Dance and the Specific Image Daniel Nagrin,2015-03-23 After an extraordinary career in dance as a performer choreographer and teacher Daniel Nagrin has now written an extraordinary book In it he explores the roots of his aesthetic philosophy influenced by Stanislavski Helen Tamiris Joseph Chaikin and the Open Theatre and his work on and off Broadway as an actor and dancer Dance and the Specific Image includes over one hundred improvisational structures that Nagrin created with his new company the Workgroup and has taught in dance classes and workshops all over the United States Designed primarily for dancers many can be adapted for actors and even musicians In the 1960s at a time when many modern dancers were working with movement as abstraction Nagrin turned instead toward movement as metaphor His passionate belief that dance must speak of people led him to found the Workgroup a small company of dancers who in the early 1970s devoted themselves to the practice and performance of improvisation Nagrin invites the reader into the mind of a dancer totally absorbed in his art one who writes with wisdom and authority about what it means to be an artist

Mechanics of Ballroom Dancing Stephen Arthur Nystrom,2017-04-13 This book is designed to take the questions out of ballroom dancing This book is designed for anyone who is interested in taking the mystery out of ballroom dancing It explains many of the questions that arise while learning ballroom dance that your instructor may or may not be able to address appropriately Many dance instructors dance great however they are unable to help you adjust your dancing by explaining what they are doing Those instructors generally show you a figure and continue to show you the figure until you

get it This is very time consuming and expensive to the student The goal of this book is to simplify some of these intricate movements as well as explain the dance connection in dance This book also helps give new students a better understanding of how dancing works which will help them improve their dancing a lot more rapidly The book also gives some examples of bad dancing habits versus good dancing habits There are specific exercises in the book to help improve connection body movement and self control with specific steps The book points out the kind of qualities you are looking for in an instructor which include excellent dance knowledge professionalism enthusiasm etc There are many typical questions that every new ballroom dancer has while learning the dance There are questions provided that if asked will provide you the student with some insight about your instructor s knowledge of ballroom dancing This is critical because an instructor cannot correct your dancing if they do not understand how to do it correctly themselves Finally the book has been written in an effort to raise awareness of good ballroom dancing It is open to interpretation and vulnerable to criticism as well as other dancers opinions Keep in mind every ballroom dance organization has dissenters in their organization about how things should be done This in part is what creates different styles of dance The end result is improved dancing knowledge for all concerned Always keep one thing in mind If what you are doing hurts stop doing it Dancing correctly will not hurt

and religion are all open pathways when utilized properly we attempt in this issue to discover what true art consists of Ask the practitioner and inquire of the adept is the recourse we have resorted to herein Music poetry dance painting and film described in these pages are duly five sacred constituents of the infinite expanse of Advaitic experience We have heard seen possibly have even known what these sacred forms have suffered at the hands of people with a desire for fame a yen for pleasure and the singular search for wealth that occludes and excludes all other considerations The sweet exalted and transporting presence of God simply disappears from the medium and atmosphere which covets such fugacious spurious and soporific attainments Led on by artists who support a mere masquerade of true attainment beings rush to the affluent and the popular for their inner fulfillment scarcely ever experiencing the superlative presence of divinity residing in pure artistic expression Thus the authentic luminaries of art science and religion seldom get recognized by the masses and the masses then have little recourse and access to the more profound insights and inspirations of the various refined fields How is music made sacred Is it sacred already Is all dance divine Does all poetry reflect the divine muse within Do all works of art speak of the highest realization Does it really matter or is all realization like beauty in the eye of the beholder Possibly some of these questions may find answers in the following pages But if not suffice to say that where the medium is purified where a lustral regimen has been adhered to there spiritualized expression will reach its zenith When sensitive artists seeking the highest place their gifts and talents in action and offer the fruits of such before the world they must first and necessarily have subjected them to purification and intensification Any instrument whether it be a metal tube or a fleshy tube a wooden box with strings or a metal box containing film a tome of writings a paintbrush or the human body is always under the control of consciousness Like different conditions of water some fit for drinking some for swimming some for washing dishes and some only for carrying waste the consciousness of human minds is also pure or impure as the case may be In artistic endeavor then as in spiritual practice purification of what is limited or impure renders the medium fit to emanate the truth or essence of any given expression such as inspired choreography a masterpiece on canvas an original composition a unique film or a work of literary genius all which have the ability to transform lives So here is the acid test with regards to true artforms at least for the discriminating person As is consistent with all modes of existence with work dreams visions relative experiences of all types if they help reveal the divine essence in human nature and assist human character by way of positive accretion then they can be said to be real authentic and ultimately meaningful Otherwise too much distraction and wasted energy plague them as well as their host all amounting to vanity and vexation of human spirit
