Michael McClure

Antechamber And Other Poems:

Antechamber & Other Poems, 1978 **Antechamber, & Other Poems** Michael McClure, 1978 Antechamber and Other Poems Michael McClure's latest book with New Directions joins a growing list of contributions that includes the verse collection September Blackberries 1974 and Jaguar Skies 1975 as well as the musical play Gorf 1976 His writing in recent years is alchemical in its intent yet his twin declarations Biology Is Politics and I Am A Mammal Patriot perhaps express more accurately both the universality of his outlook and its humane particularity McClure's mysticism is vigorously scientific Even the familiar patterned shapes of his poems remind us of the stars in the night sky and those we see when we shut our eyes In the dancing lines of his newest work the title poem Antechamber most especially are the whirl of galaxies the radiance of molecules the energy lines of the double helix coiling around its core Conversations with Michael McClure David Stephen Calonne, 2024-06-20 Conversations with Michael McClure features twenty interviews from 1969 to 2015 that chronicle the capacious scope of McClure's creativity McClure 1932 2020 is notable not only for his considerable achievements as a poet and prose writer of the Beat Generation but also for the many collaborative connections he forged over seven decades From the 1950s to his death McClure worked with an astonishing range of important figures in the worlds of painting filmmaking music and science McClure counted among his friends and acquaintances Bruce Conner Harold Pinter Amiri Baraka Richard Brautigan Wallace Berman George Herms Lawrence Jordan Dennis Hopper Bob Dylan Janis Joplin Jim Morrison Ray Manzarek Sterling Bunnell Francis Crick Gary Snyder Francesco Clemente and Diane di Prima During his early years in San Francisco McClure attended Kenneth Rexroth's literary evenings and formed significant lifelong friendships Among those friends were poets Philip Lamantia and Robert Duncan who became a mentor to McClure He also learned much from Charles Olson and adopted several features of Olson's concept of Projective Verse in his own work McClure's exchange of letters with experimental filmmaker Stan Brakhage lasted for four decades During his illustrious career McClure published fourteen books of poetry eight books of plays and four collections of essays Conversations with Michael McClure reveals the many contributions of this central personality in the evolution of the American counterculture **New Directions in Prose and Poetry** 21 James Laughlin, 1969 **International Who's Who in Poetry 2005** Europa Publications, 2004-08-02 The 13th edition of the International Who's Who in Poetry is a unique and comprehensive guide to the leading lights and freshest talent in poetry today Containing biographies of more than 4 000 contemporary poets world wide this essential reference work provides truly international coverage In addition to the well known poets talented up and coming writers are also profiled Contents Each entry provides full career history and publication details An international appendices section lists prizes and past prize winners organizations magazines and publishers A summary of poetic forms and rhyme schemes The career profile section is supplemented by lists of Poets Laureate Oxford University professors of poetry poet winners of the Nobel Prize for Literature winners of the Pulitzer Prize for American Poetry and of the King's Queen's Gold medal and other

poetry prizes **New Directions in Prose and Poetry, 49** James Laughlin, 1985-11 *"The" Monarche and Other Poems* David Lindesay, 1865 **Fragments of Perseus** Michael McClure, 1983 Poems explore the murder of a young Chinese American the author's experiences while traveling through Mexico and the life of the mythological character Perseus

Rebel Lions Michael McClure, 1991 *Rebel Lions* Michael McClure's first book of poetry since the retrospective *Selected Poems 1985* spans a decade of profound personal change and poetic evolution for the author In an introductory note he provides a backdrop for the collection which moves from old life to new McClure's work bursts forth from the matrix of the physical and spiritual Poetry is one of the edges of consciousness he asserts And consciousness is a real thing like the hoof of a deer or the smell of a bush of blackberries at the roadside in the sun In the first section of *Rebel Lions* *Old Flames* the poems range from the realistic *Awakening* and *Recalling a Summer Hike* to the metaphorical *The Silken Stitching* as the poet addresses a life on the verge of transformation The second section *Rose Rain* exults in a life transformed through love's alchemy *Rebel Lions* closes with *New Brain* poems affirming the freedom of all humankind and matter in the eternal now

The Visioneers W. Patrick McCray, 2017-06-06 The story of the visionary scientists who invented the future In 1969 Princeton physicist Gerard O'Neill began looking outward to space colonies as the new frontier for humanity's expansion A decade later Eric Drexler an MIT trained engineer turned his attention to the molecular world as the place where society's future needs could be met using self-replicating nanoscale machines These modern utopians predicted that their technologies could transform society as humans mastered the ability to create new worlds undertook atomic scale engineering and if truly successful overcame their own biological limits *The Visioneers* tells the story of how these scientists and the communities they fostered imagined designed and popularized speculative technologies such as space colonies and nanotechnologies Patrick McCray traces how these visioneers blended countercultural ideals with hard science entrepreneurship libertarianism and unbridled optimism about the future He shows how they built networks that communicated their ideas to writers politicians and corporate leaders But the visioneers were not immune to failure or to the lures of profit celebrity and hype O'Neill and Drexler faced difficulty funding their work and overcoming colleagues' skepticism and saw their ideas co-opted and transformed by Timothy Leary the scriptwriters of *Star Trek* and many others Ultimately both men struggled to overcome stigma and ostracism as they tried to unshackle their visioneering from pejorative labels like fringe and pseudoscience *The Visioneers* provides a balanced look at the successes and pitfalls they encountered The book exposes the dangers of promotion oversimplification misuse and misunderstanding that can plague exploratory science But above all it highlights the importance of radical new ideas that inspire us to support cutting edge research into tomorrow's technologies

The Monarche, and Other Poems of Sir David Lindsay David Lindsay, 1865 **The Antechamber** Helmut Puff, 2023-10-31 Helmut Puff invites readers to visit societies and spaces of the past through the lens of a particular temporal modality waiting From literature memoirs manuals chronicles visuals and other documents Puff presents a history of waiting

anchored in antechambers interior rooms designated and designed for people to linger In early modern continental Western Europe antechambers became standard in the residences of the elites As a time space infrastructure these rooms shaped encounters between unequals By imposing spatial distance and temporal delays antechambers constituted authority rank and power Puff explores both the logic and the experience of waiting in such formative spaces showing that time divides as much as it unites and that far from what people have said about early moderns they approached living in time with apprehensiveness Unlike how contemporary society primarily views the temporal dimension to early modern Europeans time was not an objective force external to the self but something that was tied to acting in time Divided only by walls and doors waiters sought out occasions to improve their lot At other times they disrupted the scripts accorded them Situated at the intersection of history literature and the history of art and architecture this wide ranging study demonstrates that waiting has a history that has much to tell us about social and power relations in the past and present Simple Eyes & Other Poems Michael McClure, 1994 In the long title poem Simple Eyes Fields the stanzas on the Persian Gulf War bloom out of images of all wars the poet has known the spiritual wars the napalm and cordite and nuclear wars and the war against nature and become a kind of spiritual autobiography At the heart of the poetry is McClure s return to the ancient concept of agnosia the idea of knowing through unknowing as a way of living in desperate times in which deep human or humane feelings have almost become outlaw **New Directions 52** James Laughlin, Peter Glassgold, Griselda Jackson Ohannessian, 1988-12 Since 1936 the New Directions in Prose and Poetry anthologies have served as vehicles for the presentation of new and variant trends in world literature *The Daybreak Boys* Gregory Stephenson, 2009-06-25 In these critical essays Gregory Stephenson takes the reader on a journey through the literature of the Beat Generation a journey encompassing that common ethos of Beat literature the passage from darkness to light from fragmented being toward wholeness from Beat to Beatific He travels through Jack Kerouac s Duluoz Legend following Kerouac s quests for identity community and spiritual knowledge He examines Allen Ginsberg s use of transcendence in Howl discovers the Gnostic vision in William S Burroughs s fiction and studies the mythic visionary power of Lawrence Ferlinghetti s poetry Stephenson also provides detailed examinations of the writing of lesser known Beat authors John Clellon Holmes Gregory Corso Richard Fari a and Michael McClure He explores the myth and the mystery of the literary legend of Neal Cassady The book concludes with a look at the common traits of the Beat writers their use of primitivism shamanism myth and magic spontaneity and improvisation all of which led them to a new idiom of consciousness and to the expansion of the parameters of American literature The Beat Book Anne Waldman, 2007-07-10 The Beat movement exploded into American culture in the early 1950s with the force of prophecy Not just another literary school it was an artistic and social revolution William S Burroughs proclaimed that the Beat writers were real architects of change There is no doubt that we re living in a freer America as a result of the Beat literary movement which is an important part of the larger picture of cultural and political change in this country during the

last forty years when a four letter word couldn't appear on the printed page and minority rights were ridiculous Anne Waldman a renowned poet and longtime friend of many of these writers has gathered in this volume a range of the best and most exemplary writings of the Beat poets and novelists Selections from the Beat classics appear as well as more recent prose and poetry demonstrating the continued vitality of the Beat experiment Included are short biographies of the contributors an extensive bibliography of Beat literature and a unique guide to Beat places around the world from Kerouac's hometown of Lowell Massachusetts where his novel *Dr Sax* takes place to Tangier where Burroughs wrote parts of *Naked Lunch* *Herald of the Autochthonic Spirit* Gregory Corso, 1981 Corso Herald of Autochthonic Spirit Poetry heralding the ivory applecart of tyrannical values **International Who's Who of Authors and Writers 2004** Europa Publications, 2003 Accurate and reliable biographical information essential to anyone interested in the world of literature The International Who's Who of Authors and Writers offers invaluable information on the personalities and organizations of the literary world including many up and coming writers as well as established names With over 8 000 entries this updated edition features Concise biographical information on novelists authors playwrights columnists journalists editors and critics Biographical details of established writers as well as those who have recently risen to prominence Entries detailing career works published literary awards and prizes membership and contact addresses where available An extensive listing of major international literary awards and prizes and winners of those prizes A directory of major literary organizations and literary agents A listing of members of the American Academy of Arts and Letters **Music, Mind, and Brain** Manfred Clynes, 2013-06-29 There is much music in our lives yet we know little about its function Music is one of man's most remarkable inventions though possibly it may not be his invention at all like his capacity for language his capacity for music may be a naturally evolved biologic function All cultures and societies have music Music differs from the sounds of speech and from other sounds but only now do we find ourselves at the threshold of being able to find out how our brain processes musical sounds differently from other sounds We are going through an exciting time when these questions and the question of how music moves us are being seriously investigated for the first time from the perspective of the coordinated functioning of the organism the perspective of brain function motor function as well as perception and experience There is so much we do not yet know But the roads to that knowledge are being opened and the coming years are likely to see much progress towards providing answers and raising new questions These questions are different from those music theorists have asked themselves they deal not with the structure of a musical score although that knowledge is important and necessary but with music in the flesh music not outside of man to be looked at from written symbols but music man as a living entity or system The Poetics of Postmodernist and Neoromantic Nature Poetry George Leslie Hart, 1997

Antechamber And Other Poems Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has been more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Antechamber And Other Poems**," written by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
