Anti Semitism The Causes And Effects Of A Prejudice:

Anti-semitism Paul E. Grosser,1979 Anti-Semitism and Its Metaphysical Origins David Patterson,2015-02-09 This book articulates a deeper understanding of the phenomenon of Jew hatred as a metaphysical aspect of the human soul Proceeding from the Jewish thinking that the anti Semites oppose David Patterson argues that anti Semitism arises from the most ancient of temptations the temptation to be as God and thus to flee from an absolute accountability to and for the other human being *Anti-Semitism, Causes and Effects* Paul E. Grosser,Edwin G. Halperin,1983 *The Causes and Effects of Anti-Semitism* Paul E. Grosser,Edwin G. Halperin,1978 **Anti-Semitism** ,1976 *Toward a Definition of Antisemitism* Gavin I. Langmuir,1996-02 Toward a Definition of Antisemitism offers new contributions by Gavin I Langmuir to the history of antisemitism together with some that have been published separately The collection makes Langmuir s innovative work on the subject available to scholars in medieval and Jewish history and religious studies The underlying question that unites the book is what is antisemitism where and when did it emerge and why After two chapters that highlight the failure of historians until recently to depict Jews and attitudes toward them fairly the majority of the chapters are historical studies of crucial developments in the legal status of Jews and in beliefs about them during the Middle Ages Two concluding chapters provide an overview In the first the author summarizes the historical developments indicating concretely when and where antisemitism as he defines it emerged In the second Langmuir criticizes recent theories about prejudice and racism and develops his own general theory about the nature and dynamics of antisemitism **Encyclopedia of Protestantism** Hans J. Hillerbrand,2004-08-02 This Encyclopedia is the definitive reference to the history and beliefs that continue to exert a profound influence on Western thought The Paradox of Anti-Semitism Dan Cohn-Sherbok,2006-05-10 Cohn Sherbok argues that although antisemitism is an evil it has paradoxically kept Judaism alive and made its culture prosper

Anti-Semitism in America Harold Earl Quinley,Charles Young Glock, Periodic outbreaks of anti Jewish hostility testify to the continuing presence of anti Semitism in America Based on the most extensive research ever conducted on the subject Anti Semitism in America now in a new paperback edition provides us with the often surprising facts about the enduring form of bigotry and sheds new light on the nature of prejudice in general The authors draw their conclusions from a specially designed nationwide survey on anti Semitism conducted by the Survey Research Center at the University of California Berkeley and by other public opinion polls **Competition in Religious Life** Jay Newman,2006-01-01 In his latest work on the social consequences of religious commitment Jay Newman reveals in clear and concise fashion the extent to which competitiveness is an essential feature of religious life His assessment charts various classical strategies that have been proposed for either eliminating such competitiveness or directing it into appropriate channels After a detailed philosophical analysis of the nature and value of competition the author examines competition between denominations and within denominations and considers religious competition in some of its less obvious forms In the process of evaluating the methods

for curbing religious competition advocated by such thinkers as Spinoza and Lessing as well as by modern ecumenists the author points the way to a general approach to religious competition that minimizes destructive religious conflicts without ignoring the positive value of religious competition The Routledge History of the Holocaust Jonathan C.

Friedman,2010-12-15 The genocide of Jewish and non Jewish civilians perpetrated by the German regime during World War Two continues to confront scholars with elusive questions even after nearly seventy years and hundreds of studies This multi contributory work is a landmark publication that sees experts renowned in their field addressing these questions in light of current research A comprehensive introduction to the history of the Holocaust this volume has 42 chapters which add important depth to the academic study of the Holocaust both geographically and topically The chapters address such diverse issues as continuities in German and European history with respect to genocide prior to 1939 the eugenic roots of Nazi anti Semitism the response of Europe s Jewish Communities to persecution and destruction the Final Solution as the German occupation instituted it across Europe rescue and rescuer motivations the problem of prosecuting war crimes gender and Holocaust experience the persecution of non Jewish victims the Holocaust in postwar cultural venues This important collection will be essential reading for all those interested in the history of the Holocaust *Our Hands Are Stained with Blood* Michael L. Brown,1992 A description of 2 000 years of Christian persecution of the Jews written by a Jewish Christian who contends that Christians are almost totally ignorant of the Jews agony throughout the centuries Pointing to the Jewish origins of Jesus and the apostles and to positive aspects of Judaism decries the Christian distortion of Judaism and the hatred and lies spread against the Jewish people up to the present day Although he believes that the Jews will eventually come to accept Jesus as the Messiah Brown calls on Christians to approach Jews with love and not with hatred He states that Satan is the author of the spirit of antisemitism and that Christians must recognize that when they hate Jews they are heeding not God but Satan Roots of Hate William Brustein,2003-10-13 William I Brustein offers the first truly systematic comparative and empirical examination of anti Semitism within Europe before the Holocaust Brustein proposes that European anti Semitism flowed from religious racial economic and political roots which became enflamed by economic distress rising Jewish immigration and socialist success To support his arguments Brustein draws upon a careful and extensive examination of the annual volumes of the American Jewish Year Books and more than 40 years of newspaper reportage from Europe s major dailies The findings of this informative book offer a fresh perspective on the roots of society s longest hatred

Confronting Anti-semitism Leonard P. Zakim,2000 This book provides guidelines for dealing with anti Semitism it Specifies different Anty Semitic myths and offers ways of responding to them it also contains articles about different aspects of anti Semitism The Persisting Question Helen Fein,2012-02-13 No detailed description available for The Persisting Question **Days of Remembrance, April 7-14, 1991** ,1990 **Adolescent Prejudice** Charles Y. Glock,1975 **Racial and Cultural Minorities** George Eaton Simpson,J. Milton Yinger,2013-06-29 We need scarcely note that the topic of this

book is the stuff of headlines Around the world political economic educational military religious and social relations of every variety have a racial or ethnic component One cannot begin to understand the history or contemporary situation of the United States the Soviet Union China Zimbabwe South Africa Great Britain Lebanon Mexico Canada indeed almost any land without careful attention to the influence of cultural and racial divisions Preparation of this new edition has brought a strong sense of *deja vu* with regard both to the persistence of old patterns of discrimination even if in new guises and also to the persistence of limited and constraining explanations We have also found however rich new empirical studies new theoretical perspectives and greatly expanded activity and analyses from members of minority groups Although this edition is an extensive revision with reference both to the data used and the theoretical approaches examined we have not shifted from our basically analytical perspective We strongly support efforts to reduce discrimination and prejudice but these can be successful only if we try to understand where we are and what forces are creating the existing situation We hope to reduce the tendency to use declarations and condemnations of other persons actions as substitutes for an investigation of their causes and consequences

Why America Needs Religion Guenter Lewy, 1996 In this trenchant analysis of the moral decline of modern America Lewy describes the moral crisis caused by secular modernity and points to the role of religiousness as a necessary bulwark against today's social ills

Confronting Humanity at Its Worst Leonard S. Newman, 2020 How do otherwise ordinary people become perpetrators of genocide Why are groups targeted for mass killing How do groups justify these terrible acts While there are no easy answers to these questions social psychologists are especially well positioned to contribute to our understanding of genocide and mass killing With research targeting key questions such as how negative impressions of outgroups develop and how social influence can lead people to violate their moral principles and other norms social psychologists have much to teach us about why groups of people attempt to exterminate other groups why people participate in such atrocious projects and how they live with themselves afterwards By bringing together research previously available only to readers of academic journals this volume sheds crucial light on human behavior at the extremes and in doing so helps us take one more step towards preventing future tragedies
