous sub sections under each topic and cross references for items that treat more than one of the topics The broad geographic and linguistic scope of modern Chr tien studies is evident in items not only from western Europe and North America but also from the growing body of medieval scholarship in eastern Europe Asia Africa South America and Australasia To ensure accuracy and completeness the editor has been assisted by scholars competent in the many languages in which Chr tien studies are now published most notably in Japanese Welsh Rumanian Hungarian and Polish as well as by other scholars and librarians who generously provided assistance and information in finding items difficult to access *Crisis and the Arts: Exquisite Dada : a comprehensive bibliography* Stephen C. it has provoked the interest of art historians museum directors and literary critics from all over the world The present volume comprises the literary texts of individual Dadaists and periodicals from all Dada centers as well as books articles exhibition catalogs and bibliographies by international scholars Jo rgen Scha fer s Exquisite Dada is the most exhaustive bibliography on Dada that has ever been compiled so far By giving a synopsis of some decades of scholarly research it provides an indispensable source for further studies on the matter
