Dark Matter Richard Langston, 2020-08-04 Unravelling the thought of Alexander Kluge and Oskar Negt Collaborators for more than four decades lawyer author filmmaker and multimedia artist Alexander Kluge and social philosopher Oskar Negt are an exceptional duo in the history of Critical Theory precisely because their respective disciplines think so differently *Dark Matter* argues that what makes their contributions to the Frankfurt School so remarkable is how they think together in spite of these differences Kluge and Negt's gravitational thinking balances not only the abstractions of theory with the concreteness of the aesthetic but also their allegiances to Frankfurt School mentors with their fascination for other German French and Anglo American thinkers distinctly outside the Frankfurt tradition At the core of all their adventures in gravitational thinking is a profound sense that the catastrophic conditions of modern life are not humankind's unalterable fate In opposition to modernity's disastrous state of affairs Kluge and Negt regard the huge mass of dark matter throughout the universe as the lodestar for thinking together with others for dark matter is that absolute guarantee that happier alternatives to our calamitous world are possible As illustrated throughout Langston's study dark matter's promise its critical orientation out of catastrophic modernity finds its expression above all in Kluge's multimedia aesthetic

The End of Philosophy of Religion Nick Trakakis, 2011-10-20 The End of Philosophy of Religion explores the hitherto uncharted waters of the meta philosophy of religion that is the methods and assumptions underlying the divergent ways of writing and studying the philosophy of religion that have emerged over the last century It is also a first class study of the weaknesses of the analytic approach in philosophy particularly when it is applied to religious and aesthetic experience Nick Trakakis main line of argument is twofold Firstly the Anglo American analytic tradition of philosophy by virtue of its attachment to scientific norms of rationality and truth inevitably struggles to come to terms with the mysterious and transcendent reality that is disclosed in religious practice Secondly and more positively alternatives to analytic philosophy of religion are available not only within the various schools of so called Continental philosophy but also in explicitly narrative and literary approaches Scenes of Witnessing in Paul Celan, Anselm Kiefer and Daniel Libeskind Eric M.
