Introduction to Moral Theology Romanus Cessario, 2010-03-30. The comprehensive introduction to Catholic moral theology by the leading theologian and author of *The Moral Virtues and Theological Ethics*. In *Introduction to Moral Theology*, Father Romanus Cessario, O.P., presents and expounds on the basic and central elements of Catholic moral theology written in the light of Veritatis splendor. Since its publication in 2001, this first book in the Catholic Moral Thought series has been widely recognized as an authoritative resource on such topics as moral theology and the good of the human person created in God's image, natural law, principles of human action, determination of the moral good through objects, ends, and circumstances, and the virtues, gifts of the Holy Spirit, and the Beatitudes. The Catholic Moral Thought series is designed to provide students with a comprehensive presentation of both the principles of Christian conduct and the specific teachings and precepts for fulfilling the requirements of the Christian life. Soundly based in the teaching of the Church, the volumes set out the basic principles of Catholic moral thought and the application of those principles within areas of ethical concern that are of paramount importance today.

A Theology of Creation Thomas S. Hibbs, 2023-08-15. This book provides the first sustained philosophical treatment of Pope Francis's *Laudato Si'* and articulates a theology of creation to recover our place within the cosmos. In the encyclical *Laudato Si'*, Pope Francis discerns beneath the imminent threat of ecological catastrophe an existential affliction of the human person who is lost in the cosmos, increasingly alienated from self, others, nature, and God. Pope Francis suggests that one must reimagine humanity's place in the created cosmos. In this ambitious and distinctive contribution to theological aesthetics, Thomas S. Hibbs provides the basis for just such a recovery, working from *Laudato Si'* to develop a philosophical and theological diagnosis of our ecological dislocation, a narrative account of the sources of the crisis, and a vision of the way forward. Through a critical engagement with the artistic theory of Jacques Maritain, Hibbs shows how certain strains of modern art both capture our alienation and anticipate visions of recovered harmony among persons, nature, and God. In the second half of the book, in an attempt to fulfill Pope Francis's plea for an aesthetic education and to apply and test Maritain's theory, Hibbs examines the work of poets and painters. He analyzes the work of poets Robinson Jeffers and William Everson and considers painters Georges Rouault, a friend to Maritain, and Makoto Fujimura, whose notion of culture care overlaps in suggestive ways with Francis's notion of integral ecology. Throughout this tour de force, Hibbs calls for a commitment to an ecological poetics, a project that responds to the crisis of our times by taking poets and painters as seriously as philosophers and theologians.

The Ontology, Psychology and Axiology of Habits (Habitus) in Medieval Philosophy Nicolas Faucher, Magali Roques, 2019-01-12 This book features 20 essays that explore how Latin medieval philosophers and theologians from Anselm to Buridan conceived of habitus as well as detailed studies of the use of the concept by Augustine and of the reception of the medieval doctrines of habitus in Suarez and Descartes Habitus are defined as stable dispositions to act or think in a certain way This definition was passed down to the medieval thinkers from Aristotle and to a lesser extent Augustine and played a key role in many of the philosophical and theological developments of the time Written by leading experts in medieval and modern philosophy the book offers a historical overview that examines the topic in light of recent advances in medieval cognitive psychology and medieval moral theory Coverage includes such topics as the metaphysics of the soul the definition of virtue and vice and the epistemology of self knowledge The book also contains an introduction that is the first attempt at a comprehensive survey of the nature and function of habitus in medieval thought The material will appeal to a wide audience of historians of philosophy and contemporary philosophers It is relevant as much to the historian of ancient philosophy who wants to track the historical reception of Aristotelian ideas as it is to historians of modern philosophy who would like to study the progressive disappearance of the term habitus in the early modern period and the concepts that were substituted for it In addition the volume will also be of interest to contemporary philosophers open to historical perspectives in order to renew current trends in cognitive psychology virtue epistemology and virtue ethics
