Western world A major hypothesis is that exoticism is closely related to and often motivated by eroticism a reason why exoticism should be considered as gendered Case studies of the falsification of authentic art the de sacralization of sacred objects and of the use of natural materials deriving from endangered species complete the analysis

Contemporary Art and Anthropology Arnd Schneider, Christopher Wright, 2020-09-02 Contemporary Art and Anthropology takes a new and exciting approach to representational practices within contemporary art and anthropology Traditionally the anthropology of art has tended to focus on the interpretation of tribal artifacts but has not considered the impact such art could have on its own ways of making and presenting work The potential for the contemporary art scene to suggest innovative representational practices has been similarly ignored This book challenges the reluctance that exists within anthropology to pursue alternative strategies of research creation and exhibition and argues that contemporary artists and anthropologists have much to learn from each others practices The contributors to this pioneering book consider the work of artists such as Susan Hiller Francesco Clemente and Rimer Cardillo and in exploring topics such as the possibility of shared representational values aesthetics and modernity and tattooing they suggest productive new directions for practices in both fields
