Esoteric Behavioral Sciences Our Behaviors Development Secrets Esoteric Occult Enoch Wisdom and many other questions asked by those who attended the training were answered by Mustafa KARNAS and this question was named as being Metaphysical with answers educational information is included in this book In the following five subjects Being metaphysical

- 1 Managing your own life
- 2 Managing the flow of events
- 3 leading the flow of destiny
- 4 Managing the future
- 5 Managing information

Mustafa KARNAS BEING METAPHYSICAL Our topic is to manage the flow of destiny how will we manage our destiny How easy it is but hard when you don't know Let's examine the question of what is to know knowing is like opening Matryoshka dolls you go to the deepest knowing at every trench becomes a function What else is to know Knowing is holding holding is determining a space between references that is knowing is measuring The only reason we know is because we can measure what we measure is what we perceive What we perceive means something other than references created by what we know what we know is what we learned by measuring knowing also means understanding by changing the measures With each change of measure or reference the shape of the information also changes so the knowing function continues by updating the previously known With these constantly changing references even if the information is the same with the measurements forming a different judgment on everyone the projection of everyone will be different Knowing can only happen with the approval of others so we know what we know only in others we cannot know anything in ourselves The most important of the references that tell us what we know are their projections reflections For example if we hear ringing bells in a rural area even if we do not see it he tells us that there is a sheep goat cow herd in a place we cannot see but can hear in the future with a shepherd and shepherd dogs Just a bell and a bell show that we know all these things and if we turn it on we will move away from the sound if we are afraid of the shepherd dog attack but if we need help we approach the sound and so on We know because everything we know exists on a scale if it did not exist on a measure nothing we know would be because we will never see what we see again so every we see will be what we do not know and we would never know Although never knowing is a true reality the only reason we know is that human perception violated by the law of uncertainty has created constants for itself within the existing laws of existence That is we are bodies and souls trapped in a continuous repetition of the like in a cyclical hermetic matrix Therefore the flow which is in fact uncertainty becomes a reality in a narrow space within us and the measurements we make in that area are always stable so we know or we would never have known The way we know something is influenced by the way the brain processes it the brain processes information compares the two when a new flow of information arrives and orders the motor cortex accordingly So the only reason we know is because the measurements are stored in snaps stability and stability is that the brain arranges a mess in its own way For example you go to visit someone there is a dog at the door the man says don't be afraid they won't bite You don't have this information you have it Again you go to a yacht for a guest screams coming from the upper floor at 12 at night you worry you say Don't be afraid there is nothing the man is watching a movie these are the information that everybody gets by measuring

the motor cortex and snaps What else is measuring does anyone have an idea Another concept means to measure Measure means destiny We have created you on a scale that is we have created you on a fate our subject is destiny So as long as you stay within the measured your destiny is determined If the measurements change the fate also changes because the main thing is the law that is the law of measure appears as projective realities in the form of an array of possibilities in every measurement but when there is an action to change the measurement a new measurement is made subject to another law of creation Therefore the only fate determined is laws that is the rules of the laws of measurement never change but the fate of the person changes with different laws and measurements Whose destiny is the fate mentioned And let s come to the subject of death whose term is the term with whom is the agreement made *Just Love: Questions & Answers, Volume 3*

Paramahansa Sri Swami Vishwananda,2019-11-02 The third and final volume of the JUST LOVE Questions Answers series focuses particularly on that which has been the cause of more debate discussion mystery and curiosity than anything else in the history of mankind God Himself In addition for the first time Paramahansa Vishwananda gives answers to personal questions describing details about His own life and experiences as well as addressing questions about Mahavatar Babaji the role of the Guru religion the meaning and purpose of Divine incarnations and a deeper understanding about the mystical elements of spirituality and how that relates to our daily lives [Ask The Sales Coach-Practical Answers to the Questions Sales People Ask Most](#)

One Right Answer, Infinite Wrong Answers: Why Humanity Is Addicted to Being Wrong David Sinclair, 2021-07-27 This is a book about the one objective truth of existence and the countless subjective falsehoods accepted as true by the vast majority of humanity This book focuses especially on New Age guru Ken Wilber s fallacious system known as Integral Theory his theory of everything where he attempts to place a wide diversity of mystical theories and the teachings of various gurus into a single framework that supposedly explains everything Wilber s system is best summed up in his statement I have one major rule Everybody is right More specifically everybody including me has some important pieces of truth and all of those pieces need to be honored cherished and included in a more gracious spacious and compassionate embrace It is exactly this sentiment that underlies the New Age hegemony of relativism and subjectivism of everyone having their own experiences their own path their own truth In such a system it becomes impossible for people to reach the one absolute objective truth of existence which grounds everything In order to reach the Truth the task is not to pretend to people that they are all right but to show where they have gone wrong where they have strayed from reason and logic where they have succumbed to irrationalism via emotionalism sensory empiricism faith and mysticism Wilber adopts a fully irrationalist stance when he claims that the enlightened are what he calls trans rational i e they have somehow transcended reason and logic and thus reached the zone according to Wilber where they can apprehend Absolute Reality In fact Absolute Reality insofar as it is intelligible is nothing but the expression of the Principle of Sufficient Reason and its corollary Occam s razor How do we eliminate the infinite wrong answers to existence and reach the one infallible right answer to existence It s simplicity itself The answer to existence is the simplest and most rational possible Any answer that is not rational is irrational hence false Any answer that is not the simplest is wrong because reality would never privilege complexity over simplicity Reality necessarily follows the path of least resistance the most economic path It does not know how to introduce superfluous needless and pointless complexity You will never understand the answer to existence if the answer you support is against rationalism and against rational simplicity

Seeing the Big Picture Alastair T. Ferrie,2012-10 To many Christians the Old Testament is a mysterious document a treasure hidden in the dust of antiquity It is historical it tells the story of ancient Israel but has it anything to do with me Seeing the Big Picture is the story of one man s voyage of discovery The Bible as a whole is the dramatic story of redemption which comes to a climax in the New Testament In every book of the Old Testament the theme of the coming of Christ is there burning brightly like a lamp in the darkness heralding the day when the glory of the Christ would burst majestically forth Suddenly I saw that this was truly one story It was almost as if someone had turned a light on I could see things much more clearly and so many aspects of the New Testament study were brought into such clear focus that I understood as never before

Pathways to Eden Patricia Edwards,2010-03-22 Lost No one to give you directions Don t know which way to go When you stand lost at the crossroads you look for someone to come along to show you how to get out of your predicament Sometimes you receive the answer you have been waiting for and sometimes it seems like you don t When you look for the correct pathway you have to look to the person who can supply the answers Jesus said to his followers I am the Way yes and the Truth and the Life No one can come to the Father except through me Jesus came to show us the way which meant that he had to equip us with a lesson plan and instructions on how to live in the world and get a handle on our circumstances yet not be a part of it he showed us how to have the peace of the Lord and enjoy all the world has to offer without compromising our ideals Jesus is the captain and the head steering Eve s children to follow the correct course back to their first home the Garden of Eden *Sweet Shadows* Tera Lynn Childs,2025-06-17 Three sisters One destiny No one to trust Gretchen may have known she was a descendant of Medusa long before her sisters after all she s spent her life fighting the monsters that

A complete science fiction trilogy in one volume This is difficult to write a description for being that it is 3 novels in one volume Judas is a cast off of society sent to explore the dark reaches of space He's sent in an experimental vehicle that drops into another layer of space with unknown properties When he gets too curious his life and everyone around him begin to change forever He ends up at the center of galactic war interplanetary politics interspecies breeding and just a whole lot of messes He's a survivor though and just wants to be left alone with a few of his favorite females Is that so much to ask *The Case Against Theism* Raphael Lataster,2018-06-14 This monograph offers a critique of arguments for the existence of a specifically Christian God advanced by prominent scholar William Lane Craig The discussion incorporates philosophical mathematical scientific historical and sociological approaches The author does not seek to criticize religion in general or Christianity specifically Rather he examines the modern and relatively sophisticated evidential case for Christian theism Scholars have been arguing for theism or naturalism for centuries and there seems little to add to the discussion especially from the theistic side However to assume that either theism or naturalism obtains is a false dichotomy There are alternatives to both that merit consideration Employing a probabilistic approach the author advances this discussion His work uniquely utilizes not only naturalistic hypotheses to argue against theism It also presents supernaturalistic hypotheses This leaves no question that theism is almost certainly false even if some form of divine reality exists This project seeks not to argue that Christianity or any other faith or religion is undesirable but only to critically examine evidentialist claims posited by Christianity's learned apologists In fact a major secondary aim is to consider alternative god conceptions such as polytheism and pantheism This work aims to highlight that Christian theism is often granted special privileges by theistic philosophers of religion which seems doubly inappropriate when certain alternative god conceptions may even prove to be more plausible
