Millichap, 2023-08-18 Toward the end of his career Robert Penn Warren wrote It may be said that our lives are our own supreme fiction Although lauded for his writing in multiple genres Warren never wrote an autobiography Instead he created his own shadowy autobiography in his poetry and prose as well as his fiction and nonfiction As one of the most thoughtful scholars on Robert Penn Warren and the literature of the South Joseph Millichap builds on the accepted idea that Warren s poetry and fiction became more autobiographical in his later years by demonstrating that that same progression is replicated in Warren s literary criticism This meticulously researched study reexamines in particular Warren s later nonfiction in which autobiographical concerns come into play that is in those fraught with psychological crisis such as *Democracy and Poetry* Millichap reveals the interrelated literary genres of autobiography criticism and poetry as psychological modes encompassing the interplay of Warren s life and work in his later nonfiction He also shows how Warren s critical engagement with major American authors often centered on the ways their creative work intersected with their lives thus generating both autobiographical criticism and the working out of Warren s own autobiography under these influences Millichap s latest book focuses on Warren s critical responses to William

Faulkner John Crowe Ransom Herman Melville Nathaniel Hawthorne John Greenleaf Whittier and Theodore Dreiser In addition the author carefully considers the black and female writers Warren assessed more briefly in American Literature The Makers and the Making Robert Penn Warren Shadowy Autobiography and Other Makers of American Literature presents the breadth of Millichap's scholarship the depth of his insight and the maturity of his judgment by giving us to understand that in his writing Robert Penn Warren came to know his own vocation as a poet and critic and as an American

Henry Green at the Limits of Modernism Marius Hentea, 2013-11-01 Although Henry Green has been recognised by James Wood David Lodge and John Updike as one of the most innovative writers of his time his significant achievement remains largely neglected Henry Green at the Limits of Modernism provides a theoretically sophisticated and historically nuanced reading of Green's novels and makes the case for Green's importance in reconsiderations of modernism late modernism and post war realism This work is the most ambitious reassessment of Green's oeuvre to date and thus critical reading for scholars

interested in modernism late modernism and the evolution of British post war fiction Arguing against the predominant view of Green s fiction as an autonomous literary construction the work connects Green to a number of social and literary contexts resulting in fresh readings of his novels and also a greater accessibility to an author long considered oblique and elusive With significant investigations of Green s connection to his literary generation his multifaceted and formally innovative handling of social class his negotiations of narrative authority and authorship and the importance of disability studies to understanding Green s fiction this study charts the complex trajectories of Green s fiction against both social and literary contexts The work also moves beyond the narrow confines of British literature to explore Green s connections to broader trends in European literature

S. Naipaul and World Literature** Vijay Mishra,2024-02-08 V S Naipaul is a major and controversial figure in postcolonial and world literature This book provides a challenging and uncompromisingly honest study that engages with history genre theory aesthetics and global literary culture with close reference to Naipaul s published and archival material In his fiction and creative histories the definition of the modern idea of world literature is informed by the importance of an artistic ordering of perception Although often expressing ideas that are prejudicial and morally repugnant there is an honesty in his writings where one finds extraordinary insights into how life is experienced within colonial structures of power These colonial structures provided no abstract unity to the field of literary expression and ignored vernacular cultures The book argues that a universal ideology of the aesthetic transcending time regions and languages provides world literature with a unity which is possible only within a critical universal humanism attuned to heroic readings of texts and cultures
