Berman, Heather Wood, 1987 **Red State Revolt** Eric Blanc, 2019-05-07 Thirteen months after Trump allegedly captured the allegiance of the white working class a strike wave the first in over four decades rocked the United States Inspired by the wildcat victory in West Virginia teachers in Oklahoma Arizona and across the country walked off their jobs and shut down their schools to demand better pay for educators more funding for students and an end to years of austerity Confounding all expectations these working class rebellions erupted in regions with Republican electorates weak unions and bans on public sector strikes By mobilizing to take their destinies into their own hands red state school workers posed a clear alternative to politics as usual And with similar actions now gaining steam in Los Angeles Oakland Denver and Virginia there is no sign that this upsurge will be short lived Red State Revolt is a compelling analysis of the emergence and development of this historic strike wave with an eye to extracting its main strategic lessons for educators labor organizers and radicals across the country A former high school teacher and longtime activist Eric Blanc embedded himself into the rank and file leaderships of the walkouts where he was given access to internal organizing meetings and secret Facebook groups inaccessible to most journalists The result is one of the richest portraits of the labor movement to date a story populated with the voices of school workers who are winning the fight for the soul of public education and redrawing the political map of the country at large

Unshackled: Education for Freedom, Student Achievement, and Personal Emancipation Greg Wiggan, Lokia Scott, Marcia Watson, Richard Reynolds, 2014-04-03 Harnessing conceptual inspiration through the work of Harriet Tubman and Queen Nanny the Maroon of Jamaica this book explores the historical and contemporary role that education has and can continually play as an instrument of personal and group liberation The book discusses the early formations of the Transatlantic Slave Trade the enslavement of native populations and the subsequent development of the Underground Railroad and Maroon societies in the Caribbean and Americas as systems of liberation It investigates the development and

maintenance of racial gendered and class stratification and provides a personal path to freedom as a context for a broader discussion on using education as a mechanism for dismantling the effects of colonization miseducation and social psychological domination in schools and society As a contemporary issue it presents an in depth analysis of the Tucson Unified School District in Arizona and the controversy surrounding its ethnic studies program as an example of one of the contested sites of curriculum development and student liberation Additionally it discusses high performing charter schools as an alternative model of education which may help to provide a systematic way of unshackling institutional barriers and oppression Ultimately this book acknowledges that today the road to freedom is still one we must all travel as miseducation school failure school dropout unemployment underemployment poverty neighborhood violence incarceration and a growing prison industrial complex are all reminders of the work that still must be accomplished Like those who historically sacrificed their lives to gain freedom and an education today with the lingering effects of institutionalized systems of domination education must continue to be an instrument of social mobility and liberation if indeed we are to make schools and society more humane and inclusive towards those who are still waiting to be unshackled The book presents implications regarding the treaties on education for freedom as a school reform and public policy topic **Grass Roots** Frances Stegall, 2006-04 Self published collection of family stories photos and genealogy covering the first 91 years of Frances Gaddy Stegall's life in Texas *Democracy and Empire* Inés Valdez, 2023-09-07 Reconceptualizes central notions in political theory to make sense of the systems of imperial popular sovereignty and self determination **Grass Roots** Scott Hennen, Jim Denney, 2011-07-05 Would you like to do your part in saving America Grass Roots is a no nonsense instruction manual that explains exactly what you can do Scott Hennen host and founder of the innovative Common Sense Club radio program shows how everyday Americans just like you are making a difference for our country's future This down to earth handbook gives you clear practical effective actions you can take to preserve the American dream for your children and grandchildren President Ronald Reagan once said All great change in America begins at the dinner table Today most Americans struggle just to keep food on the dinner table We are staggering under a crushing burden of big government out of control spending and towering federal debt We have become tax slaves and the people we sent to Washington to represent us are the very ones who sold us there We're angry and rightly so But ruling class politicians have shrugged off our grassroots anger calling it Astroturf We're tired of being ignored patronized and lied to by the very people who are supposed to be our public servants Not since the original Boston Tea Party of 1773 have so many everyday Americans participated in such a significant display of righteous indignation and freedom loving patriotism For the first time in generations ordinary hardworking church going Americans are carrying signs gathering in large numbers and making their voices heard Big government beware A sleeping giant has awakened Scott Hennen has drawn up a practical blueprint for change a handbook for all of us who are ready to roll up our sleeves and do our part to restore America's goodness and greatness Grass Roots is a political manifesto for every American
