Anthropological Perspectives On Organizational Culture:

Anthropological Perspectives on Organizational Culture Tomoko Hamada, Willis E. Sibley, 1994 This work began in the form of an all day symposium developed by co editor Willis E Sibley on the topic of corporate culture The editors have compiled papers presented by anthropologists concerned with corporate and organizational culture *Organisational Anthropology* Christina Garsten, Anette Nyqvist, 2014-10-20 Organisational Anthropology is a pioneering analysis of doing ethnographic fieldwork in different types of complex organisations focusing on the process of initiating contact establishing rapport and gaining the trust of an organisation s members The thirteen contributors work from the premise that doing fieldwork in an organisation shares essential characteristics with fieldwork in more classical anthropological environments but that it also poses some particular challenges to the ethnographer with barriers including the ideological or financial interests of the organisations protection of resources and competition between organisations A number of organisational contexts including corporations EU policy arenas think tanks and the public sector are explored in case studies from the UK Japan Norway Sweden Mexico and the USA *A Companion to Organizational Anthropology* D. Douglas Caulkins, Ann T. Jordan, 2012-09-24 The first comprehensive guide to anthropological studies of complex organizations Offers the first comprehensive reference to the anthropological study of complex organizations Details how organizational theory and research in business has adopted anthropology s key concept of culture inspiring new insights into organizational dynamics and development Highlights pioneering theoretical perspectives ranging from symbolic and semiotic approaches to neuroscientific frameworks for studying contemporary organizations Addresses the comparative and cross cultural dimensions of multinational corporations and of non governmental organizations working in the globalizing economy Topics covered include organizational dynamics entrepreneurship innovation social networks cognitive models and team building organizational dysfunctions global networked organizations NGOs unions virtual communities corporate culture and social responsibility Presents a body of work that reflects the breadth and depth of the field of organizational anthropology and makes the case for the importance of the field in the anthropology of the twenty first century *The Handbook of Organizational Culture and Climate* Neal M. Ashkanasy, Celeste P M Wilderom, Mark F. Peterson, 2011 The Second Edition provides an overview of current research theory and practice in this expanding field The editorial team and the authors come from diverse professional and geographical backgrounds and provide an unprecedented coverage of topics relating to both culture and climate of modern organizations **The Anthropology of Organizations** Susan Wright, 2004-03 This book presents and analyses the latest anthropological work on the development and management of organizations examining practical problems which anthropology can help to solve *The Unity of Theory and Practice in Anthropology*, 2009-04-22 NAPA Bulletin is a peer reviewed occasional publication of the National Association for the Practice of Anthropology dedicated to the practical problem solving and policy applications of anthropological knowledge and methods peer reviewed

Nolan,2013-01-16 An essential career planning resource A Handbook of Practicing Anthropology presents a comprehensive account of contemporary anthropological practice written primarily by anthropological practitioners Engagingly written and instructive accounts of practice by anthropological professionals working in corporations governmental entrepreneurial and educational settings Provides essential guidance on applying anthropological principles on the job what works well and what must be learned Emphasizes the value of collaboration teamwork and continuous learning as key elements to success in non academic careers Highlights the range of successful career options for practitioners describes significant sectors of professional activity and discusses key issues concerns and controversies in the field Chapters examine key practice sectors such as freelancing managing a consulting firm working for government non profits and corporations and the domains of health industry education international development and the military *International Encyclopedia of Organization Studies* Stewart Clegg,James R. Bailey,2008 Describing the field spanning individual organisation societal and cultural perspectives in a cross disciplinary manner this is the premier reference tool for students lecturers academics and practitioners to gather knowledge about a range of important topics from the perspective of organisation studies **The Oxford Handbook of the Learning Organization** Anders Örtengren,2019-12-17 The concept of the learning organization is one of the most popular management ideas of the last few decades Since it was conceived as an idea in its own right it has been given various definitions and meanings such that we are still faced with the question as to whether any unified understanding of what the learning organization really is can be established This Handbook offers extensive reviews of both new and traditional perspectives on the concept and provides suggestions for how the learning organization can best be defined practiced studied and developed in future research With contributions from long standing scholars in the field as well as those new to the area this book aims to bridge the gap between traditional and more critical perspectives and in doing so find alternative features and angles to take the idea forward In addition to elaborating on and developing older definitions of the learning organization and suggesting updated and even new definitions the chapters also provide focused explorations on pertinent aspects of the learning organization such as ambidexterity gender inclusivity and systems thinking They also survey organizations that have made efforts towards becoming learning organizations how the learning organization can best be

measured and studied and the universality of the idea itself Some of the questions raised in this book are answered or at least given tentative answers while other questions are left open In this way the book has the ambition to take the learning organization an important step further whilst having no intentions to take any final step instead the intention is that others will endeavour to continue where this book stops

Cultural Change from a Business Anthropology Perspective Elizabeth K. Briody, Maryann

McCabe, 2017-11-09 This book offers keen insight and useful lessons underscoring the value of practice to theory Conceived by two anthropologists who lead consulting practices McCabe and Briody selected contributors to explore how cultural change happens in a variety of consumer and organizational contexts The 12 case studies illustrate the explanatory potential and the problem solving strengths of assemblage theory and the role of human agency in provoking cultural change The case studies are compelling due to connections between the case narratives and graphics and researcher engagement in the pragmatics of implementation both of which shape and encourage learning This volume will be markedly useful to practitioners engaged in research and implementation It will also appeal to students and faculty in a variety of fields including anthropology business management marketing sociology cultural studies and industrial design

Values,

Nature, and Culture in the American Corporation William C. Frederick, 1995 In *Values Nature and Culture in the American Corporation* distinguished ethicist William Frederick explores issues of fundamental importance to all who aspire to conduct their business affairs ethically He begins with an examination of the three value systems in business that are basically incompatible and therefore in constant tension The first is the need for managers to efficiently allocate resources for maximum profits The second is the natural tendency for managers in pursuit of the first goal to accumulate power for its own sake The third is the desire for people in the community to create relationships that will perpetuate these communities Frederick brings in a range of ideas and concepts from the social sciences as well as the natural sciences to illuminate his discussion In the final section of the book he explores a range of issues of current concern to managers including corporate culture and technology
