Architectural Conservation in Europe and the Americas John H. Stubbs, Emily G. Makaš, 2011-05-04 From such well known and long vexed sites as the Athenian Acropolis to more contemporary locales like the Space Age Modernist capital city of Brasília the conflicting and not always neatly resolvable forces that bear upon preservation are addressed as clearly and thoughtfully as the general reader could hope for New York Review of Books an astonishing feat of research compilation and synthesis Context The book delivers the first major survey concerning the conservation of cultural heritage in both Europe and the Americas Architectural Conservation in Europe and the Americas serves as a convenient resource for professionals students and anyone interested in the field Following the acclaimed Time Honored this book presents contemporary practice on a country by country and region by region basis facilitating comparative analysis of similarities and differences The book stresses solutions in architectural heritage protection and the contexts in which they were developed **Modern**

Architecture in Latin America Luis E. Carranza, Fernando Luiz Lara, 2015-01-05 Modern Architecture in Latin America Art Technology and Utopia is an introductory text on the issues polemics and works that represent the complex processes of political economic and cultural modernization in the twentieth century The number and types of projects varied greatly from country to country but as a whole the region produced a significant body of architecture that has never before been presented in a single volume in any language Modern Architecture in Latin America is the first comprehensive history of this important production Designed as a survey and focused on key examples paradigms arranged chronologically from 1903 to 2003 this volume covers a myriad of countries historical social and political conditions and projects developments that range from small houses to urban plans to architectural movements The book is structured so that it can be read in a variety of ways as a historically developed narrative of modern architecture in Latin America as a country specific chronology or as a treatment of traditions centered on issues of art technology or utopia This structure allows readers to see the development of multiple and parallel branches historical strands of architecture and at times their interconnections across countries The authors provide a critical evaluation of the movements presented in relationship to their overall goals and architectural transformations **The Architecture and Cities of Northern Mexico from Independence to the Present** Edward
