Restorative Justice and Lived Religion Jason A. Springs, 2024-09-24 Frames restorative justice as a form of moral and spiritual practice with the capacity to transform injustice In the United States restorative justice typically refers to small scale measures that divert alleged wrongdoers from a standard path through the criminal justice system by funneling them into alternative justice programs These aim not to punish the offender but to constructively address the harm that wrongdoing may have caused to individuals or to the community engaging with the wrongdoer to come to a response that might heal and repair the harm Yet restorative justice initiatives generally fail to challenge and transform the racist system of mass incarceration This book argues that these initiatives have the potential to do so but that we need to better understand what restorative justice is and how it should be implemented It claims that restorative justice can achieve its desired effect only insofar as it provides a mode of association between people that is at its core moral and spiritual The book explores the ways in which restorative justice ethics and practices exhibit moral and spiritual dynamics and what difference such lived religious dynamics can make for purposes of transforming structural violence Looking to Chicago s restorative justice network as a model for developing these transformational and sustainable social changes the volume showcases real life examples of the kinds of practices and initiatives needed to shift the entrenched dynamics that fuel the prison industrial complex across the United States

Sleeping Beauties Stephen King, Owen King, 2017-09-26 In this father son collaboration the authors tell the story of what might happen if women disappeared from the world of men Set in a small Appalachian town whose primary employer is a women s prison in a future so real and near it might be now something happens when women go to sleep They become shrouded in a cocoon like gauze If they are awakened if the gauze wrapping their bodies is disturbed or violated the women

become feral and spectacularly violent While they sleep they go to another place The men of our world are abandoned left to their increasingly primal devices One woman however the mysterious Evie is immune to the blessing or curse of the sleeping disease Is Evie a medical anomaly to be studied or is she a demon who must be slain **Verbs, Bones, and Brains** Agustín Fuentes, *Aku Visala*, 2017-01-15 A benchmark collection of essays on the contemporary understanding of human nature engaging biology and anthropology to theology and philosophy Robin W Lovin Cary M Maguire University Professor of Ethics emeritus Southern Methodist University author of *What Do We Do When No One is Listening* Leading the Church in a Polarized Society The last few decades have seen an unprecedented surge of empirical and philosophical research into the evolutionary history of Homo sapiens the origins of the mind brain and human culture This research has sparked heated debates about the nature of human beings and how knowledge about humans from the sciences and humanities should be properly understood The goal of *Verbs Bones and Brains Interdisciplinary Perspectives on Human Nature* is to engage these themes and present current debates discussions and discourse for a range of readers The contributors bring the discussion to life with key experts outlining major concepts paired with cross disciplinary commentaries in order to create a novel approach to thinking about and with human natures Throughout they emphasize the importance of seeking a convergence in our views on human nature despite metaphysical disagreements They caution that if convergence eludes us and a common ground cannot be found this is itself a relevant result it would reveal to us how deeply our questions about ourselves are connected to our basic metaphysical assumptions Instead their focus is on how the interdisciplinary and possibly transdisciplinary conversation can be enhanced in order to identify and develop a common ground on what constitutes human nature A landmark volume It shows the fruitfulness of a mutually respectful and yet rigorous approach to cross disciplinary engagement William Storrar Center of Theological Inquiry Princeton NJ editor of *A World for All* Global Civil Society in Political Theory and Trinitarian Theology Fascinating well organized and well edited Choice *Aliens Stole My Body* Bruce Coville, 1998-08 In the finale of this popular series BKR the most fiendish villain in the galaxy is determined to get at the world destroying secret locked in Rods brain Little does Rod know hes being drawn into a web of alien plots that will test his courage Illustrations **The Saintly Buccaneer (House of Winslow Book #5)** Gilbert Morris, 2004-11-01 The Saintly Buccaneer spotlights Paul Winslow a young man who is bitterly opposed to the American Revolution His life is quickly changed when he is shanghaied and pressed into service aboard a navy frigate And then he is struck with amnesia House of Winslow book **The Chronicles of Grace** Grace Simon, 2017-04-18 The Chronicles of Grace is a moving and visceral memoir penned by Grace Simon whose heated passions and stoic determination fueled a richly complex life A survivor of rape and a culture of misogyny she overcomes abuse and extortion by never abandoning her sense of humor and commitment to family Pivotal to her story is a gripping courtroom drama where she faces years in jail for something she did not do The upheaval starts when her first husband Charlie an absentee father demands custody of their sons Soon after Grace is
