Around the world on a bicycle Thomas Stevens,1887 Around the World on a Bicycle Fred A. Birchmore,2020 This classic once hard to find travelogue recalls one of the very first around the world bicycle treks Filled with rarely matched feats of endurance and determination Around the World on a Bicycle tells of a young cyclist s ever changing and maturing worldview as he ventures through forty countries on the eve of World War II It is an exuberant youthful account harking back to a time when the exploits of Richard Byrd Amelia Earhart and other adventurers stirred the popular imagination In 1935 Fred A Birchmore left the small American town of Athens Georgia to continue his college studies in Europe In his spare time Birchmore toured the continent on a one speed bike he called Bucephalus after the name of Alexander the Great s horse A born wanderer Birchmore broadened his travels to include the British Isles and even the Mediterranean After a lengthy unplanned detour in Egypt Birchmore put his studies on hold pointed Bucephalus eastward and just kept going From desert valleys to frozen peaks from palace promenades to muddy jungle trails Birchmore saw it all on his eighteen month twenty five thousand mile odyssey Some of the people he encountered had never seen a bike or for that matter an Anglo European As a good travel experience should Birchmore s trip changed his outlook on strangers Always daring outgoing and energetic he now saw an innate goodness in people In between bone breaking spills wild animal attacks and privation of all kinds Birchmore learned that he had little to fear from human encounters That he traveled through a world on the brink of global war makes this lesson even more remarkable and timeless Around the World on a Bicycle Thomas Stevens,1887

Every Inch of the Way Tom Bruce,2013-03-11

A challenge that tested Tom to his limit but in return gave him more than he could ever have imagined Bear Grylls Every Inch of the Way is a great page turning adventure which is as close as you can get without actually saddling up and pedalling yourself into the unknown It takes real magic to turn a great adventure into a great book For one thing most people can t relate to the mindset of the long distance cyclist and I found myself laughing along to Tom s thoughts and observations wondering if they were in jokes shared by those who had seen the world at the speed of a bike for example his relationship with Serbia s stray dogs But his anecdotes have a great balance of the cultures and places as opposed to just inward reflections so I am sure would be enjoyed by anyone with an interest in travel and human experience A lovely story written from the heart Mark Beaumont around the world record breaking cyclist and adventurer This was the journey that changed my life I had dreamed about it for so long but I never actually thought I d complete a trip around the globe by bike It started off as seed in the back of my mind that grew and grew until the idea consumed me In March 2011 I set off on the adventure of a lifetime from my front door across Europe Asia and finally the USA I spent nights in people s houses all over the world slept in Yurts camped with nomads ate delicious food ranging from Tibetan stew to alligator meat drunk home made Georgian wine was given clothes partied with Kazakhs on the Caspian Sea ferry saw photos of USSR soldiers in front of statues of Lenin saw Stalin s house the Grand Canyon and the Great Wall I cycled through sweltering deserts and over huge mountains I overcame mechanical problems with the help of an Azerbaijani mechanic and illness due to the kindness of a Tajik Pamiri doctor On the way I cycled with local people and friends both old and new I ve written this book to share my story and the amazing experiences that I had It s not a book full of arty descriptions about beautiful places it doesn t have any clever metaphors it s just my story It tells the story of a normal person spending nine months experiencing the world from the saddle of a bike I ve included bits of history observations about people s daily life comparisons of countries and my own opinions as my story is told There are black and white photos included in the book too and colour photos in the ebook version I only had one rule I had to make it round the world on a bike every inch of the way I hope you enjoy my story it will be great to have you along for the ride The book contains around 100 photos and maps in black and white in the hard copy Why not follow my adventure on my website as you read the book I have thousands of photos route maps and lots more at www.tombrucecycling.com

Around the World on a Bicycle ...: From Teheran to Yokohama Thomas Stevens,1889

Cycling the Earth Sean Conway,2016-06-27 Sean Conway was stuck in a life dead end of his own making when he heard about a round the world cycling race He was immediately inspired but it was a huge undertaking and he d hardly been on a bike in years Could he really cycle all the way round the world solo and unsupported Six months later after completing a punishing training schedule and packing up everything he owned into boxes Sean was in Greenwich Park on the start line of the adventure of a lifetime Soon he was way ahead of schedule averaging 180 miles per day and on course to break the round the world cycling record But then disaster struck and Sean was forced to confront the possibility that he may not be able to complete the race In the course of his 16 000 mile journey Sean travelled the famous pan American highway across the Atacama Desert outran tornados relied on fellow travellers to ferry water across the Australian outback and inadvertently joined a cycle club in Mumbai He learnt things about himself he didn t know and rediscovered a spirit of adventure that changed everything This is a book about an amazing and sometimes incredibly difficult journey but it s also a book about never giving up when there s an opportunity to follow your dreams

Around the World on a Bicycle Thomas Stevens,2005-08-01 The first thing I come across is a tunnel burrowing through a hill This tunnel was originally built the proper size but after being walled up there were indications of a general cave in so the company had to go to work and build another thick rock wall inside the other which leaves barely room for the trains to pass through without touching the sides It is anything but an inviting path around the hill but it is far the safer of the two
