Forced Marriage Abu Sadik Maruf,2012-04-25 Forced marriage is a serious abuse of human rights that involves physical torture and or emotional blackmail by family It is not merely an issue in the UK It is an international issue comes along with other problems such as domestic violence inequality and poverty It can affect particular population globally and locally In the UK hundreds of people particularly girls and young women are forced into marriage each year Studies found that victims can be as young as 9 years old to older as 35 and over South Asian communities are the largest ethnic minority group in the UK In addition there have historically been very articulate and powerful South Asian feminist groups that have challenged gender related issues within these communities including forced marriage honour related violence and dowry related violence Carroll 1998 Gangoli et al 2006 As a result there has been much focus on Pakistani Bangladeshi and Indian communities and therefore a wider recognition of the issue of forced marriage However it is also important to recognise here that a wide range of other minority ethnic religious as well as majority communities are also involved including African Middle Eastern Latin American and Eastern Europeans Chantler Gangoli Hester 2009 This study addresses the international and cross cultural dimensions of a social problem It mainly focused on British Bangladeshi community to know the circumstances of forced marriage in general and then evaluated the existing social work services in the UK The main interest of the study was in the statements of particular groups of people including their personal views perceptions and experiences on forced marriage

Forced Marriage and 'Honour' Killings in Britain Christina Julios,2016-03-09 This book explores the contemporary phenomenon of forced marriage and honour killings in Britain Set against a background of increasing honour based violence within the country's South Asian and Muslim Diasporas the book traces the development of the honour question over the past two decades It

accordingly witnesses unprecedented changes in public awareness and government policy including ground breaking honour specific legislation and the criminalisation of forced marriage All of which makes Britain an important context for the study of this now indigenous and self perpetuating social problem In considering the scale of the challenge and its underlying causes attention is paid to the intersections of gendered power structures that disadvantage female members of honour cultures as well as feminist theories that seek to explain them The book features five key case studies of honour killings and draws from a wide range of narratives including those of honour violence survivors grassroots service providers and legislators Such myriad of perspectives reveals the complexity of the honour issue and the deep ideological divisions that characterise it With the UK s multiculturalist discourse unable to reconcile protecting patriarchal minority cultures with safeguarding gender equality and human rights the book raises fundamental questions about the country s future direction Following a long trend of state sponsored integrationist policies the government s response to the honour question points decisively in the direction of a post multicultural British nation

Handbook on Marriage, Cohabitation and the Law Rebecca Probert, Sharon Thompson, 2024-05-02 This insightful Research Handbook provides a global perspective on key legal debates surrounding marriage and cohabitation Bringing together an impressive array of established and emerging scholars it adopts a comparative approach to analyse cross jurisdictional trends and divergences in relationship recognition and family formation **Learning to Love** Raksha Pande, 2021 *Learning to Love* moves beyond the media and policy stereotypes that conflate arranged marriages with forced marriages Using in depth interviews and participant observations this book assembles a rich and diverse array of everyday marriage narratives and trajectories and highlights how considerations of romantic love are woven into traditional arranged marriage practices It shows that far from being a homogeneous tradition arranged marriages involve a variety of different matchmaking practices where each family tailors its own cut and paste version of British Indian arranged marriages to suit modern identities and ambitions Pande argues that instead of being wedded to traditions people in the British Indian diaspora have skillfully adapted and negotiated arranged marriage cultural norms to carve out an identity narrative that portrays them as modern and progressive migrants ones who are changing with the times and cultivating transnational forms of belonging **Indian Immigrants in United Kingdom** K. Harry T. Reis, 2009-03-25 This encyclopedia provides a structure to understand the essential rudiments of human behaviour and interpersonal relationships **Honour-Based Violence and Forced Marriages** Clara Rigoni, 2022-08-12 In the last 20 years the related phenomena of honour based violence and forced marriages have received increasing attention at the international and European level Punitive responses towards this type of violence have been adopted including ad hoc criminalisation and legislation containing direct references to the concepts of honour culture and tradition However criminal law based responses present several shortcomings and have often disregarded the specific needs that victims of such crimes might encounter This book examines the possibility of using alternative programmes to address cases of honour based violence and forced marriages After reviewing previous existing literature it presents new empirical data Introducing a case study from the United Kingdom the book recalls the debate on Sharia Councils and the Muslim Arbitration Tribunal but

examines instead other community based secular programmes By comparison a study from Norway on the work of the National Mediation Agency and the so called Cross Cultural Transformative Mediation model is investigated as part of a larger multi agency approach Ultimately in an attempt to reconcile pluralism and the rule of law the book proposes effective ways to tackle honour crimes based on cooperation and individualisation of the proceedings and capable of improving women s access to justice and reducing secondary victimisation The book will be essential reading for researchers and academics in Law Criminology Sociology and Anthropology and for policy makers and practitioners working with honour based violence cases

Black British Literature Mark Stein,2004 In this fascinating book Mark Stein examines black British literature centering on a body of work created by British based writers with African South Asian or Caribbean cultural backgrounds Linking black British literature to the bildungsroman genre this study examines the transformative potential inscribed in and induced by a heterogeneous body of texts Capitalizing on their plural cultural attachments these texts portray and purvey the transformation of post imperial Britain Stein locates his wide ranging analysis in both a historical and a literary context He argues that a cross cultural and interdisciplinary approach is essential to understanding post colonial culture and society The book relates black British literature to ongoing debates about cultural diversity and thereby offers a way of reading a highly popular but as yet relatively uncharted field of cultural production With the collapse of its empire with large scale immigration from former colonies and with ever increasing cultural diversity Britain underwent a fundamental makeover in the second half of the twentieth century This volume cogently argues that black British literature is not only a commentator on and a reflector of this makeover but that it is simultaneously an agent that is integral to the processes of cultural and social change Conceptualizing the novel of transformation this comprehensive study of British black literature provides a compelling analytic framework for charting these processes
