Elsewhere I have set down for whatever interest they have in this the 25th Century my personal recollections of the 20th Century Now it occurs to me that my memoirs of the 25th Century may have an equal interest 500 years from now particularly in view of that unique perspective from which I have seen the 25th Century entering it as I did in one leap across a gap of 492 years This statement requires elucidation There are still many in the world who are not familiar with my unique experience Five centuries from now there may be many more especially if civilization is fated to endure any worse convulsions than those which have occurred between 1975 A D and the present time I should state therefore that I Anthony Rogers am so far as I know the only man alive whose normal span of eighty one years of life has been spread over a period of 573 years To be precise I lived the first twenty nine years of my life between 1898 and 1927 the other fifty two since 2419 The gap between these two a period of nearly five hundred years I spent in a state of suspended animation free from the ravages of katabolic processes and without any apparent effect on my physical or mental faculties Here once more is a real scientifiction story plus It is a story which will make the heart of many readers leap with joy Armageddon 2419 AD
