Anselms Discovery A Reexamination Of The

Matthew Taylor

Anselm's Discovery A Reexamination Of The:

Anselm's Discovery, 1980 **Anselm's discovery** Charles Hartsthorne, 1887 *Anselm Revisited* Robert D. Shofner, 2023-10-09 **Understanding Anselm's Ontological Argument** Guy Jackson, 2023-08-24 Anselm's ontological argument is one of the most fascinating most controversial and most misunderstood arguments in the entire history of Western thought By centring the argument firmly in the Neoplatonic tradition within which Anselm was writing *Understanding Anselm's Ontological Argument* sheds fresh light and clarity on this enigmatic piece of philosophy It argues that far from resting upon a fallacy or illegitimately attempting to define God into existence Anselm's argument is a powerful and plausible philosophical proof and deserves to be taken seriously as such Written to be understandable for specialists and non specialists alike *Understanding Anselm's Ontological Argument* is ideal for scholars and researchers in philosophy of religion and philosophy in the Middle Ages especially Neoplatonism as well as for medievalists in general **The Cambridge Companion to Anselm** Brian Davies, Brian Leftow, 2004-12-02 Publisher Description *OCR Philosophy of Religion for AS and A2* Matthew Taylor, 2009-01-13 *OCR Philosophy of Religion for AS and A2* is a textbook for students of Advanced Subsidiary or Advanced Level courses endorsed by OCR for use with the OCR GCE Religious Studies specification The book covers all the topics of the Philosophy of Religion component of the A Level specification in an enjoyable and student friendly fashion This second edition has been restructured for the revised specification and now includes new chapters on the Nature of God and Religion and Science Each chapter includes a list of key issues to introduce students to the topic OCR specification checklist to allow students to see which topics from the specification are covered in each chapter explanations of key terminology discussion questions thought points and activities exam style practice questions self test review questions helpful summaries annotated further reading suggestions To maximize students chances of exam success the book includes a chapter dedicated to answering examination questions The book comes complete with lively illustrations a comprehensive glossary a full bibliography and a companion website at www.routledge.com/textbooks/9780415468244

Ontological Arguments Graham Oppy, 2018-10-31 Ontological arguments are one of the main classes of arguments for the existence of God and have been influential from the Middle Ages right up until the present time This accessible volume offers a comprehensive survey and assessment of them starting with a sequence of chapters charting their history from Anselm and Aquinas via Descartes Leibniz Kant and Hegel to G del Plantinga Lewis and Tich This is followed by chapters on the most important topics to have emerged in the discussion of ontological arguments the relationship between conceivability and possibility the charge that ontological arguments beg the question and the nature of existence The volume as a whole shows clearly how these arguments emerged and developed how we should think about them and why they remain important today *The Loss and Recovery of Transcendence* John C. Robertson, 1995-01-01 This long standing series provides the guild of religion scholars a venue for publishing aimed primarily at colleagues It includes scholarly monographs revised

dissertations Festschriften conference papers and translations of ancient and medieval documents Works cover the sub disciplines of biblical studies history of Christianity history of religion theology and ethics Festschriften for Karl Barth Donald W Dayton James Luther Mays Margaret R Miles and Walter Wink are among the seventy five volumes that have been published Contributors include C K Barrett Francois Bovon Paul S Chung Marie Helene Davies Frederick Herzog Ben F Meyer Pamela Ann Moeller Rudolf Pesch D Z Phillips Rudolf Schnackenburgm Eduard Schweizer John Vissers

The Art and Logic of Ramon Llull Anthony Bonner,2007 This book attempts to explain the functioning of the combinatorial semi mechanical demonstrative techniques of Ramon Llull s Art how it began as an apologetic instrument how it developed through two main stages and how it ended trying to reformulate key aspects of medieval Aristotelian logic The Blackwell Companion to Modern Theology Gareth Jones,2008-04-15 In this major reference work a team of the world s leading theologians provides a powerful overview of modern theology Covers theology s relation to other disciplines the history of theology major themes key figures and contemporary issues Can be used as the basis for an introductory course or as an essential reference source

Process and Analysis George W. Shields,2003-01-01 Leading thinkers from both traditions explore common philosophical topics

God at the Crossroads of Worldviews Paul Seungoh Chung,2016-10-22 Debates about the existence of God persist but remain at an impasse between opposing answers God at the Crossroads of Worldviews reframes the debate from a new perspective characterizing the way these positions have been defined and defended not as wrong per se but rather as odd or awkward Paul Chung begins with a general survey of the philosophical debate regarding the existence of God particularly as the first cause and how this involves a bewildering array of often incommensurable positions that differ on the meaning of key concepts criteria of justification and even on where to start the discussion According to Chung these positions are in fact arguments both from and against larger more comprehensive intellectual positions which in turn comprise a set of rival worldviews Moreover there is no neutral rationality completely independent of these worldviews and capable of resolving complex intellectual questions such as that of the existence of God Building from Alasdair MacIntyre s writings on rival intellectual traditions Chung proposes that to argue about God we must first stand at the crossroads of the different intellectual journeys of the particular rival worldviews in the debate and that the discovery of such a crossroad itself constitutes an argument about the existence of God Chung argues that this is what Thomas Aquinas accomplished in his Five Ways which are often misunderstood as simple proofs From such crossroads the debate may proceed toward a more fruitful exploration of the question of God s existence Chung sketches out one such crossroad by suggesting ways in which Christianity and scientific naturalism can begin a mutual dialogue from a different direction God at the Crossroads of Worldviews will be read by philosophers of religion advanced undergraduate and graduate students and theologians and general readers interested in the new atheism debates

Debating Christian Theism J. P. Moreland,Chad V. Meister,Khaldoun A. Sweis,2013-08-15 This volume offers groundbreaking dialogue by many of the most

prominent scholars in the field in a definitive treatment of central issues in theism and Christian faith *Ontology* Dale Jacquette, 2014-12-18 The philosophical study of what exists and what it means for something to exist is one of the core concerns of metaphysics This introduction to ontology provides readers with a comprehensive account of the central ideas of the subject of being This book is divided into two parts The first part explores questions of pure philosophical ontology what is meant by the concept of being why there exists something rather than nothing and why there is only one logically contingent actual world Dale Jacquette shows how logic provides the only possible answers to these fundamental problems The second part of the book examines issues of applied scientific ontology Jacquette offers a critical survey of some of the most influential traditional ontologies such as the distinction between appearance and reality and the categories of substance and transcendence The ontology of physical entities space time matter and causation is examined as well as the ontology of abstract entities such as sets numbers properties relations and propositions The special problems posed by the subjectivity of mind and of postulating a god are also explored in detail The final chapter examines the ontology of culture language and art

Depths As Yet Unspoken Roland Faber, 2020-07-30 Whitehead's thought continues to attract attention in mathematics and metaphysics but few have recognized with Roland Faber the deeply mystical dimensions of his philosophy If you like to phrase it so Whitehead states philosophy is mystical For mysticism is direct insight into depths as yet unspoken Where however do these unspoken depths speak in Whitehead and what are their associated themes in his philosophy For the first time *Depths As Yet Unspoken* gathers together Faber's most compelling writings on Whitehead's mutually immanent themes of mysticism multiplicity and divinity In dialogue with a diversity of voices from process philosophers and theologians to mystical and poststructuralist thinkers Faber creatively articulates Whitehead's theopoetic process cosmogony in its relevance to metaphysics cosmology everyday experience religious pluralism and interreligious violence spirituality and longstanding concerns of the theological tradition including creation the Trinity revelation religious experience and divine mystery Although Whitehead's mystical inclinations may not be obvious at first they in fact constitute the apophatic backdrop to his entire philosophical corpus Through Faber's work Whitehead's philosophy is revealed to be nothing short of a remarkable endeavor to speak to the unfathomable depth of things **Heirs and Ancestors** John K. Ryan, 2018-03-02

Among the many thinkers discussed in this volume are Sartre Frankl Hartshorne Ortega Kant Leibniz Descartes John of St Thomas Anselm Bonaventure Augustine Plotinus and Aristotle **The Existence of God** Yujin Nagasawa, 2011-04-19 Does God exist What are the various arguments that seek to prove the existence of God Can atheists refute these arguments The Existence of God A Philosophical Introduction assesses classical and contemporary arguments concerning the existence of God the ontological argument introducing the nature of existence possible worlds parody objections and the evolutionary origin of the concept of God the cosmological argument discussing metaphysical paradoxes of infinity scientific models of the universe and philosophers discussions about ultimate reality and the meaning of life the design argument addressing Aquinas

s Fifth Way Darwin s theory of evolution the concept of irreducible complexity and the current controversy over intelligent design and school education Bringing the subject fully up to date Yujin Nagasawa explains these arguments in relation to recent research in cognitive science the mathematics of infinity big bang cosmology and debates about ethics and morality in light of contemporary political and social events The book also includes fascinating insights into the passions beliefs and struggles of the philosophers and scientists who have tackled the challenge of proving the existence of God including Thomas Aquinas and Kurt G del who at the end of his career as a famous mathematician worked on a secret project to prove the existence of God The Existence of God A Philosophical Introduction is an ideal gateway to the philosophy of religion and an excellent starting point for anyone interested in arguments about the existence of God *Hume's Reflection on Religion* Miguel A. Badía Cabrera, 2012-12-06 This book presents a comprehensive interpretation of Hume s serious reflection on religion from the perspective afforded by his philosophical project and its Enlightened ends I relate his account of the origin development and significant effects of religious beliefs to his own historical works and conversely take the former as the leading thread into the disclosure of a Humean philosophy of history I also critically analyze his views about the eminently irrational and feigned character of most religious faith and its inevitable negative effect on morality Finally I examine Hume s attack on the validity of the conclusions of rational theology Reasonable support is provided for the claim that the belief in God as an intelligent author of the universe is a natural and reasonable belief This work may interest both scholars and general readers who are intrigued or troubled by religion and the issues of the utmost importance which it raises

Encountering Cruelty: The Fracture of the Human Heart Michael R. Trice, 2011-04-21 Interest in recent years in reconciliation and conflict transformation has witnessed a great deal of attention to building a future through forgiveness and preventative measures in order to impede egregious wrongdoing This effort for a reconciled future is absent reflection on the nature of cruelty Cruelty has always been apparent in massive acts of wrongdoing and yet is repeatedly concealed in our assessment of the acts themselves This book is a theologically honest and deep structure exploration of cruelty in its personal communal and institutional encounters in human life Drawing on Nietzsche s challenge of cruelty to the western tradition the work offers a comprehensive study of how cruelty undermines care trust respect and justice all those elements of human reciprocity that mark our lives as interdependent beings The work concludes with a tightly written Epilogue on interpreting the theological meaning and accessibility of reconciliation today **Animal Theologians** Andrew Linzey, Clair Linzey, 2023 Many people who have thought about God have not thought about animals or about the relationship between the two But among those who have are some of the most celebrated religious thinkers including Michel de Montaigne Thomas Tryon John Wesley John Ruskin Leo Tolstoy Mohandas K Gandhi Albert Schweitzer and Paul Tillich This volume comprises 24 scholarly studies that detail challenges to the dominant anthropocentrism of most religious traditions The editors have brought together Jewish Unitarian Christian transcendentalist Muslim Hindu Dissenting deist and Quaker voices each offering a

unique theological perspective that counters the neglect of the nonhuman Animal Theologians is divided into three parts starting with the pioneers who first saw a relationship between animals and divinity those who contributed to the expansion of social sensibility to animals and ending with the work of contemporary theologians The essays in this volume use contextual and historical background to describe what led animal theologians to their beliefs and then pave way for further developments in this expanding field This volume is an act of reclaiming different religious traditions for animals by recovering lost voices

Embracing the Song of Expression: An Psychological Symphony within **Anselms Discovery A Reexamination Of The**

In some sort of eaten by displays and the ceaseless chatter of immediate transmission, the melodic beauty and mental symphony created by the prepared word frequently fade in to the back ground, eclipsed by the constant noise and disruptions that permeate our lives. Nevertheless, nestled within the pages of **Anselms Discovery A Reexamination Of The** a wonderful fictional treasure overflowing with raw feelings, lies an immersive symphony waiting to be embraced. Crafted by a masterful composer of language, this charming masterpiece conducts viewers on a mental journey, well unraveling the concealed tunes and profound impact resonating within each cautiously constructed phrase. Within the depths with this moving examination, we can investigate the book is main harmonies, analyze their enthralling writing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
