Accounting for Taste Priscilla Parkhurst Ferguson,2006-08-01 French cuisine is such a staple in our understanding of fine food that we forget the accidents of history that led to its creation Accounting for Taste brings these accidents to the surface illuminating the magic of French cuisine and the mystery behind its historical development Priscilla Parkhurst Ferguson explains how the food of France became French cuisine This momentous culinary journey begins with Ancien Régime

gime cookbooks and ends with twenty first century cooking programs It takes us from Car me the inventor of modern French cuisine in the early nineteenth century to top chefs today such as Daniel Boulud and Jacques P pin Not a history of French cuisine Accounting for Taste focuses on the people places and institutions that have made this cuisine what it is today a privileged vehicle for national identity a model of cultural ascendancy and a pivotal site where practice and performance intersect With sources as various as the novels of Balzac and Proust interviews with contemporary chefs such as David Bouley and Charlie Trotter and the film Babette s Feast Ferguson maps the cultural field that structures culinary affairs in France and then exports its crucial ingredients What s more well beyond food the intricate connections between cuisine and country between local practice and national identity illuminate the concept of culture itself To Brillat Savarin s famous dictum Animals fill themselves people eat intelligent people alone know how to eat Priscilla Ferguson adds and Accounting for Taste shows how the truly intelligent also know why they eat the way they do Parkhurst Ferguson has her nose in the right place and an infectious lust for her subject that makes this trawl through the history and cultural significance of French food from French Revolution to Babette s Feast via Balzac s suppers and Proust s madeleines a satisfying meal of varied courses Ian Kelly Times UK

Consuming Painting Allison Deutsch,2021-02-01 In Consuming Painting Allison Deutsch challenges the pervasive view that Impressionism was above all about visual experience Focusing on the language of food and consumption as they were used by such prominent critics as Baudelaire and Zola she writes new histories for familiar works by Manet Monet Caillebotte and Pissarro and creates fresh possibilities for experiencing and interpreting them Examining the culinary metaphors that the most influential critics used to express their attraction or disgust toward painting Deutsch rethinks French modern life painting in relation to the visceral reactions that these works evoked in their earliest publics Writers posed viewing as analogous to ingestion and used comparisons to food to describe the appearance of paint and the painter s process The food metaphors they chose were aligned with specific female types such as red meat for sexualized female flesh

confections for fashionably made up women and hearty vegetables for agricultural laborers These culinary figures of speech Deutsch argues provide important insights into both the fabrication of the feminine and the construction of masculinity in nineteenth century France Consuming Painting exposes the social politics at stake in the deeply gendered metaphors of sense and sensation Original and convincing Consuming Painting upends traditional narratives of the sensory reception of modern painting This trailblazing book is essential reading for specialists in nineteenth century art and criticism gender studies and modernism
