Art Other Serious Matters:

Harold Rosenberg Debra Bricker Balken, 2021-10-06 The biography recounts Rosenberg's full story for the first time Art critic for The New Yorker from 1962 until 1978 Rosenberg together with Clement Greenberg radically reshaped the interpretation of art in the post World War II period by promoting and examining abstract expression But Rosenberg was also a social and literary critic writing about art was just one aspect of his work Harold Rosenberg A Critic's Life weaves together Rosenberg's life and literary production cast against the dynamic intellectual and social ferment of his time Rosenberg's mid century linking of the New York School with the art establishment together with his observations on the commodification of the artwork and the evisceration of the self in favor of celebrity especially in his often cited essay The Herd of Independent Minds make this book especially topical

The Sense of Art Ralph A. Smith, 2014-10-29 Ralph A Smith provides a theory of aesthetic education that addresses the need to revitalize the capacity for genuine judgment in society reaffirm the ideal of excellence in culture and reorder our thoughts about teaching the arts in schools The book presents an image of the curriculum as itinerary preparing the young to traverse the world of art with adroitness and sensitivity

Into the Light of Things George J. Leonard, 1995-06-15 When John Cage opened his compositions to chance sounds in the 1950s and Andy Warhol began exhibiting paintings of Brillo boxes in the 1960s the art of the commonplace seemed like something radically even frighteningly new But noting an unprecedented shift around 1800 away from the idealism of Western aesthetics Leonard shows that attacks on the art object as outspoken as any made by twentieth century avant gardists can be found in the works of Wordsworth Ruskin Carlyle Emerson and Whitman From Wordsworth to Cage a certain kind of artist sought to re orient humanity's devotion from the next world to this one to situate paradise in the simple produce of the common day Enough of Science and Art Wordsworth began his first book of poems Come forth into the light of things Two hundred years later John Cage would tell us We open our eyes and ears seeing life each day excellent as it is This realization no longer needs art By studying artists together with poets Leonard uncovers the rich tradition that links Wordsworth to Cage and illuminates many figures in between Into the Light of Things transforms our understanding of modern culture Jacket

Conceptual Revolutions in Twentieth-Century Art David W. Galenson, 2009-09-28 Galenson combines social scientific methods with qualitative analysis to produce a new interpretation of modern art

The Artless Jew Kalman P. Bland, 2001-07-02 Conventional wisdom holds that Judaism is indifferent or even suspiciously hostile to the visual arts due to the Second Commandment's prohibition on creating graven images the dictates of monotheism and historical happenstance This intellectual history of medieval and modern Jewish attitudes toward art and representation overturns the modern assumption of Jewish iconophobia that denies to Jewish culture a visual dimension Kalman Bland synthesizes evidence from medieval Jewish philosophy mysticism poetry biblical commentaries travelogues and law concluding that premodern Jewish intellectuals held a positive liberal understanding of the Second Commandment and did in fact articulate a certain Jewish

aesthetic He draws on this insight to consider modern ideas of Jewish art revealing how they are inextricably linked to diverse notions about modern Jewish identity that are themselves entwined with arguments over Zionism integration and anti-Semitism Through its use of the past to illuminate the present and its analysis of how the present informs our readings of the past this book establishes a new assessment of Jewish aesthetic theory rooted in historical analysis Authoritative and original in its identification of authentic Jewish traditions of painting sculpture and architecture this volume will ripple the waters of several disciplines including Jewish studies art history medieval and modern history and philosophy **Semiotics**

Aschenbrenner,2012-12-06 This book concerns a single topic coherence in the several arts which is vague to begin with but becomes progressively more precise as we proceed While the book is not a formalist theory of art it aims to take steps toward clearing up the concept of form which is of central interest in art either by its observance or by deliberate defiance While our interest is thus in one concept it is as a matter of fact complex and covers some seven subordinate topics Each of these important subjects is covered in separate chapters the number of principal parts of artworks their extent size or magnitude the intervallic relation between them and their dimensional contextual tendentive and connotational relations all of which will be explained as we proceed There are ample analyses or critiques devoted to particular artworks which appear in Part Two While the book keeps to a fairly narrow range of subjects breadth is there too and the implication for all the arts is manifest The examples cover mainly music but there is a broad selection of architecture sculpture painting both abstract and figural and a brief selection from the field of narrative poetic art Many more types of the arts had to be excluded to make the book of manageable size *The Young Artist as Scientist* Mary Jo Pollman,2017-09-08 This is the first in depth look at the important connections between the arts
