Ars Sacra, 800-1200 Peter Lasko, 1994 For an understanding of the art of the Early Middle Ages it is essential to consider reliquaries and shrines book bindings and ivory carvings goldsmith s work and bronze casting as much as major sculpture and painting This volume covers these Ars Sacra from 800 to 1200 *Ars Sacra New Edition* Peter Lasko, 1994-01-01 The book traces the unbroken development of the Sacred Arts and their interrelationships throughout Europe from the Renovatio of the arts the Rebirth of Antiquity encouraged under the Emperor Charlemagne in the late eighth century until a renewed and fresh appreciation of the natural world the Gothic began to replace the powerful stylisations and the last vestiges of the classical tradition of the Romanesque in the early thirteenth century **Review of Peter Lasko: *Ars Sacra, 800-1200* and**

The Song of Songs in the Early Middle Ages Hannah W. Matis, 2019-01-28 In *The Song of Songs in the Early Middle Ages* Hannah W Matis examines how the Song of Songs the collection of Hebrew love poetry was understood in the Latin West as an allegory of Christ and the church This reading of the biblical text was passed down via the patristic tradition established by the Venerable Bede and promoted by the chief architects of the Carolingian reform Throughout the ninth century the Song of Songs became a text that Carolingian churchmen used to think about the nature of Christ and to conceptualize their own roles and duties within the church This study examines the many different ways that the Song of Songs was read within its early medieval historical context **The Rare Art Traditions** Joseph Alsop, 2023-10-17 A cultural and social history of art

Pt. 1 and 2** Rosamond McKitterick, Paul Fouracre, Timothy Reuter, David Edward Luscombe, David Abulafia, Jonathan Riley-Smith, Christopher Allmand, Michael Jones, 1995 **Before the Gregorian Reform** John Howe, 2016-04-01 Historians typically single out the hundred year period from about 1050 to 1150 as the pivotal moment in the history of the Latin Church for it was then that the Gregorian Reform movement established the ecclesiastical structure that would ensure Rome's dominance throughout the Middle Ages and beyond In *Before the Gregorian Reform* John Howe challenges this familiar narrative by examining earlier pre Gregorian reform efforts within the Church He finds that they

were more extensive and widespread than previously thought and that they actually established a foundation for the subsequent Gregorian Reform movement. The low point in the history of Christendom came in the late ninth and early tenth centuries, a period when much of Europe was overwhelmed by barbarian raids and widespread civil disorder which left the Church in a state of disarray. As Howe shows, however, the destruction gave rise to creativity. Aristocrats and churchmen rebuilt churches and constructed new ones competing against each other so that church building like castle building acquired its own momentum. Patrons strove to improve ecclesiastical furnishings, liturgy and spirituality. Schools were constructed to staff the new churches. Moreover, Howe shows that these reform efforts paralleled broader economic, social and cultural trends in Western Europe including the revival of long distance trade, the rise of technology and the emergence of feudal lordship. The result was that by the mid eleventh century a wealthy, unified, better organized, better educated, more spiritually sensitive Latin Church was assuming a leading place in the broader Christian world. Before the Gregorian Reform challenges us to rethink the history of the Church and its place in the broader narrative of European history. Compellingly written and generously illustrated, it is a book for all medievalists as well as general readers interested in the Middle Ages and Church history.

The Crucified God in the Carolingian Era Celia Chazelle, 2001-07-05. The Carolingian Renaissance of the late eighth and ninth centuries in what is now France, western Germany and northern Italy transformed medieval European culture. At the same time it engendered a need to ensure that clergy, monks and laity embraced orthodox Christian doctrine. This book offers a fresh perspective on the period by examining transformations in a major current of thought as revealed through literature and artistic imagery: the doctrine of the Passion and the crucified Christ. The evidence of a range of literary sources is surveyed: liturgical texts, poetry, hagiography, letters, homilies, exegetical and moral tractates, but special attention is given to writings from the discussions and debates concerning artistic images: Adoptionism, predestination and the Eucharist.

Abstraction in Medieval Art Elina Gertsman, 2025-10-01. Abstraction haunts medieval art both withdrawing figuration and suggesting elusive presence. How does it make or destroy meaning in the process? Does it suggest the failure of figuration, the faltering of iconography? Does medieval abstraction function because it is imperfect, incomplete and uncorrected and therefore cognitively visually demanding? Is it conversely precisely about perfection? To what extent is the abstract predicated on theorization of the unrepresentable and imperceptible? Does medieval abstraction pit aesthetics against metaphysics or does it enrich it or frame it or both? Essays in this collection explore these and other questions that coalesce around three broad themes: medieval abstraction as the untethering of the image from what it purports to represent; abstraction as a vehicle for signification; and abstraction as a form of figuration. Contributors approach the concept of medieval abstraction from a multitude of perspectives: formal, semiotic, iconographic, material, phenomenological, epistemological.

Art in Spain and Portugal from the Romans to the Early Middle Ages Rose Walker, 2025-10-01. For generations, maps of the pilgrimage roads and of the reconquista have bedevilled the study of Spanish art and architecture.

They have also infiltrated the popular imagination and come to dominate the ways we think about Spain and Portugal Art in Spain and Portugal from the Romans to the Early Middle Ages Routes and Myths sets out to diminish the power of these images and to enrich the wider English language literature on early medieval art Starting with the Romans and working through the vertical layers to the early Romanesque period Rose Walker draws together scholarly work hitherto confined within disciplinary boundaries specialist regional studies and findings familiar only to Spanish speaking audiences The author builds on these studies and her own research to present narratives that question art historical and archaeological orthodoxies New perspectives emerge from the routes along which wealth and artistic expertise crossed the peninsula showing the endurance of the north south axis and the strength of networks and pragmatic alliances that often operated without regard for religious difference *Vision, Devotion, and Self-Representation in Late Medieval Art* Alexa Sand,2014-03-31 This book investigates the owner portrait in the context of late medieval devotional books primarily from France and England These mirror like pictures of praying book owners respond to and help develop a growing concern with visibility and self scrutiny that characterized the religious life of the laity after the Fourth Lateran Council in 1215 The image of the praying book owner translated pre existing representational strategies concerned with the authority and spiritual efficacy of pictures and books such as the Holy Face and the donor image into a more intimate and reflexive mode of address in Psalters and Books of Hours created for lay users Alexa Sand demonstrates how this transformation had profound implications for devotional practices and for the performance of gender and class identity in the striving aristocratic world of late medieval France and England *The Many Faces of Job* Choon-Leong Seow,2023-05-08 This handbook analyses in a comparative method and on an interdisciplinary level how the biblical figure of Job and his texts were interpreted from premodern times until today highlighting continuities and discontinuities The first volume addresses the premodern period and includes chapters on Second Temple Judaism Jewish Interpretations Christian Interpretations Islam Literature Visual Arts and Music *The Insular Tradition* Catherine E. Karkov,Michael Ryan,Robert T. Farrell,1997-10-30 A breadth of interdisciplinary voices discuss how geographical insularity specifically that of Britain and Ireland has affected artistic tradition
