The Aesop's Fable Paradigm K. Brandon Barker, Daniel J. Povinelli, 2021-12-07 The Aesop's Fable Paradigm is a collection of essays that explore the cutting edge intersection of Folklore and Science From moralizing fables to fantastic folktales humans have been telling stories about animals animals who can talk feel think and make moral judgments just as we do for a very long time In contrast scientific studies of the mental lives of animals have professed to be investigating the nature of animal minds slowly cautiously objectively with no room for fanciful tales fables or myths But recently these folkloric and scientific traditions have merged in an unexpected and shocking way scientists have attempted to prove that at least some animal fables are actually true These interdisciplinary chapters examine how science has targeted the well known Aesop's fable The Crow and the Pitcher as their starting point They explore the ever growing set of experimental studies which purport to prove that crows possess an understanding of

higher order concepts like weight mass and even Archimedes insight about the physics of water displacement The Aesop s Fable Paradigm explores how these scientific studies are doomed to accomplish little more than to mirror anthropomorphic representations of animals in human folklore and reveal that the problem of folkloric projection extends far beyond the Aesop s Fable Paradigm into every nook and cranny of research on animal cognition **The Hagiographical Experiment:** **Developing Discourses of Sainthood** ,2020-03-17 The Hagiographical Experiment Developing Discourses of Sainthood throws fresh light on narratives about Christian holy men and women from Late Antiquity to Byzantium Rather than focusing on the relationship between story and reality it asks what literary choices authors made in depicting their heroes and heroines how they positioned the narrator how they responded to existing texts how they utilised or transcended genre conventions for their own purposes and how they sought to relate to their audiences The literary focus of the chapters assembled here showcases the diversity of hagiographical texts written in Greek Latin Coptic and Syriac as well as pointing out the ongoing conversations that connect them By asking these questions of this diverse group of texts it illuminates the literary development of hagiography in the late antique Byzantine and medieval periods **The Representation of Speech Events in Chariton's Callirhoe and the Acts of the Apostles** Adrian T. Smith,2014-06-26 In The Representation of Speech Events in Chariton s Callirhoe and the Acts of the Apostles Adrian T Smith summarizes cross linguistic research on how and why narrators vary the formulae that introduce direct speech This research is applied to Chariton and to Acts The findings demonstrate that narrators vary quotation formulae for numerous pragmatic purposes including the tracking of conversational dynamics via a set of marked and unmarked quotation devices **Myth** Gregory Schrempp,William Hansen,2002-10-29 Myth A New Symposium offers a broad based assessment of the present state of myth study It was inspired by a revisiting of the influential mid century work Myth A Symposium edited by Thomas Sebeok A systematic introduction and 15 contributions from a wide spectrum of disciplines offer a range of views on past myth study and suggest directions for the future Contributors blend theoretical analysis with richly documented historical ethnographic and literary illustrations and examples drawn from Native American classical medieval and modern sources **The Biblical World** Katharine J. Fictional Storytelling in the Medieval Eastern Mediterranean and Beyond, 2016-09-27 This volume offers an overview of the rich narrative material circulating in the medieval Mediterranean. As a multilingual and multicultural zone, the Eastern Mediterranean offered a broad market for tales in both oral and written form and longer works of fiction which were translated and reworked in order to meet the tastes and cultural expectations of new audiences, thus becoming common intellectual property of all the peoples around the Mediterranean shores. Among others, the volume examines for the first time popular eastern tales such as *Kalila and Dimna*, *Sindbad Barlaam* and *Joasaph* and Arabic epics together with their Byzantine adaptations. Original Byzantine love romances, both learned and vernacular, are discussed together with their Persian counterparts and with later adaptations of western stories. This combination of such disparate narrative material aims to highlight both the wealth of medieval storytelling and the fundamental unity of the medieval Mediterranean world. Contributors are Carolina Cupane, Faustina Doufikar, Aerts Massimo, Fusillo Corinne, Jouanno Grammatiki, A Karla, Bettina Krnung, Renata Lavagnini, Ulrich Moennig, Ingela Nilsson, Claudia Ott, Oliver Overwien, Panagiotis Roilos, Julia Rubanovich, Ida Toth, Robert Volk and Kostas Yiavis.

Writing Politics in Imperial Rome W.J. Dominik, J. Garthwaite, P.A. Roche, 2009-05-15 Roman literature is inherently political in the varied contexts of its production and the abiding concerns of its subject matter. This collection examines the strategies and techniques of political writing at Rome in a broad range of literature spanning almost two centuries, differing political systems, climates and contexts. It applies a definition of politics that is more in keeping with modern critical approaches than has often been the case in studies of the political literature of classical antiquity. By applying a wide variety of critically informed viewpoints, this volume offers the reader not only a long view of the abiding techniques, strategies and concerns of political expression at Rome but also many new perspectives on individual authors of the early empire and their republican precursors.

The Practical Art of Divine Magic Patrick Dunn, 2015-08-08 The ancient world of Egypt, Greece and Rome was home to a set of magical and spiritual technologies called theurgy that unite the practice of magic with the aims of religion. Theurgy or godwork is the art of creating a stronger bond between the theurgist and his or her deities. The results of this stronger bond were imminently practical: stronger magic, more meaningful existence and a better life. With the fall of Rome, these techniques faded into obscurity and many of them were lost forever. This book revives, restores and reinvents these practices for a contemporary pagan or magical practitioner. A mixture of scholarly research and examination of source texts and daring experimentation and extrapolation leads to a complete and workable system that can inform a variety of practices, all presented in a relaxed, lighthearted and readable way. Whether you practice witchcraft, ceremonial magic or chaos magic, you can benefit from the practice of theurgy. You will learn

techniques to create stronger bonds with divine forces call up and communicate with spiritual beings summon a magical assistant create statues imbued with divine spirit and master your own mind The ultimate goal is union with the divine but theurgy is a practical path and every step on that path is designed to improve your life **The Acts of Paul** Richard I. Pervo, 2014-03-17 This is the most complete translation of the Acts of Paul in English together with a detailed commentary The orientation is primarily literary with detailed attention to the history of composition and revision Unlike many studies this commentary does not focus upon the story of Thecla
