animación Jordi Sánchez-Navarro, 2020-04-13 Estudiar las circunstancias históricas de la animación es viajar por una historia paralela del cine Entrando y saliendo de la corriente principal de las formas fílmicas la animación ha sido motor de poderosos avances técnicos de osadas exploraciones formales y de radicales reformulaciones de la relación entre creadores y públicos Por ello estudiar la historia de la animación es adentrarse en una larga serie de transformaciones de las formas estéticas y de los usos sociales de la imagen que marcan el pasado el presente y el futuro de los medios audiovisuales más de lo que se suele contemplar desde la crítica académica A través del análisis de cincuenta títulos esenciales emprendemos un recorrido por los contextos geográficos y sociales los autores y los desarrollos tecnológicos que han sido determinantes en la historia de la animación Las películas analizadas en este libro constituyen un corpus esencial a través del cual se proponen al lector suficientes pistas para emprender un viaje apasionante por el universo de una de las formas expresivas más productivas de la historia de la imagen en movimiento una forma de materializar la imaginación humana que goza de un pasado glorioso y de un futuro muy prometedor
