Art An Everyday Experience:

The Museum Establishment and Contemporary Art Rebecca J. DeRoo, 2006-01-09 This book provides an in depth account of the protests that shook France in 1968 and which served as a catalyst to a radical reconsideration of artistic practice that has shaped both art and museum exhibitions up to the present Rebecca DeRoo examines how issues of historical and personal memory the separation of public and private domains and the ordinary objects of everyday life emerged as central concerns for museums and for artists as both struggled to respond to the protests She argues that the responses of the museums were only partially faithful to the aims of the activist movements Museums in fact often misunderstood and misrepresented the work of artists that was exhibited as a means of addressing these concerns Analyzing how museums and critics did and did not address the aims of the protests DeRoo highlights the issues relevant to the politics of the public display of art that have been central to artistic representation in France as well as in North America

Everyday Life Roger Abrahams, 2011-06-07 A folklorist and ethnographer who has written about the Southern Appalachians African American communities in the United States and the West Indies Roger D Abrahams goes up against the triviality barrier Here he takes on the systematics of his own culture He traces forms of mundane experience and the substrate of mutual understandings carried around as part of our own cultural longings and belongings *Everyday Life* explores the entire range of social gatherings from chance encounters and casual conversations to well rehearsed performances in theaters and stadiums Abrahams ties the everyday to those more intense experiences of playful celebration and serious power displays and shows how these seemingly disparate entities are cut from the same cloth of human communication Abrahams explores the core components of everyday ness including aspects of sociability and goodwill from jokes and stories to elaborate networks of

organization both formal and informal in the workplace He analyzes how the past enters our present through common experiences and attitudes through our shared practices and their underlying values Everyday Life begins with the vernacular terms for old talk and offers an overview of the range of practices thought of as customary or traditional Chapters are concerned directly with the terms for intense experiences mostly forms of play and celebration but extending to riots and other forms of social and political resistance Finally Abrahams addresses key terms that have recently come front and center in sociological discussions of culture in a global perspective such as identity ethnicity creolization and diaspora thus taking on academic jargon words as they are introduced into vernacular discussions

Artistic Visions and the Promise of Beauty Kathleen M. Higgins, Shakti Maira, Sonia Sikka, 2017-03-06 This volume examines the motives behind rejections of beauty often found within contemporary art practice where much critically acclaimed art is deliberately ugly and alienating It reflects on the nature and value of beauty asking whether beauty still has a future in art and what role it can play in our lives generally The volume discusses the possible end of art what art is and the relation between art and beauty beyond their historically Western horizons to include perspectives from Asia The individual chapters address a number of interrelated issues including art beauty and the sacred beauty as a source of joy and consolation beauty as a bridge between the natural and the human beauty and the human form the role of curatorial practice in defining art order and creativity and the distinction between art and craft The volume offers a valuable addition to cross cultural dialogue and in particular to the sparse literature on art and beauty in comparative context It demonstrates the relevance of the rich tradition of Asian aesthetics and the vibrant practices of contemporary art in Asia to Western discussions about the future of art and the role of beauty

Aesthetics of Everyday Life Curtis L. Carter, Liu Yuedi, 2014-10-02 As a new trend in aesthetics appearing concurrently in the West and the East in the last ten years the aesthetics of everyday life points to a growing diversification among existing methodologies for pursuing aesthetics alongside the shift from art based aesthetics The cultural diversity manifest in global aesthetics offers common ground for the collaborative efforts of aesthetics in both the West and the East

Given the rapidly growing interest and its potential for attracting new audiences extending beyond the more narrowly focused traditions of twentieth century analytic and environmental aesthetics it stands to command its own share of attention in the future of aesthetic studies The aesthetics of everyday life has become a stream of thought with a global ambition This interest has led to numerous systematic and in depth works on this topic some of which were conducted by the authors represented in this volume A salient feature of this book is that it not only represents the recent developments of the aesthetics of everyday life in the West but also highlights the interaction between scholars in the West and the East on this topic Thus the project is a contribution toward mutual progress in the collaboration between Western and Eastern aesthetics What distinguishes this book from other anthologies and monographs on this topic is that it reconstructs the aesthetics of everyday life through cultural dialogue between the West and the East with a view to building a new form of aesthetics of everyday life as seen from a global perspective At present the aesthetics of everyday life as a newly emergent approach to aesthetics may encounter skepticism among aestheticians accustomed to the rigors of analytic philosophers who prefer to discuss aesthetics at the level of abstract concepts and argument and who tolerate the particulars of experience mainly as illustrations But there is no reason to abandon the pursuit of the aesthetics of everyday life in the face of such objections On the contrary there are many benefits to gain in bringing aesthetics to bear on a wider sphere of human life made possible through efforts to show the relevance of aesthetics to a broader range of human actions
