Antioch As A Center Of Hellenic Culture As Observed By Libanius:

Antioch as a Centre of Hellenic Culture as Observed by Libanius Libanius, 2000 This volume will interest not only students of Libanius and of Antioch but also those engaged in the broader study of education rhetoric Hellenic culture and upper class pagan society in late antiquity **BOOK JACKET**

Antioch as a Centre of Hellenic Culture, as Observed by Libanius Libanius, A. F. Norman, 2000 Focusing on the first and last years of Libanius Antiochene career AD 354 388 this volume illustrates his great range of his rhetorical skills while at the same time illuminating the intrigues of city politics and university life The shorter speeches give unparalleled insights into problems of sharply contemporary relevance teachers pay student indiscipline and rioting threats from the rival Latin curriculum accusations of professional incompetence as well as everyday details of academic life

Libanius the Sophist Raffaella Cribiore, 2013-11-01 Libanius of Antioch was a rhetorician of rare skill and eloquence So renowned was he in the fourth century that his school of rhetoric in Roman Syria became among the most prestigious in the Eastern Empire In this book Raffaella Cribiore draws on her unique knowledge of the entire body of Libanius's vast literary output including 64 orations 1 544 letters and exercises for his students to offer the fullest intellectual portrait yet of this remarkable figure whom John Chrysostom called the sophist of the city Libanius 314 ca 393 lived at a time when Christianity was celebrating its triumph but paganism tried to resist Although himself a pagan Libanius cultivated friendships within Antioch's Christian community and taught leaders of the Church including Chrysostom and Basil of Caesarea Cribiore calls him a gray pagan who did not share the fanaticism of the Emperor Julian Cribiore considers the role that a major intellectual of Libanius's caliber played in this religiously diverse society and culture When he wrote a letter or delivered an oration who was he addressing and what did he hope to accomplish One thing that stands out in Libanius's speeches is the startling amount of invective against his enemies How common was character assassination of this sort What was the subtext to these speeches and how would they have been received Adapted from the Townsend Lectures that Cribiore delivered at Cornell University in 2010 this book brilliantly restores Libanius to his rightful place in the rich and culturally complex world of Late Antiquity

Violence and Belief in Late Antiquity Thomas Sizgorich, 2012-03-19 In *Violence and Belief in Late Antiquity* Thomas Sizgorich seeks to understand why and how violent expressions of religious devotion became central to the self understandings of both Christian and Muslim communities between the fourth and ninth centuries Sizgorich argues that the cultivation of violent martyrdom as a path to holiness was in no way particular to Islam rather it emerged from a matrix put into place by the Christians of late antiquity Paying close attention to the role of memory and narrative in the formation of individual and communal selves Sizgorich identifies a common pool of late ancient narrative forms upon which both Christian and Muslim communities drew In the process of recollecting the past Sizgorich explains Christian and Muslim communities alike elaborated iterations of Christianity or Islam that demanded of each believer a willingness to endure or inflict violence on God's behalf and thereby created militant local

pieties that claimed to represent the one real Christianity or the only pure form of Islam These militant communities used a shared system of signs symbols and stories stories in which the faithful manifested their purity in conflict with the imperial powers of the world **Religious Diversity in Late Antiquity** David Morton Gwynn,Susanne Bangert,2010 This volume in the ongoing Late Antique Archaeology series draws on material and textual evidence to explore the diverse religious world of Late Antiquity Subjects include Jews and Samaritans orthodoxy and heresy pilgrimage stylites magic the sacred and the secular *The Governor and his Subjects in the Later Roman Empire* Daniëlle Slootjes,2017-07-31 This book presents new insights into the dynamics of the relationship between governors and provincial subjects in the Later Roman Empire with a focus on the provincial perspective Based on literary legal epigraphic and artistic materials the author deals with questions such as how provincials communicated their needs to governors how they expressed both their favorable and critical opinions of governors behavior and how they rewarded good governors Provincial expectations a continuous dialogue interdependence reciprocity and ceremonial routine play key roles in this study that not only leads to a better understanding of Late Roman provincial administration but also of the successful functioning of an empire as large as that of Rome

Antioch II Silke-Petra Bergjan,Susanna Elm,2018-09-04 During the fourth century Antioch on the Orontes was the most important imperial residence in the Roman Empire and a hot bed of intellectual and religious activity The writings of men such as Libanius the emperor Julian Ammianus Marcellinus John Chrysostom Theodoret and many others provide a density of written sources that is nearly unmatched in antiquity while the archaeological evidence of the city s evolution is much harder to reconstruct This volume assembles state of the art scholarship on these ancient authors within the context of recent archaeological work to offer a rare comprehensive view of this late Roman city Contributors Rudolf Brandle Gunnar Brands Silke Petra Bergjan Susanna Elm Johannes Hahn Gavin Kelly Blake Leyerle Jaclyn Maxwell Wendy Mayer Yannis Papadogiannakis Catherine Saliou Adam M Schor Christine Shepardson Jan R Stenger Claudia Tiersch Edward Watts Jorit Wintjes *Roman Imperialism and Civic Patronage* Brenda Longfellow,2011 In this book Brenda Longfellow examines one of the features of Roman Imperial cities the monumental civic fountain Built in cities throughout the Roman Empire during the first through third centuries AD these fountains were imposing in size frequently adorned with grand sculptures and often placed in highly trafficked areas Over twenty five of these urban complexes can be associated with emperors Dr Longfellow situates each of these examples within its urban environment and investigates the edifice as a product of an individual patron and a particular historical and geographical context She also considers the role of civic patronage in fostering a dialogue between imperial and provincial elites with the local urban environment Tracing the development of the genre across the empire she illuminates the motives and ideologies of imperial and local benefactors in Rome and the provinces and explores the complex interplay of imperial power patronage and the local urban environment The Legend of Seleucus Daniel Ogden,2017-04-07 The first full reconstruction of and investigation into the vibrant and fascinating legend

of King Seleucus successor to Alexander the Great The Oxford Handbook of Science and Medicine in the Classical World Paul Turquand Keyser, John Scarborough, 2018 This handbook synthesizes what is known and debated about science in the classical world of ancient Greece and Rome also touching briefly on Egypt Mesopotamia India and China Each of its many essays provides a synthesis and synopsis of the concepts and models of one of the ancient natural sciences A Companion to Late Antiquity Philip Rousseau, 2012-01-25 An accessible and authoritative overview capturing the vitality and diversity of scholarship that exists on the transformative time period known as late antiquity Provides an essential overview of current scholarship on late antiquity from between the accession of Diocletian in AD 284 and the end of Roman rule in the Mediterranean Comprises 39 essays from some of the world's foremost scholars of the era Presents this once neglected period as an age of powerful transformation that shaped the modern world Emphasizes the central importance of religion and its connection with economic social and political life Winner of the 2009 Single Volume Reference Humanities Social Sciences PROSE award granted by the Association of American Publishers A History of Codex Bezae's Text in the Gospel of Mark Peter E. Lorenz, 2021-11-08 As the principal Greek witness of the so called Western tradition of the gospels and Acts Codex Bezae's enigmatic text in parallel Greek and Latin columns presents a persistent problem of New Testament textual criticism The present study challenges the traditional view that this text represents a vivid retelling of the canonical narratives cited by ancient writers from Justin Martyr to Marcion and translated early into Syriac and Latin

olması temenni ediyorum *Laughter on the Fringes* Anna Peterson, 2019-02-01 This book examines the impact that Athenian Old Comedy had on Greek writers of the imperial era It is generally acknowledged that imperial era Greeks responded to Athenian Old Comedy in one of two ways either as a treasure trove of Atticisms or as a genre defined by and repudiated for its aggressive humor Worthy of further consideration however is the degree to which both approaches and particularly the latter one that relegated Old Comedy to the fringes of the literary canon led authors to engage with the ironic and self reflexive humor of Aristophanes Eupolis and Cratinus Authors ranging from serious moralizers Plutarch and Aelius Aristides to comic writers in their own right Lucian Alciphron to other figures not often associated with Old Comedy Libanius adopted aspects of the genre to negotiate power struggles facilitate literary and sophistic rivalries and as a model for autobiographical writing To varying degrees these writers wove recognizable features of the genre e g the parabasis its agonistic language the stage biographies of the individual poets into their writings The image of Old Comedy that emerges from this time is that of a genre in transition It was on the one hand with the exception of Aristophanes extant plays on the verge of being almost completely lost on the other hand its reputation and several of its most characteristic elements were being renegotiated and reinvented **The Sculptural Environment of the Roman Near East** Yaron Z. Eliav, Elise A. Friedland, Sharon Herbert, 2008 Public sculptures were the mass media of the Roman world They populated urban centers throughout the empire serving as a plastic language that communicated political religious and social messages This book brings together twenty eight experts who otherwise rarely convene text based scholars of the Greco Roman Jewish and Christian realms from the fields of classics history and religion and specialists in the artistic traditions of Greece and Rome as well as art historians and archaeologists Utilizing the full spectrum of ancient sources the book examines the multiple at times even contradictory meanings and functions that statues served within the complex world of the Roman Near East Moreover it situates the discussion of sculpture in the broader context of antiquity in order to reevaluate long held scholarly consensus on such ideas as the essence of Hellenism the culture that emerged from the encounter of Greco Romans with the Near East and the everlasting conflict among paganism Christianity and Judaism *Hatay: Anavatana katılışının 80. yıl armağanı* AHMET GÜNDÜZ, HAYDAR ÇORUH, SÜLEYMAN HATİPOĞLU, 2020-01-29 Akdeniz medeniyetinin içinde yer alan ve ticaret yolları üzerinde antik Anadolu'dan beri konumlanmış olan Antakya yüzyıllar boyunca ehitli medeniyetlere ev sahipliği yapmıştır Doğu ile batının kaynaşma noktasında olması nedeniyle bir okulum kendini ifade etmesini ve yaymasını sağlamıştır Osmanlı idaresinin farklı etnik ve din kimliklere karşı gösterdiği adil yönetim tarzı da hoşgörülü ortamın yaygınlaşarak mesinde önemli bir faktör olmuştur Antakya merkezli Hatay bölgesinde barındırdığı tarihi coğrafik ve kültürel özellikleri ile her aşamada ilgi odağı olmuştur Elinizdeki eseri oluşturan makaleler de bu özelliklerin ehitli boyutların ortaya çıkarmak amacıyla kaleme alınmıştır Yirmi beş menden oluşmakta olan bu alanda Coğrafya Edebiyat Sanat Tarihi Tarih letim gibi birkaç bilim dalından gelen makaleler yer

Kalleres,2015-10-13 Although it would appear in studies of late antique ecclesiastical authority and power that scholars have covered everything an important aspect of the urban bishop has long been neglected his role as demonologist and exorcist When the emperor Constantine made Christianity the official religion of the realm bishops and priests everywhere struggled to Christianize the urban spaces still dominated by Greco Roman monuments and festivals During this period of upheaval when congregants seemingly attended everything but their own orthodox church many ecclesiastical leaders began simultaneously to promote aggressive and insidious depictions of the demonic In *City of Demons* Dayna S Kalleres investigates this developing discourse and the church sponsored rituals that went along with it showing how shifting ecclesiastical demonologies and evolving practices of exorcism profoundly shaped Christian life in the fourth century *The*
