American Culture in the 1930s David Eldridge, 2008-10-08 This book provides an insightful overview of the major cultural forms of 1930s America literature and drama music and radio film and photography art and design and a chapter on the role of the federal government in the development of the arts The intellectual context of 1930s American culture is a strong feature whilst case studies of influential texts and practitioners of the decade from War of the Worlds to The Grapes of Wrath and from Edward Hopper to the Rockefeller Centre help to explain the cultural impulses of radicalism nationalism and escapism that characterize the United States in the 1930s **Branding the American West** Marian Wardle, Sarah E. Boehme, 2016-02-17 Artists and filmmakers in the early twentieth century reshaped our vision of the American West In particular the Taos Society of Artists and the California based artist Maynard Dixon departed from the legendary depiction of the Wild West and fostered new images or brands for western art This volume illustrated with more than 150 images examines select paintings and films to demonstrate how these artists both enhanced and contradicted earlier representations of the West Prior to this period American art tended to portray the West as a wild frontier with untamed lands and peoples Renowned artists such as Henry Farny and Frederic Remington set their work in the past invoking an environment immersed in conflict and violence This trademark perspective began to change however when artists enamored with the Southwest stamped a new imprint on their paintings The contributors to this volume illuminate the complex ways in which early twentieth century artists as well as filmmakers evoked a southwestern environment not just suspended in time but also

permanent rather than transient Yet as the authors also reveal these artists were not entirely immune to the siren call of the vanishing West and their portrayal of peaceful yet exotic Native Americans was an expansion rather than a dismissal of earlier tropes Both brands cast a romantic spell on the West and both have been seared into public consciousness Branding the American West is published in association with the Brigham Young University Museum of Art Provo Utah and the Stark Museum of Art Orange Texas

William Wordsworth and the Ecology of Authorship Scott Hess, 2012 In William Wordsworth and the Ecology of Authorship Scott Hess explores Wordsworth's defining role in establishing what he designates as the ecology of authorship a primarily middle class nineteenth century conception of nature associated with aesthetics high culture individualism and nation Instead of viewing Wordsworth as an early ecologist Hess places him within a context that is largely cultural and aesthetic The supposedly universal Wordsworthian vision of nature Hess argues was in this sense specifically male middle class professional and culturally elite factors that continue to shape the environmental movement today

political image in 1930s America *New Deal Art in Arizona* Betsy Fahlman, 2009-11-15 Arizona's art history is emblematic of the story of the modern West and few periods in that history were more significant than the era of the New Deal. From Dorothea Lange and Ansel Adams to painters and muralists including Native American Gerald Nailor, the artists working in Arizona under New Deal programs were a notable group whose art served a distinctly public purpose. Their photography, paintings, and sculptures remain significant exemplars of federal art patronage and offer telling lessons positioned at the intersection of community history and culture. Art is a powerful instrument of historical record and cultural construction, and many of the issues captured by the Farm Security Administration photographers remain significant issues today: migratory labor, the economic volatility of the mining industry, tourism, and water usage. Art tells important stories too, including the work of Japanese American photographer Toyo Miyatake in Arizona's internment camps, murals by Native American artist Gerald Nailor for the Navajo Nation Council Chamber in Window Rock, and African American themes at Fort Huachuca. Illustrated with 100 black and white photographs and covering a wide range of both media and themes, this fascinating and accessible volume reclaims a richly textured story of Arizona history with potent lessons for today.
