The Friar and the Maya Matthew Restall, Amara Solari, John F. Chuchiak, Traci Ardren, 2023-12-22 The Friar and the Maya offers a full study and new translation of the *Relaci n de las Cosas de Yucat n* Account of the Things

of Yucatan by a unique set of eminent scholars created by them over more than a decade from the original manuscript held by the Real Academia de la Historia in Madrid This critical and careful reading of the Account is long overdue in Maya studies and will forever change how this seminal text is understood and used For generations scholars used and misused the Account as the sole eyewitness insight into an ancient civilization It is credited to the sixteenth century Spanish Franciscan monastic inquisitor and bishop Diego de Landa whose legacy is complex and contested His extensive writings on Maya culture and history were lost in the seventeenth century save for the fragment that is the Account discovered in the nineteenth century and accorded near biblical status in the twentieth as the first ethnography of the Maya However the Account is not authored by Landa alone it is a compilation of excerpts many from writings by other Spaniards a significant revelation made here for the first time This new translation accurately reflects the style and vocabulary of the original manuscript It is augmented by a monograph comprising an introductory chapter seven essays and hundreds of notes that describes explains and analyzes the life and times of Diego de Landa the Account and the role it has played in the development of modern Maya studies The Friar and the Maya is an innovative presentation on an important and previously misunderstood primary source

Maya Diaspora James Loucky, Marilyn M. Moors, 2000-10-16 Maya people have lived for thousands of years in the mountains and forests of Guatemala but they lost control of their land becoming serfs and refugees when the Spanish invaded in the sixteenth century Under the Spanish and the Guatemalan non Indian elites they suffered enforced poverty as a resident source of cheap labor for non Maya projects particularly agriculture production Following the CIA induced coup that toppled Guatemala's elected government in 1954 their misery was exacerbated by government accommodation to United States interests which promoted crops for export and reinforced the need for cheap and passive labor This widespread poverty was endemic throughout northwestern Guatemala where 80 percent of Maya children were chronically malnourished and forced wide scale migration to the Pacific coast The self help aid that flowed into the area in the 1960s and 1970s raised hopes for justice and equity that were brutally suppressed by Guatemala's military government This military reprisal led to a massive diaspora of Maya throughout Canada the United States Mexico and Central America This collection describes that process and the results The chapters show the dangers and problems of the migratory refugee process and the range of creative cultural adaptations that the Maya have developed It provides the first comparative view of the formation and transformation of this new and expanding transnational population presented from the standpoint of the migrants themselves as well as from a societal and international perspective Together the chapters furnish ethnographically grounded perspectives on the dynamic implications of uprooting and resettlement social and psychological adjustment long term prospects for continued links to migration history from Guatemala and the development of a sense of co ethnicity with other indigenous people of Maya descent As the Maya struggle to find their place in a more global society their stories of quiet courage epitomize those of many other ethnic groups migrants and refugees today

Reading Popol Wuj Nathan C. Henne,2020-04-14 Popol Wuj is considered one of the oldest books in the Americas Various elements of Popol Wuj have appeared in different written forms over the last two millennia and several parts of Popol Wuj likely coalesced in hieroglyphic book form a few centuries before contact with Europeans Popol Wuj offers a unique interpretation of the Maya world and ways of being from a Maya perspective However that perspective is often occluded since the extant Popol Wuj is likely a copy of a copy of a precontact Indigenous text that has been translated many times since the fifteenth century Reading Popol Wuj offers readers a path to look beyond Western constructions of literature to engage with this text through the philosophical foundation of Maya thought and culture This guide deconstructs various translations to ask readers to break out of the colonial mold in approaching this seminal Maya text Popol Wuj or Popol Vuh in its modern form can be divided thematically into three parts cosmogony the formation of the world tales of the beings who inhabited the Earth before the coming of people and chronicles of different ethnic Maya groups in the Guatemala area Examining thirteen translations of the K'iche' text Henne offers a decolonial framework to read between what translations offer via specific practice exercises for reading studying and teaching Each chapter provides a close reading and analysis of a different critical scene based on a comparison of several translations English and Spanish of a key K'iche' word or phrase in order to uncover important philosophical elements of Maya worldviews that resist precise expression in Indo-European languages Charts and passages are frontloaded in each chapter so the reader engages in the comparative process before reading any leading arguments This approach challenges traditional Western reading practices and enables scholars and students to read Popol Wuj and other Indigenous texts from within the worldview that created them
