 Difference* Linda Ashley, 2012-12-09 As the global vicissitudes of migration unfold so does ethnic difference in the classroom
 and this book offers a timely examination of teaching about culturally different dances At a time when the world of dance is
 on the one hand seemingly becoming more like fusion cookery there is another faction promoting isolation and preservation
 of tradition How if at all may these two worlds co exist in dance education Understanding teaching about culturally different
 dances from postmodern postcolonial pluralist and critical perspectives creates an urgent demand to develop relevant
 pedagogy in dance education What is required to support dance educators into the next phase of dance education so as to
 avoid teaching from within a Eurocentric creative dance model alone An ethnographic investigation with teachers in New
 Zealand lays a foundation for the examination of issues challenges and opportunities associated with teaching about
 culturally different dances Concerns and issues surrounding notions of tradition innovation appropriation interculturalism
 social justice and critical pedagogy emerge Engaging with both practice and theory is a priority in this book and a nexus
 model in which the theoretical fields of critical cultural theory semiotics ethnography and anthropology can be activated as
 teachers teach is proposed as informing approaches to teaching about culturally different dances Even though some practical
 suggestions for teaching are presented the main concern is to motivate further thinking and research into teaching about

 sessions with Sweigard over a two year span Williams discusses methods using imagery for improving body posture and
 alignment for ease of movement Central to Williams s own teaching methods is the application of Sweigard s principles and
 general anatomical instruction including how she used visual imagery to help prevent bodily injuries and increasing body
 awareness relative to movement Williams also emphasizes the differences between kinesthetic internal and mirror external
 imagery and shares reactions from professional dancers who were taught using ideokinesis Williams s account of teaching
