Michael Hatt,Charlotte Klonk,2025-03-18 Art History A critical introduction to its methods provides a lively and stimulating introduction to methodological debates within art history Offering a lucid account of approaches from Hegel to post colonialism the book provides a sense of art history s own history as a discipline from its emergence in the late eighteenth century to contemporary debates By explaining the underlying philosophical and political assumptions behind each method along with clear examples of how these are brought to bear on visual and historical analysis the authors show that an adherence to a certain method is in effect a commitment to a set of beliefs and values The book makes a strong case for the vitality of the discipline and its methodological centrality to new fields such as visual culture This book will be of enormous value to undergraduate and graduate students and also makes its own contributions to ongoing scholarly debates about theory and method *The Challenge of the Avant-garde* Paul Wood,1999-01-01 The Challenge of the Avant Garde is the fourth of six books in the series Art and its Histories which form the main texts of an Open University course The course has been designed for students who are new to the discipline but will also appeal to those who have undertaken some study in this area This volume traces the challenge posed to the academic canon by the emergent avant garde of the early and mid nineteenth century It looks at significant shifts in the development of the concept both in moves away from the sense of social leadership to a desire for artistic autonomy in the later nineteenth century and then a reverse movement to bridge the gap between art and life in the revolutionary avant gardes of the early twentieth century The book closes with an examination of the eventual incorporation of the avant garde as a form of modern canon by the eve of World War II Throughout it seeks to relate the discourse of artistic avant gardism in all its forms to contemporary social and political histories The Visible World Thijs Weststeijn,2008 How did painters and their public speak about art in Rembrandt s age This book about the writings of the painter poet Samuel van Hoogstraten one of Rembrandt s pupils examines a wide variety of themes from painting practice and theory from the Dutch Golden Age It addresses the contested issue of Dutch realism and its hidden symbolism as well as Rembrandt s concern with representing emotions in order to involve the spectator Diverse aspects of imitation and illusion come to the fore such as the theory behind sketchy or rough brushwork and the active role played by the viewer s imagination Taking as its starting point discussions in Rembrandt s studio this unique study provides an ambitious overview of Dutch artists ideas on painting *Modern Sculpture Reader* Jon Wood,David Hulks,Alex Potts,2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all Modern Sculpture Reader aims to rectify this situation by presenting a collection of important texts that have defined sculpture s radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic Modern Sculpture Reader

offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenberg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as sculpture s physical properties and conditions of display both of which have important implications for the viewer s tactile and emotional interaction with sculptural works

Video Art Historicized Malin Hedlin Hayden,2016-03-03 Video art emerged as an art form that from the 1960s and onwards challenged the concept of art hence art historical practices From the perspective of artists critics and scholars engaged with this new medium art was seen as too limiting a notion Important issues were to re think art as a means for critical investigations and a demand for visual reconsiderations Likewise art history was argued to be in crisis and in need of adapting its theories and methods in order to produce interpretations and thereby establish historical sense for moving images as fine art Yet as this book argues video art history has evolved into a discourse clinging to traditional concepts ideologies and narrative structures manifested in an increasing body of texts Video Art Historicized provides a novel insightful and also challenging re interpretation of this field by examining the discourse and its own premises It takes a firm conceptual approach to the material examining the conceptual theoretical and methodological implications that are simultaneously contested by both artists and authors yet intertwined in both the legitimizing and the historicizing processes of video as art By engaging art history s most debated concepts canon art and history this study provides an in depth investigation of the mechanisms of the historiography of video art Scrutinizing various narratives on video art the book emphasizes the profound and widespread hesitations towards but also the efforts to negotiate traditional concepts and practices By focusing on the politics of this discourse theoretical issues of gender nationality and particular themes in video art Malin Hedlin Hayden contests the presumptions that inform video art and its history **Chicago: Its History and its**
