## **Art And Science Of Resort Sales:**

**The Art & Science of Resort Sales** Dennis McCann, Ben Gay, III, 1999 McCann and Gay apply basic and advanced sales principles and techniques for the sale of major types of resort vacation properties. However, with slight modifications, these same sales principles can be applied just as effectively for selling any product, especially big ticket items. **The Closers** Jim Pickens, 1989-03 The keystone of Gay's world famous series of books first published in 1980 is a complete reference on closing sales and a guide to new sales presentations in today's marketplace. Not a beginner's manual or self-help book, this classic is designed to help master closers brush up and study total closing procedures. **Beyond Frontline Excellence** Anchal Andrews, 2015-11-17 Customer service comes from the heart and so does spirituality. Therefore, spirituality and customer service have a symbiotic relationship to give a wow customer experience. For the overall health and survival of a business, the professional self and the society of today and tomorrow, it is essential to integrate spirituality and customer service within a business. The frontline staff needs to go beyond rehearsed responses to customers to get the cutting edge over competition. To do this, individuals are required to know their potential and power intrinsically. This can be done by identifying the role of spirituality in everyday living and then bringing it to customer service. This book brings a new approach to business relationships with present and future customers, taking customer service beyond excellence by integrating it with spirituality. Anchal calls this approach Beyond Frontline Excellence. *Publishers Directory*, 2001. **Vacation Ownership World**, 2001. Real Estate Marketing M. Joseph Sirgy, 2014-05-09 Real Estate Marketing is specifically designed to educate real estate students with the art and science of the real estate marketing profession. The ideal textbook for undergraduate and graduate level classes in business school and professional continuing education programs in Real Estate, this book will also be of interest to professional real estate entrepreneurs looking to boost their knowledge and improve their marketing techniques. The book is divided into five major parts. Part 1 focuses on introducing students to fundamental concepts of marketing as a business philosophy and strategy. Concepts discussed include strategic analysis, target marketing, and the four elements of the marketing mix: property planning, site selection, pricing of properties, and promotion of properties. Part 2 focuses on personal selling in real estate. Students will learn the exact process and steps involved in representing real estate buyers and sellers. Part 3 focuses on negotiations in real estate. How do effective real estate professionals use negotiation approaches such as collaboration, competition, accommodation, and compromise as a direct function of the situation and personalities involved in either buying or selling real estate properties? Part 4 focuses on human resource management issues such as recruiting and training real estate agents, issues related to performance evaluation, motivation, and compensation, as well as issues related to leadership. Finally, Part 5 focuses on legal and ethical issues in the real estate industry. Students will learn how to address difficult situations and legal ethical dilemmas by understanding and applying a variety of legal ethical tests. Students will also become intimately familiar with the industry's code of ethics. **Paperbound**
