Art Against War:

Art Against War D. J. R. Bruckner, Seymour Chwast, Steven Heller, 1984 **American Artists Against War, 1935 2010** David McCarthy, 2015-07-07 Artists against war and fascism Doom End your silence A network of artist activists Not in our name **Art Against War** , *Antifascism in American Art* Cécile Whiting, 1989-01-01 Whiting examines the various manifestations of antifacist art showing how each negotiated the competing demands of artistic conventions aesthetic and political theories and historical developments **Radical Art** Helen Langa, 2004-03-25 Publisher Description **Napoleon on War** Napoleon I (Emperor of the French), 2015 The first ever systematic and authoritative compilation of Napoleon s thinking on war this is as close as we will ever get to the great book on war that Napoleon contemplated but never had the time or the will to complete in his last years in exile on Saint Helena **Against War and Empire** Richard Whatmore, 2012-07-31 Whatmore presents an intellectual history of republicans who strove to ensure Geneva s survival as an independent state Whatmore shows how the Genevan republicans grappled with the ideas of Rousseau Coltaire Bentham and others in seeking to make Europe safe for small states by vanquishing the threats presented by war and by empire *Arts for Change* Beverly Naidus, 2009-04-01 Arts for Change presents strategies and theory for teaching socially engaged art with an historical and contemporary overview of the field The book features interviews with over thirty maverick artists faculty from colleges and universities in the United States Canada and Great Britain whose pedagogy is drawn from and informs activist arts practice The issues these teaching artists address are provocative and diverse Some came to this work through personal healing from injustice and trauma or by witnessing oppressions that became intolerable Many have taught for decades deeply influenced by social movements of the 1960s and 1970s yet because the work is controversial tenured positions are rare **Machiavelli on War** Christopher Lynch, 2023-12-15 Machiavelli on War offers a comprehensive interpretation of the philosopher historian s treatment of war throughout his writings from poems and memoranda drafted while he was Florence s top official for military matters to his posthumous works *The Prince* and *Discourses on Livy* Christopher Lynch argues that the issue of war permeates the form and content of each of Machiavelli s works the substance of his thoughts and his own activity as a writer concluding that he was the first great modern philosopher because he was the first modern philosopher of war Lynch details Machiavelli s understanding of warfare in terms of both actual armed conflict and at the intellectual level of thinkers competing on the field of knowledge and belief Throughout Machiavelli s works he focuses on how military commanders knowledge of human necessities beginning with their own enables and requires them to mold soldiers organizationally and politically to best deploy them in operations attuned to political context and changing circumstances Intellectually leaders must shape minds their own and others to reject beliefs that would weaken their purpose for Machiavelli this meant overcoming the classical and Christian traditions in favor of a new teaching of human freedom and excellence As Machiavelli on War makes clear prevailing both on the battlefield and in the war of ideas demands a single

minded engagement in reasoning about everything beginning with oneself For Machiavelli Lynch shows the successful military commander is not just an excellent leader but also an excellent human being in constant pursuit of the truth about themselves and the world Peacebuilding and the Arts Jolyon Mitchell, Giselle Vincett, Theodora Hawksley, Hal Culbertson, 2019-11-19 Ending violent conflict requires societies to take leaps of political imagination Artistic communities are often uniquely placed to help promote new thinking by enabling people to see things differently In place of conflict's binary divisions artists are often charged with exploring the ambiguities and possibilities of the excluded middle Yet their role in peacebuilding remains little explored This excellent and agenda setting volume provides a ground breaking look at a range of artistic practices and the ways in which they have attempted to support peacebuilding a must read for all practitioners and policy makers and indeed other peacemakers looking for inspiration Professor Christine Bell FBA Professor of Constitutional Law Assistant Principal Global Justice and co director of the Global Justice Academy The University of Edinburgh UK Peacebuilding and the Arts offers an impressive and impressively comprehensive engagement with the role that visual art music literature film and theatre play in building peaceful and just societies Without idealizing the role of the arts the authors explore their potential and limits in a wide range of cases from Korea Cambodia Colombia and Northern Ireland to Uganda Rwanda South Africa and Israel Palestine Roland Bleiker Professor of International Relations University of Queensland Australia and author of *Aesthetics and World Politics* and *Visual Global Politics* Peacebuilding and the Arts is the first publication to focus critically and comprehensively on the relations between the creative arts and peacebuilding expanding the conventional boundaries of peacebuilding and conflict transformation to include the artist actor poet novelist dramatist musician dancer and film director The sections on the visual arts music literature film and theatre include case studies from very different cultures contexts and settings but a central theme is that the creative arts can play a unique and crucial role in the building of peaceful and just societies with the power to transform relationships heal wounds and nurture compassion and empathy Peacebuilding and the Arts is a vital and unique resource which will stimulate critical discussion and further research but it will also help to refine and reframe our understanding of peacebuilding While it will undoubtedly become mandatory reading for students of peacebuilding and the arts its original approach and dynamic exploratory style should attract a much wider interdisciplinary audience Professor Anna King Professor of Religious Studies and Social Anthropology and Director of Research Centre of Religion Reconciliation and Peace WCRRP University of Winchester UK This volume explores the relationship between peacebuilding and the arts Through a series of original essays authors consider some of the ways that different art forms including film theatre music literature dance and other forms of visual art can contribute to the processes and practices of building peace This book breaks new ground by setting out fresh ways of analysing the relationship between peacebuilding and the arts Divided into five sections on the Visual Arts Music Literature Film and Theatre Dance over 20 authors offer conceptual overviews of each art form as well as new case studies from around

Edward Kienholz Martha Rosler Peter Saul Nancy Spero and Robert Morris artists groups including the Art Workers Coalition AWC and the Artists Protest Committee APC and iconic works of collective protest art such as AWC's Q And Babies A And Babies and APC's The Artists Tower of Protest Israel also formulates a typology of antiwar engagement identifying and naming artists approaches to protest These approaches range from extra aesthetic actions advertisements strikes walk outs and petitions without a visual aspect to advance memorials which were war memorials purposefully created before the war's end that criticized both the war and the form and content of traditional war memorials Accessible and informative Art Libraries Society of North America A Journey of Art: Exploring the World of Modern Posters Pasquale De Marco, 2025-07-20 From the iconic works of art that adorn museum walls to the humble flyers that advertise local businesses posters have the power to inform persuade and inspire They have played a significant role in shaping our culture and history and their impact can be seen all around us In this comprehensive and engaging book we take a journey through the world of posters exploring their history their impact on society and the creative minds behind them We meet the masters of poster art from Alphonse Mucha to Edward Penfield and learn about the techniques and styles that they used to create their iconic works We also examine the role that posters have played in social and political movements from the Suffrage Movement to the Civil Rights Movement and see how they have been used to promote everything from products and services to travel and tourism Along the way we discover the many ways in which posters have influenced our lives and culture We see how they have shaped our understanding of art design and advertising and how they have helped to create a shared visual language that transcends national and cultural boundaries Whether you are a seasoned art lover or simply someone who appreciates great design this book is sure to fascinate and inspire you With its rich illustrations and engaging text it is the perfect introduction to the world of posters So sit back relax and let us take you on a journey through the world of posters From the Golden Age of Posters to the Art Deco Movement and beyond this book is a celebration of the art form that has captured our imaginations for centuries If you like this book write a review The Age of the Gas Mask Susan R. Grayzel, 2022-08-11 The First World War introduced the widespread use of lethal chemical weapons In its aftermath the British government like that of many states had to prepare civilians to confront such weapons in a future war Over the course of the interwar period it developed individual anti gas protection as a cornerstone of civil defence Susan R Grayzel traces the fascinating history of one object the civilian gas mask through the years 1915 1945 and in so doing reveals the reach of modern total war and the limits of the state trying to safeguard civilian life in an extensive empire Drawing on records from Britain's Colonial Foreign War and Home Offices and other archives alongside newspapers journals personal accounts and cultural sources she connects the histories of the First and Second World Wars combatants and civilians men and women metropole and colony illuminating how new technologies of warfare shaped culture politics and society **Behind the Lines** Philip Metres, 2007-05 Whether Thersites in Homer's Iliad Wilfred Owen in Dulce et Decorum Est or Allen Ginsberg in Wichita

Vortex Sutra poets have long given solitary voice against the brutality of war The hasty cancellation of the 2003 White House symposium Poetry and the American Voice in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that poetry and poets still have the power to challenge the powerful Behind the Lines investigates American war resistance poetry from the Second World War through the Iraq wars Rather than simply chronicling the genre Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented As such he explores a largely neglected area of scholarship the poet s relationship to dissenting political movements and the nation In his elegant study Metres examines the ways in which war resistance is registered not only in terms of its content but also at the level of the lyric He proposes that protest poetry constitutes a subgenre that by virtue of its preoccupation with politics history and trauma probes the limits of American lyric poetry Thus war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial though largely unexamined body of writing that stands at the center of dissident political movements *Exhibiting the Past* Frederik Herman, Sjaak Braster, María del Mar del Pozo Andrés, 2022-12-19 With respect to public issues history matters With the worldwide interest for historical issues related with gender religion race nation and identity public history is becoming the strongest branch of academic history This volume brings together the contributions from historians of education about their engagement with public history ranging from musealisation and alternative ways of exhibiting to new ways of storytelling *On War* Carl von Clausewitz, 1873
