Antaeus Contemporary Fiction:

Antaeus Daniel Halpern, 1983-04 The Postsouthern Sense of Place in Contemporary Fiction Martyn Bone, 2005-06-01

For generations southern novelists and critics have grappled with a concept that is widely seen as a trademark of their literature a strong attachment to geography or a sense of place In the 1930s the Agrarians accorded special meaning to rural life particularly the farm in their definitions of southern identity For them the South seemed an organic and rooted region in contrast to the North where real estate development and urban sprawl evoked a faceless raw capitalism By the end of the twentieth century however economic and social forces had converged to create a modernized South How have writers responded to this phenomenon Is there still a sense of place in the South or perhaps a distinctly postsouthern sense of place Martyn Bone innovatively draws upon postmodern thinking to consider the various perspectives that southern writers have brought to the concept of place and to look at its fate in a national and global context He begins with a revisionist assessment of the Agrarians who failed in their attempts to turn their proprietary ideal of the small farm into actual policy but whose broader rural aesthetic lived on in the work of neo Agrarian writers including William Faulkner and Eudora Welty By the 1950s adherence to this aesthetic was causing southern writers and critics to lose sight of the social reality of a changing South Bone turns to more recent works that do respond to the impact of capitalist spatial development on the South and on the nation generally including that self declared international city Atlanta Close readings of novels by Robert Penn Warren Walker Percy Richard Ford Anne Rivers Siddons Tom Wolfe and Toni Cade Bambara illuminate evolving ideas about capital land labor and class while introducing southern literary studies into wider debates around social cultural and literary geography Bone concludes his remarkably rich book by considering works of Harry Crews and Barbara Kingsolver that suggest the southern sense of place may be not only post Agrarian or postsouthern but also transnational **Antaeus**

The Metafictional Muse Larry McCaffery, 2010-10-12 McCaffery interprets the works of three major writers of radically experimental fiction: Robert Coover, Donald Barthelme and William H. Gass. The term metafiction here refers to a strain in American writing where the self-conscious approach to the art of fiction making is a commentary on the nature of meaning itself.

Women's Fiction from Latin America Evelyn Picon Garfield, 1988 Evelyn Picon Garfield has chosen selections from the prose works of twelve female authors representing seven Latin American countries to create a collection which speaks to a variety of issues and exhibits a pastiche of richly varied artistic styles. Containing short stories, a one-act play and excerpts from novels, the volume touches on such topics as political commitment and persecution, regional ethnicity of African and Indian cultures, social issues between classes and races, misogyny, the complexities of the human psyche and female solidarity. Garfield includes works from the six authors she interviewed for her *Women's Voices from Latin America* and has added selections from six other writers including Isabel Allende and Clarice Lispector.

The Kentucky Anthology Wade Hall, 2005-11-11 Long before the official establishment of the Commonwealth, intrepid pioneers ventured west of the Allegheny Mountains into an expansive, alluring wilderness that they began to call Kentucky. After blazing trails, clearing plots and surviving innumerable challenges, a few adventurers found time to pen celebratory tributes to their new homeland. In the two centuries that followed, many of the world's finest writers, both native Kentuckians and visitors, have paid homage to the Bluegrass State with the written word. In *The Kentucky Anthology*, acclaimed author and literary historian Wade Hall has

assembled an unprecedented and comprehensive compilation of writings pertaining to Kentucky and its land people and culture Hall's introductions to each author frame both popular and lesser known selections in a historical context He examines the major cultural and political developments in the history of the Commonwealth finding both parallels and marked distinctions between Kentucky and the rest of the United States While honoring the heritage of Kentucky in all its glory Hall does not blithely turn away from the state's most troubling episodes and institutions such as racism slavery and war Hall also builds the argument bolstered by the strength and significance of the collected writings that Kentucky's best writers compare favorably with the finest in the world Many of the authors presented here remain universally renowned and beloved while others have faded into the tides of time waiting for rediscovery Together they guide the reader on a literary tour of Kentucky from the mines to the rivers and from the deepest hollows to the highest peaks The Kentucky Anthology traces the interests and aspirations the achievements and failures and the comedies and tragedies that have filled the lives of generations of Kentuckians These diaries letters speeches essays poems and stories bring history brilliantly to life Jesse Stuart once wrote If these United States can be called a body Kentucky can be called its heart The Kentucky Anthology captures the rhythm and spirit of that heart in the words of its most remarkable chroniclers
