Schwab, 1991-01-01 Many political commentators both liberal and conservative have argued that the 1980s were a period of fundamental conservative change Some of them believe that the changes have been so important that the 1980s should be seen as a watershed period in American political history as significant as the 1930s Schwab argues here that politics and policy have not fundamentally changed in a conservative direction but have actually moved in the opposite direction This book is a timely and comprehensive analysis of the Reagan years of interest to all readers interested in politics and national policy

Recovering Ancestors in Anthropological Traditions Regna Darnell, Frederic W. Gleach, Library of Congress Catalogs Library of Congress, 1982 **Monographic Series** Library of Congress,

Top-down Community Building and the Politics of Inclusion Fenneke Wekker, 2017-05-24 This book explores mechanisms of inclusion and exclusion involved in practices of community building through an ethnographic study of a neighborhood restaurant in Amsterdam It presents important insights into the advantages and empowering effects of professional top down community building in a disadvantaged neighborhood as well as its tensions and contradictory outcomes The core argument of the study is that in spite of the observed restaurant's well intended and well organized attempts to create an inclusive and heterogeneous local community it instead established one both exclusive and homogeneous Through a set of community building practices and discourses of deprivation and ethnic and racial otherness the construction of collective fear for ethnic and racial others was indirectly facilitated among the white working class visitors As a result insurmountable barriers were erected for non white and non native Dutch residents to become part of the local community This project speaks to social scientists as well as social workers governments and policy makers concerned with issues of social cohesion informal networks and professional community building in disadvantaged urban settings

Culturally Competent Family Therapy Shlomo Ariel, 1999-10-30 The problems of a family are often conditioned by the cultural issues its members face regardless of their socioeconomic background However most therapeutic models ignore this important factor Ariel's book offers a model for diagnosis and therapy that incorporates cultural issues It provides clinicians and trainees with readily applicable concepts methods and techniques for helping families and their members overcome

difficulties related to intermarriage immigration acculturation socioeconomic inequality prejudice and ecological or demographic change This approach enables therapists to analyze and describe a family as a cultural system explain its culture related difficulties and design and carry out culturally sensitive strategies for solving these difficulties The model introduced in this book integrates theories in family therapy in general and culturally oriented family therapy in particular with ideas drawn from many other fields such as cross cultural psychology psychiatry anthropology and linguistics The form of therapy presented in this book is integrative drawing from traditional curing and healing techniques employed in folk psychotherapy and medicine in addition to more conventional therapeutic models Every technique is modified to be adapted to the cultural character of the family in question This book is designed to be a handbook for clinicians and a textbook for students trainees and researchers It can be used as a guide for a complete independent method of family therapy and also as a source of ideas and techniques that can be incorporated selectively into other forms of therapy [Subject Catalog Library of Congress](#), *Readings for a History of Anthropological Theory* Paul A.
