Around the World in Eighty Games Marcus du Sautoy, 2023-11-07 A fun and unexpected The Economist global tour of the world's greatest games and the mathematics that underlies them. Where should you move first in Connect 4? What is the best property in Monopoly? And how can pi help you win rock paper scissors? Spanning millennia, oceans, and continents, countries, and cultures, Around the World in Eighty Games gleefully explores how mathematics and games have always been deeply intertwined. Renowned mathematician Marcus du Sautoy investigates how games provided the first opportunities for deep mathematical insight into the world, how understanding math can help us play games better, and how both math and games are integral to human psychology and culture. For as long as there have been people, there have been games, and for nearly as long, we have been exploring and discovering mathematics. A grand adventure, Around the World in Eighty Games teaches us not just how games are won but how they and their math shape who we are.

Video Games Around the World Mark J. P. Wolf, 2015-05-22 Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent with essays covering areas as disparate and far-flung as Argentina and Thailand, Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss; many of them are game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa, how a meat packing company held the rights to import the Atari VCS 2600 into Mexico, and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the

context that shapes its national industry for example the long history of computer science in the United Kingdom and Scandinavia the problems of piracy in China the PC Bangs of South Korea or the Dutch industry's emphasis on serious games As these essays demonstrate local innovation and diversification thrive alongside productions and corporations with global aspirations Africa Arab World Argentina Australia Austria Brazil Canada China Colombia Czech Republic Finland France Germany Hong Kong Hungary India Indonesia Iran Ireland Italy Japan Mexico The Netherlands New Zealand Peru Poland Portugal Russia Scandinavia Singapore South Korea Spain Switzerland Thailand Turkey United Kingdom United States of America Uruguay Venezuela
