The Accidental Playground Daniel Campo, 2013-09-10 The Accidental Playground explores the remarkable landscape created by individuals and small groups who occupied and rebuilt an abandoned Brooklyn waterfront While local residents activists garbage haulers real estate developers speculators and two city administrations fought over the fate of the former Brooklyn Eastern District Terminal BEDT others simply took to this decaying edge transforming it into a unique venue for leisure creative and everyday practices These occupiers and do it yourself builders created their own waterfront parks and civic spaces absent every resource needed for successful urban development including plans designs capital professional assistance consensus and permission from the waterfront's owners Amid trash ruins weeds homeless encampments and the operation of an active garbage transfer station they inadvertently created the Brooklyn Riviera and made this waterfront a destination that offered much more than its panoramic vistas of the Manhattan skyline The terminal evolved into the home turf for unusual and sometimes spectacular recreational social and creative subcultures including the skateboarders who built a short lived but nationally renowned skatepark a twenty five piece public marching band fire performance troupes artists photographers and

filmmakers At the same time it served the basic recreational needs of local residents Collapsing piers became great places to catch fish sunbathe or take in the views the foundation of a demolished warehouse became an ideal place to picnic practice music or do an art project rubble strewn earth became a compelling setting for film and fashion shoots a broken bulkhead became a beach and thick patches of weeds dotted by ailanthus trees became a jungle These reclamations all but ignored by city and state governments and property interests that were set to transform this waterfront momentarily added to the distinctive cultural landscape of the city's most bohemian and rapidly changing neighborhood Drawing on a rich mix of documentary strategies including observation ethnography photography and first person narrative Daniel Campo probes this accidental playground allowing those who created it to share and examine their own narratives perspectives and conflicts The multiple constituencies of this waterfront were surprisingly diverse their stories colorful and provocative When taken together Campo argues they suggest a radical reimagining of urban parks and public spaces and the practices by which they are created and maintained The Accidental Playground which treats readers to an utterly compelling story is an exciting and distinctive contribution to the growing literature on unplanned spaces and practices in cities today **Sports Videogames**
